KILLED BY FALLING TREE
SKULL BADLY FRACTURED
Paul Smith, Son of Mr. and Mrs. J. W. Smith, Family Home Yester-
day Afternoon.

Yesterday afternoon, while cutting wood in a certain area of the
farm, he was cut by a falling tree and beared instant death.

The accident occurred in a certain area of the farm, where he
had been among the natural hazards which follow in the
summer season. A falling tree is one of the hazards which
are not entirely in the control of man, even when he tries to
avoid them by taking precautions.

Paul Smith was a member of the family of Mr. and Mrs. J. W.
Smith, and his death is a great loss to the community.

TUESDAY
A GRASS BURIED UNDER THE CITY OF WASHINGTON

The actual site of the ancient city in which great trees flourished
in a region that is now known as Washington, D. C., is a
deep excavation made for the founda-
tions of the new government building.

Evidence of the existence of an
ancient city in which great trees flourished in a region that is now
known as Washington, D. C., is a
deep excavation made for the founda-
tions of the new government building.

A FOREST BURIED UNDER THE CITY OF WASHINGTON

Supported to be 3,500 to 30,000 years old according to estimates
of the date, ancient trees are revealed in the excavation of the
foundation of a new government building in Washington, D. C.

A forest has been discovered at an altitude of about 1,500 feet
above sea level, where the present city of Washington is located.

The trees are of the same species as those found in the
ancient city, and are believed to be over 10,000 years old.

The forest was cut down some time before the city of Washington
was founded.

The forest is believed to be the remains of an ancient forest that
covered the area before it was settled by the early settlers.
