

The Two Races—Harmony.

We are gratified to learn, from the Alexandria Gazette, that the colored population of that city are waking up to the issues of the day, and are beginning to realize the true character of some of their would-be leaders from abroad.

We have no doubt but that the thinking colored men in Virginia as well as everywhere else, will feel that whatever may be their power, it would be impolitic to use it in a way to exasperate the white residents, whom they should rather strive to conciliate.

REGISTRATION.—The following is the result, says the Newberry Herald, so far as heard from: Frog Level—Whites 85; blacks 118.

Thaddeus Stevens is becoming more and more feeble every day. He had intended to visit Bedford this season, but was compelled to abandon the idea, on account of ill health.

DISCOVERY OF A NEW PLANET.—Prof. J. C. Watson, of Ann Arbor, Michigan, announces the discovery of a new planet, hitherto unknown, which was first seen by him on the 24th.

THE WINNSBORO NEWS.—Major W. W. Herbert has assumed the editorial management of our Fairfield contemporary. The following is the concluding paragraph of his salutatory:

"In the discussion of the issues before the country at this time, the military bill shall be the writer's guide, believing as he does, that the acceptance of the congressional plan of reconstruction is the only one which the people can look to for a solution of the difficulties which surround us; and never having been an extremist upon any political question, he will suffer no circumstances to lead him to a support of any measure, which, in his judgment, will not conduce to the good of the whole people.

VICE VERSA.—The time was when a lady wanted a nurse or a cook to try them and see how they liked them. Now a "colored lady," under the new law and order of things, tries the white lady, and if she can't get along with her, she lets her know it, and seeks a more profitable and pleasant person to live with.

Disorderly Conduct of Freedmen.—On last Wednesday, registration was commenced in St. Thomas Parish, at the Brick Church, under the superintendence of Mr. L. P. Smith, white, and Jeremiah Yates and Aaron Logan, colored.

He proceeded in this style of language for some time, until Mr. Smith, seeing that the passions of the crowd were becoming excited, exercised his authority, and adjourned the Board. Pursuant to the adjournment, the Board met at Mount Pleasant on Monday, and when the books were opened, about 300 freedmen were present, armed with various weapons.

Mr. Smith returned to Mount Pleasant yesterday, accompanied by Maj. O'Brien, the Provost-Marshal. The poll was re-opened and the freedmen invited to register, but this they declined doing, unless Logan was released.

The freedmen, finding that they were not permitted to enjoy the rights that Logan had declared them entitled to exercise, slowly dispersed, with threats to burn the village if they were not granted.

That is no evidence of ignorance, we are sure—who was President for the last two years has been a problem old political heads have vainly endeavored to solve—and it is a doubtful matter yet.

Divine service in the Presbyterian Church to-day, at 9 a. m., and a quarter before 8 in the evening.

The gift entertainment for the relief of the destitute poor of the South will be given in Washington City, on the 30th of September. Persons desirous of obtaining tickets will apply at once at the Phoenix office, as returns are to be made prior to the 16th of September, so that the necessary arrangements can be completed.

THE CLENDINGING HOUSE.—An advertisement of this private boarding house will be found in another column. The careful management of the establishment is well known. The rates for table board, as we learn, have been reduced to \$5 per week. A "sample room" is attached, where the thirsty traveler can be furnished with something else than a glass of ice water, provided his system should require it.

We have received a copy of the "Catalogue of the Greenville Baptist Female College, for the year 1867." The corps of teachers is complete and efficient, and the institution is fully supplied with chemical and philosophical apparatus, and experimental and illustrative lectures are regularly delivered.

REGISTRATION.—The number registered yesterday, in this city, was whites 65; colored 80. This is the last day for registration in the city, and we hope that, even for our local municipal election, the resident citizens will not fail to enfranchise themselves.

JOB PRINTING.—The Job Office of the Phoenix is as complete as any in the South. It is furnished with new fonts of type of all descriptions and of the most modern styles. All work executed promptly, with taste and skill, and at reasonable rates.

PHONOGRAPHY—MUNSON vs. GRAHAM.—We assume that most intelligent persons have some idea of the uses and advantages of a knowledge of phonography. The advantages of such knowledge are incalculable to the professional man—especially the editor, the teacher, the lawyer, the preacher, the lecturer and the litterateur.
