

THE HERALD.

BIG STONE CITY, DAKOTA.

FRIDAY, MAY 11, 1888.

W. W. DOWNIE, Editor and Publisher.

REPUBLICAN COUNTY CONVENTION.

A Republican Delegate Convention for the County of Grant will be held Saturday, the 12th day of May, 1888, at 2 o'clock P. M., at the Court House in the city of Milbank, for the purpose of selecting 7 Delegates to represent Grant County in the Territorial Republican Convention, to be held at Jamestown, Dakota, on the 16th day of May, 1888.

It is recommended that the caucuses in the various precincts in said county be held on Thursday, May 10th, 1888, at 3 o'clock P. M., except those of Milbank and Big Stone City, which are recommended to be held at 8 o'clock P. M. the same day. The following apportionment is given to show the number of delegates to which each precinct is entitled:

Chairman Rep. Con.

To Whom it May Concern.

This will announce to the people of Grant county that I am not a candidate for the office of county superintendent of schools at the county election in June.

In retiring from the office, I wish to thank the people for the courteous manner in which I have been treated during my connection with the school affairs of the county. My efforts have all been met by a hearty cooperation on the part of all with whom I have been officially associated in this work, and I bespeak for my successor a pleasant field of labor.

I step out of the office independently and will not under any consideration use my official position or acquaintance in this county to the advantage or disadvantage of any of the present candidates.

I hope that a genuine interest will be taken in the election as it is an important office, and should receive the careful consideration of every voter in the county. Hoping that the expectation of the people may be fully met. I remain very truly yours,

C. S. AMSDEN, Co. Supt

One of the instances of the extreme partisanship of Democratic members of Congress in regard to Dakota was brought out by Senator Davis comparing the bill prepared by Senator Butler for the admission of Utah and the bill prepared by the same gentleman for the admission of Dakota. In the Utah bill, after the constitution of the proposed state has been ratified by the people, the new state is to come into the union by a simple proclamation of the President, which the law makes it his duty to issue. But in the case of Dakota, after the people have ratified their constitution, the question must again be subjected to congressional action, with the probability that it would be repudiated by congress if any partisan advantage could be gained thereby. Democratic Utah with a population of 169,000 recruited by Mormon missionaries from the ignorant classes of Europe and the southern states, a territory that has been in disguised rebellion against the government for the past fifteen years, and has required more special legislation assisted by United States troops, to enforce a compliance in republican institutions than all the other territories combined, is to be admitted with all the speed possible, because she is democratic. But Dakota, with a population of over 600,000, composed of intelligent freemen, devoted in their attachment to the principles of republican institutions, is to be kept as long possible out of the union for mere partisan advantage. Such is the democratic idea of justice.

Look at my face and my hands—not a pimple, such as you saw there some time ago. See my fresh cheeks, and I'm getting a dimple.

I don't look at all like I used to. I know. My face was all blotches—complexion like tallow.

No wonder they thought me and called me a right!

No one one need have pimples and skin gray and sallow.

If she'll take what I took, every morn, noon, and night.

I asked the delighted young woman what she referred to, and she answered, Dr. Pierce's Golden Medical Discovery. It is the best beautifier in the world, because it purifies the blood, and pure blood gives good health, and good health is always beautiful.

FROM OUR NEIGHBORS.

What Our Saloons Cost.

Milbank Index. Some have thought that \$40,000 was too large an estimate of the amount formerly paid to the saloons in Milbank but some others have been figuring on it and have concluded that more money than that is actually paid to the saloons every year, and they put it at from \$60,000 to \$75,000. One gentleman says that the law of Iowa at one time compelled saloon keepers to make returns of the amount and costs of liquors sold, and that in one town of 1100 inhabitants over \$60,000 were annually spent for liquor. There is now no such expenditure in Milbank saloons. Where does the money go? It goes into legitimate trade—the shoe store grocery, dry goods and other stores. Families are better clothed, fed and cared for. The money may be spent just the same, but it is not wasted in riotous living.

Ortonville Herald-Star. Definite and substantial work is progressing at the quarries this week. Joe Harter is in charge of the building crew, and material is being hauled for the erection of a blacksmith shop, polishing shop, and engine house. A large boarding house will also be provided. Supt. Light is on hand getting things in readiness to place the machinery as soon as it arrives, when the work of getting out rock will be commenced. Supt. Light contradicts the statement made in a St. Cloud paper, that the columns for the new Pioneer Press building in St. Paul could be obtained at but two quarries in the United States, the one at St. Cloud and one in Missouri. He says the Ortonville quarry can produce a finer column than can be obtained at St. Cloud and predicts that the contractors will half to come here eventually. These columns cost \$20,000, the firm of J. H. Drake & Co., of St. Paul, having taken the contract to furnish them at that price. Apparently a beginning has at last been made upon what will eventually prove a great industry, one that will build up Ortonville as no other one enterprise could. Let's help the boom along by voting a safe and efficient water supply, and Ortonville's future is assured.

