

SOON WAS ABLE TO DO HOUSEWORK

Spartanburg Woman Says She No Longer Needs Hired Girl—Explains Reason.

Though it had been necessary, because of her ill health, to have a nurse to assist in caring for the baby and help with the housework, Mrs. C. U. Cannon, of 375 Vernon St., Spartanburg, S. C., who took a dozen bottles of Tanlac, declared that "The Tanlac made me feel so well and strong, and really I am stronger and healthier than I have been in years." Discussing her bad health, Mrs. Cannon said: "I have suffered from general weakness. I felt badly a lot of the time and never was able to do my housework. I had to keep a nurse, as I could not lift the baby much, and also I had to have help to

do my housework. I always have been weak and frail. Before I began taking Tanlac, I had been almost completely broken down, had lost my appetite and was somewhat subject to indigestion. I suffered a lot with my back, which ached and pained me. "I had heard so much about Tanlac I finally began taking it, and I have taken a dozen bottles. The Tanlac increased my strength a great deal and built up my system. It was surprising the way I gained strength and energy, and my appetite was restored. I have not been troubled with my back since I took Tanlac, and I am able to do my work and care for the baby without the help of a hired girl. I am glad to recommend Tanlac, for it did so much for me."

FINAL EFFORT TO GET FARMERS TO ENROLL

Columbia, Oct. 7.—A final effort to enroll as members of the South Carolina Cotton Association all of the farmers, merchants, bankers, and professional men, who have not yet joined, will be made during the next four weeks, according to an announcement made Monday from state headquarters in this city.

In some sections of the state the membership campaign has been a wonderful success, says a statement by the association. In others the campaign has not been as successful as the officers of the association desired.

J. Skottowe Wannamaker, president of the association, has issued this appeal to the people of the state: "If you are satisfied to accept 15 and 20 cents a pound for your cotton

you need not join the South Carolina Cotton Association. If, however, you feel that you are entitled to a living profit from it and that if you are to educate your children and keep your family provided with the comforts of life it will be necessary for you to get 40 or 45 cents a pound for it, let me urge you to join the association.

"If the cotton farmer will organize he can demand a fair price for his cotton. The fruit growers organized and they are getting a living price for their product. The grain growers organized and they are now securing a living price for their product. The cotton farmers can demand a living price for their product if they will organize.

"The prosperity of the whole South is dependent upon the cotton farmers. If cotton brings a good price the South prospers. If the price is low

and the farmers have no money the South suffers. The banker, the merchant, and the business men depend upon the farmer for their living. That is why they should join the association.

"Reports from over the belt indicate that the other state of the cotton belt are organizing strongly. I do hope South Carolina will keep pace with them. I want to make this final appeal to the people of my state to join the association. The returns will be great."

QUIET PREVAILS IN STEEL ZONE

Chicago, Oct. 8.—Quiet prevailed today throughout the Indiana zone of the Chicago steel strike district with federal and State troops in control of the situation.

At Gary, Ind., where where Major

Gen. Leonard Wood, commanding 1,600 federal troops, has established "military control" government agents seized a quantity of radical literature in several raids and a number of persons were brought before the military authorities and questioned. They were released later.

An effort by several hundred strike sympathizers to hold a meeting in one of the city parks at Gary this afternoon was broken up by troops without violence or arrests. The crowd scattered upon being warned by officers in command of the troops.

Several arrests were made during the day on charges of carrying concealed weapons.

Gen. Wood and Major Hodges issued statements at Gary attributing recent disturbances there to "red leaders."

Exceptional Offerings in Real Estate
