**Great Dam at Cincinnati in the Ice Age.**

The country in the vicinity of Cincinnati owes its unsurpassed beauty to the operations of nature during the glacial era. It was the ice movements that gave to the terraces along the valleys and graceful contours of the summits of the hills that were so attractive to the pioneers. Here it was that the great ice movement from the north ended. As has been remarked, "These were the days of the beautiful lakes rather than the beautiful river."

**Cow Bells.**

The bell seen on a cow's neck looks like a very ordinary article, but in reality it is different from any other kind of bell in use, and is made especially for the purpose. There are several thousands sold annually in this country, and 90 per cent, if not more of them, are made in Collinsville, where the industry has assumed quite important proportions, shipments of cow bells going to Mexico and Canada, and even much more distant points.

**Reading Men by Means of the Dog.**

Warden Davis, of the Jackson (Mich.) prison, has a peculiar method of reading the nature of the prisoners in his charge. "A mean man hates a dog," said Warden Davis, "you can put that down as morally certain. I have stationed my old family dog here—good old son, never barks a mean thought in his life, did you, old man—at the gate as the convicts filed through, and watched their faces as they saw him. The men whom we know to be wicked, black souled criminals either look away from the dog or glare at him with a look of wild ferocity, while the better class of convicts smile pleasantly at the old chap and frequently favor him with a pleasant word."

**A Wonderful Cure**

Ulcer in the Stomach

Hood's Sarsaparilla Restores Flech Strength and Health.

"C. I. Hood & Co., Lowell, Mass.:

"I feel it my duty to suffering humanity to give a statement of the wonderful cure Hood's Sarsaparilla brought about for me. Over two years ago I became ill, due to an ulcer in my stomach. I had six or seven different physicians, whose standing was of the highest, but they did not cure me. I was broken down in health and lost in weight from

145 to 118 Pounds.

I could hardly get around, and after suffering severely for about a year, I commenced taking Hood's Sarsaparilla. After the first bottle I began to feel like a new man. I purchased another bottle and had not taken half of it when I was cured of my trouble. I am now in health, back to my old weight again and attending regularly to my work. I firmly believe Hood's Sarsaparilla saved my life." P. W. Bush, Anatomist, Pennsylvania. Get Hood's Sarsaparilla.

Hood's Pills are hand made, and perfect in proportion and appearance. 25c. per box.

**YES OR NO**

A Well-Known Physician, Who, Among Other Things, Is Noted for His Frankness.

No one ever heard Dr. E. Grower use the phrase "I think in his practice. The doctor is one of those frank, fearless, honest, positive men who never hesitate to say yes or no, as the case may require. "I can cure you" or "I cannot cure you," is his invariable decision after examination, and to this fact is attributable his remarkable record without failure. But it would be strange indeed if the doctor were not a more than usually successful practitioner. He has been surgeon-in-chief in more than one of the largest hospitals of this country, was lately Demonstrator of Pathology and Surgery at the Medical-Chirurgical College in Philadelphia, has been elected an honorary member of the Medical-Chirurgical Association, is a graduate of the University of Pennsylvania, etc., and is still a close student. A man with such a record could not fail to be a successful physician under any circumstances. But when backed by constant observation in expression, or to use a more popular phrase, the "sure-you're-right-then-go-ahead" system, it would be more than strange if failure overtook him.

You can consult Dr. Grower any day at Rooms 5 and 6.
