COMPELLED TO DEFEND HIMSELF

President Taft Says He Was Hit Below the Belt.

TOURING HIS HOME STATE

Executive Makes Brief Stops in Adams County and Addresses Large Crowds, Being Unaware of the Fact That Nearly All Its Voters Are Disfranchised.

Portsmouth, O., May 9.—"I'm up against the wall and I'm being hit," shouted President Taft in a speech here. "I'm being hit below the belt, and I'm here to fight," he continued, and the crowd yelled with delight.

At Winchester, Seaman and Peebles the president was speaking in Adams county, where Judge A. Z. Blair, disfranchised for several years nearly 2,000 men for being concerned in vote buying and vote selling, although he did not know this until later.

The humorous side of the situation appealed to one man who was on the station platform at Seaman.

"What's he talking to these people for?" he asked. "They're all disfranchised anyhow."

By the time he reached Peebles, the last stop before reaching Portsmouth, the president had warmed up to his subject.

"I am said to represent the interests, to be under the influence of special privileges," he said. "Well, let us see points to trust prosecutions."

"There is no administration in the history of the government in which the prosecutions have been so uniform and have been so prosecuted without fear and so without regard to consequence. The interstate commerce commission reported against Dan Hanna of Cleveland that he was accepting rebates. I put him before the attorney general and the district attorney and the grand jury and they found an indictment."

"And now he is one of the patriots that is loudest in denunciation of me and strongest in support of Theodore Roosevelt."

"I followed the policies of Theodore Roosevelt and prosecuted all the trusts and I went a little further than that. I prosecuted the steel trust and also the harvestor trust. Now I ask you to give me a square deal."

After consulting with Republican leaders in Ohio President Taft has decided to spend ten days more in the state before the primaries, May 21.

CLOSE CONTEST IN ST. PAUL

KANSAS IS FOR ROOSEVELT

State Convention Endorses Colonel's Candidacy.

Independence, Kan., May 9.—The Republican state convention, called to name four delegates at large to the national convention, endorsed the candidacy of Colonel Roosevelt for the presidential nomination and instructed the "big four" to vote for him from the first ballot to the last. Roosevelt men completely dominated the convention.

William Allen White of Emporia was endorsed for national committeeman. Fred Stanley of Wichita was temporary chairman and Governor Stubbs, permanent chairman.

Wolf Bounties are Doomed by Scandal.

Pierre, May 1.—The developments in the wolf bounty cases in the Black Hills indicates a close agreement between the county auditor of Fall River and a few "hunters" in which the number of wolves killed had nothing whatever to do with the number of scalps certified to, and there was a division of the profits. The whole situation means litigation not only in regard to the fraud used in securing the bounty certificates, but in their payment as well, and a stirring up which spells the end of state wolf bounty for South Dakota, with thousands of dollars secured fraudulently by the system used to work the deal over between the "hunters" and the county auditor.

J. F. Ford, after an absence of a year or so, returned to look after his interests here. Mr. Ford made the trip across country from the hills, and found it rather a difficult matter to make good connections. He thinks that this summer the stage men ought to get together and establish direct communication between Lemmon and the hills country, at a reasonable rate, and believes that such action would become quite popular. Mr. Ford has landed interests in the Bell Fourche reservoir country and states that this year that tremendous reservoir, 12 miles long and 4 miles wide, is filling up fine, storing water enough to meet the demand for two seasons.

Flax for Adams County.

The county commissioners of Adams county have at last succeeded in arranging for the purchase of seed flax, securing 3,500 bushels of excellent quality. This flax will be delivered to farmers under the terms of their applications heretofore made, and to none others who have made no applications. The price will be between \$2.45 and \$2.48. Delivery will be made by the elevator company. The county will issue special seed grain warrants for the value of this seed, the county banks having agreed to handle the warrants, and buyers of the seed being thus placed in a position to pay for their share at any reasonable time.

From Wentworth, S. D., comes the news of the marriage of Miss Emma Unzelmann, formerly of this city, to Mr. Wm. Blase, of Madison. The nuptials took place at the home of the bride's parents, the bride being attired prettily in a gown of white satin, and carrying orange blossoms. Miss Clara Unzelman and Miss Maude Brewer, the latter of Lemmon, were bride's maids. The young bridal pair will establish their home on the groom's farm near Wentworth. Congratulations.

Judge C. C. Carpenter and Court Reporter Linstad left Sunday afternoon for Buffalo, for the session of circuit court for Harding county. It is thought that this sitting will last about ten days.

Ten to Fifteen Bushels More Corn per Acre.

Is the result of planting the same number of kernels to each hill. This can be accomplished by the use of the

Deer No. 9 Edge Drop Corn Planter

Accuracy in the drop of a corn planter is the most important feature. The price of a corn planter can be lost on a mighty small acreage of corn by using a kind that does not drop accurately.

The Edge Drop on the Deer No. 9 has patented features and these features that the other fellow can't use puts the Deer in a class by itself for accuracy of the drop.

This is a clean cut fact--a carefull inspection will bear this statement out.

Another Point The Deer No. 9 is free from the trappy and novelty features found on other planters which soon cause grief and trouble, and means loss of time and money. Very often the loss of just one day in the field at planting time means a loss, more than the price of the planter. Insure yourself against such a loss by purchasing a DEER No. 9 Edge Drop
