DIED—June 6th, 1882, at the residence of Jas. H. Davis, near town, Mrs. Bettie McMurray, aged about 70 years.

For want of space a number of communications are crowded out this week. Those that do not become stale will appear in our next.

Among the large number of visitors in town this week, there is no one we were gladder to meet than Dr. E. C. Marks, of Tracy City.

Our clever friend, Mr. Jas. L. Scott, of Nashville, after spending a few days in our town, left last Monday, on a commercial tour through Texas, Kansas and Colorado.

President Terrill, of the Winchester Normal, will deliver an address at the closing exercises of Prof. Charlie Estill's school at Lynchburg, Moore county, on the 16th inst.

The ladies of the M. E. Church will give an Ice-Cream Festival at the Court-house next Friday night, the proceeds to be applied to improving the church building. We bespeak for them a liberal patronage.

Monday inaugurated examination exercises at the Winchester Normal and Mary Sharp College. A pressure of work in our office and the demand upon our time elsewhere render it impossible for us to say more this week than to promise a notice next week of them.

Master Eddie A. Taylor has responded to our call for pop-corn. He and Master Charlie Embrey are both bright, industrious little boys, and raise plenty of pop-corn every year. May they live to see the day when they can look upon their own broad fields of big corn.

It is useless for us to say that all who fail to go to the Winchester Normal next Friday night will miss a rare treat. Prof. Willoughby Reade never fails to attract an audience. We must listen to his readings with pleasure every day for a fortnight, and then sigh to hear him again.

If we should receive any more poetry—so-called—as "Timon" sends for publication in the Home Journal, we will have to adopt the plan of Dr. White, of the Lebanon Herald, and charge ten cents a line for its publication. Verily, to have read much of such poetry would have made the illustrious native of Attina a greater misanthrope than he was.

We were pleased to meet, the other day, Dr. J. B. Davis, who has lately, in connection with Dr. Bogle, purchased the Loughmiller mill property on Elk river. New machinery, of the latest and most approved pattern, is being added to the mill, which will make it one of the best in the county. Dr. Davis is a pleasant gentleman, and we extend to him and his partner a hearty welcome and wish them success.

"BLACK-DRAUGHT" makes chills and fever impossible. At J. M. Hutchins' or G. G. Phillips.

On the train to Nashville, the other day, we heard several old farmers express surprise at the splendid wheat crops along the road. They said they never saw better looking wheat, especially as we passed through Bedford county. The tall, heavy-headed stalks waved beneath the breeze like the waters of the ocean. The sight made our hearts happy, because it betokened bread for millions.

Quite a fall in the price of flour is indicated upon the flattering prospect of a very large wheat crop. And we expect that some who have been holding their corn lack, and some who have bought and hoarded it, for higher prices will come out behind. We expect that corn has reached its zenith this year. Its price will do for stock now until corn is in.

The beautiful and accomplished Miss Mattie Dunlap, the daughter of ex-prosecutor General Dunlap of Nashville, will give an entertainment at the Winchester Normal to-night, consisting of select dramatic recitals. Miss Mattie has declaimed the stage for a profession and spent considerable time in New York under the instruction of an able and distinguished teacher. She is a natural actress, and in Nashville, Pulaski, Columbia and Murfreesboro she was greeted with applause by press and people.

We sincerely hope, therefore, that to have young girl will receive a warm welcome from the generous people of Winchester. The price of admission will be—cents.

No more pop-corn wanted. W. J. SLATTER.

"WINE OF CARDUI" for Ladies only. At J. M. Hutchins' or G. G. Phillips.

Early Peaches. More than one week since our kind friends and neighbors—Dr. and Mrs. Sue A. Baird—sent us a few peaches. They were ripe, perfectly sound, and very delicious. They were of their "choice Amaranth" variety, and we must give in our belief that no fruit-growers in our section have had earlier ripe peaches this season. Dr. Baird makes a specialty of choice fruits, and his success is evidence of what can be accomplished in this county in the way of fruit culture. It ought to be made a source of large revenue to the county.