Montevideo Leader. There is a perceptible improvement in the wheat market and the impression prevails that the era of depression is over and that henceforth the farmers can expect better returns for their labor and capital. But there is no likelihood of their receiving old-time high prices for many years at least, and surely not as long as America raises a surplus for exportation that is so large that speculators can rely upon it in their calculations. With the product reduced to just about the home demand, there would be a very material increase in the prices of wheat. We verily believe that if the average American wheat producer was reduced 20 per cent that the lesser crop would be worth at least 20 per cent more than the full crop is worth now.

Yankton Press and Dakotian. It is a point to be always remembered in favor of Dakota and adjoining states and territories that upon these broad plains of the west tree planting and tree culture is the first industry of its pioneer and the settled industry of the hosts of civilization who follow in the pioneer wake. Beginning with nothing in the way of foliage and timber protection, our people toil unremittingly to supply the one shortcoming of nature. While this is true upon the plains of the west, in the forest covered states of the east an opposite condition prevails, and a denuding process goes on from year to year. Forests have much to do with the regulation of climate and rainfall—their destruction decreases moisture, brings lower temperature and encourages disastrous winter storms, while their cultivation brings moisture, modifies temperature and reduces the storm maximum. Our advantage over the states of the east is that here the process of forest restoration is going steadily forward, while there forest destruction at a rapid rate is the rule. The west creates, the east destroys. Under such relative conditions it is not difficult to locate the future homes of the masses and their future feeding ground. Our certainty in the future is that we advance while the old settled sections retrograde.

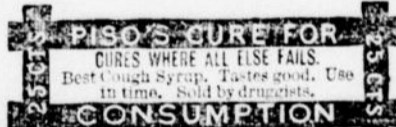

AN EXPLANATION.

What is this "nervous trouble" with which so many seem now to be afflicted? If you will remember a few years ago the word Malaria was comparatively unknown.—to-day it is as common as any word in the English language, this word covers only the meaning of another word used by our forefathers in times past. So it is with nervous diseases, as they and Malaria are intended to cover what our grandfathers called Biliousness, and all are caused by troubles that arise from a diseased condition of the liver which in performing its functions finding it cannot dispose of the bile through the ordinary channel is compelled to pass it off through the system, causing nervous troubles, Malaria, Bilious Fever, etc. You who are suffering can well appreciate a cure. We recommend Green's August Flower. Its cures are marvelous.

DRESS-MAKING AND FAMILY SEWING

Patterns Cut by Measure for Ladies' and Children's Underwear.

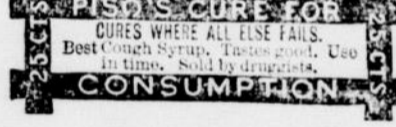

Prices reasonable. MRS. IDA BARNES, At the Bratberg House.

I believe PISO'S CURE for Consumption saved my life.—A. H. DOWELL, Editor Enquirer, Edenton, N. C., April 23, 1887.

The BEST Cough Medicine is PISO'S CURE FOR CONSUMPTION. Children take it without objection. By all druggists. 25c.

MONTANA SHORT LINE.

When traveling every one should consider well the questions of economy, comfort, safety and speed, these questions being of the same importance in a journey of an hour as in one of several days' ride. An examination of the map will convince anyone that this is the most direct route to and from all the principal points in Central and Northern Minnesota, Dakota and Montana. Our equipment and time are excellent. Our rates are the lowest, but this fact is something which speaks for itself. Definite figures and maps can be obtained by applying to any Agent of the Company, or the General Passenger Agent. The following are a list of the Principal Points reached via this Line: St. Cloud, Sauk Centre, Briggs Falls, Crookston, St. Vincent, Hutchinson, Ponsness, Morris, Appleton and Bensonville, Mankato, Waretown, Aberdeen, Ellendale, Wheaton, Fargo, Grand Forks, Girard, Devils Lake, Bismarck and Bismarck, Dakota; Glasgow, Davenport, Ashland, Ellendale, Ft. Benton, Great Falls, Helena and Butte, Montana; Winnipeg, Manitoba, and all Pacific Coast Ports. Parties seeking farms or business locations will find unusual opportunities for both on this line in Northern Dakota and Montana, also in Minnesota where the Company has for sale at low prices and on favorable terms 2,000,000 acres of excellent farming, grazing and timber lands. For maps and other information address, J. BOOKWALTER, C. H. WARREN, Land Commissioner, Gen'l Pass. Agt., ST. PAUL, MINN. A. MANVEL, W. S. ALEXANDER, Gen'l Manager, Gen'l Traffic Manager.