Small-Pox. There was considerable excitement and much talk last Thursday morning when it became generally known that there was a genuine case of small-pox within the corporate limits of Winchester. The unfortunate victim was a negro named George Handley. He came only a few days before from Nashville, and of course was visited by other negroes before the diagnosis of his disease had been pronounced by our physicians. We mention this fact in order to put persons upon their guard. Our energetic Town Marshal and corporate authorities had considerable difficulty in finding some one who would undertake to move the sick negro to some place of seclusion. Finally he was carried about 2 1/2 miles from town to a sort of shed near the mouth of Boiling Fork, where he is attended by his wife and a man named Sanders—the latter having had the disease, and being employed by the county as nurse.

Coffee Pots. With so many improved coffee pots before the public just now, it would appear an easy matter to have good coffee. And we suppose most coffee-drinkers are like ourself—they love clear, strong coffee, and care nothing for weak, druggish slop. Mr. Sam. Stewart, of our county, is agent for "Robinson's Precious Coffee Pot," and it is claimed that it is the "only one in the world in which you can boil and retain every particle of aroma, and for this reason it will make stronger coffee with two-thirds the quantity generally used by any other process, and retain all the flavor." There is a little cup on the top of the pot in which you pour cold water, forming a water-joint. This prevents the aroma from escaping. We have one of these pots in use, and can testify to its value. It certainly is a precious coffee pot.

For Congress. We are authorized to announce A. L. Landis, Sr., of Bedford county, as a candidate for Congress from this (the 5th) Congressional District, composed of the counties of Cannon, Coffee, Franklin, Lincoln, Moore, Marshall, Bedford and Rutherford. Election, Tuesday, Nov. 7th.

We are authorized to announce Hon. Richard Warner as a candidate for re-election to Congress from this, the 5th, Congressional District.

Strange, but True. We have a County Court, composed of clever men, whose duty it is to look after the interests of the county. We have a Board of Mayor and Aldermen—clever men—whose duty it is to look after the welfare of the town. We have a number of church buildings in which various denominations worship, and where appeals are made for money to send missionaries to China and other far-off lands in order to convert heathens. We have men and women who would give half they possess, if not all, rather than have the small-pox themselves or have it in their families. But there is not a pest-house in the county—no place to take a case of small-pox in order to prevent the spread of the loathsome contagion. Two or three hundred dollars would amply pay for the building of a pest-house with two or three rooms. The expenditure of this trifling sum for such a need would not only be an evidence of charity and genuine, practical religion, but might save us, as a community, fifty times the sum in the way of trade, character of our town and county for health, &c. Must we wait to be scoured into the building of a pest-house? Will not some one bring the matter before our County Court, Mayor and Aldermen, and our citizens generally? Even if there should never occur a necessity for using the house, the cost would be so small that it could not be seriously felt, even if times were forty times harder than they are. It is hardly excusable in this enlightened, christian age, to take human beings out in the woods to die, as you would a sick brute. We ought to have at least two pest-houses—one for negroes and the other for whites. We hope the colored people would do something toward building the first.

A Boss Strawberry. Our friend, W. A. Larkin, of Hunt's Station, wants to know if any one can beat him in the strawberry line. He says: "To-day, June 1st, we pulled a strawberry which measured, longitudinally, three and three-fourths inches, and, latitudinally, four inches. If any one is disposed to dispute this, we can produce five witnesses—three men and two ladies. One of these witnesses did the measuring, in the presence of the other four."

Franklin County Democracy. A Large Convention Last Monday, and Considerable Interest Manifested. After Some Sparring all Ends Well.

Dr. Lewis Metcalf, chairman of the Low-Tax Democracy, called the Convention to order. Col. Hayden March was elected permanent chairman and Wm. J. Slatter secretary.

A committee, consisting of H. R. Moore, J. T. Abernathy, Jas. K. Shook, P. R. Curtis, Henry Weaver, L. Metcalf and Wm. J. Slatter, was appointed on resolutions. After a lengthy absence two reports were submitted. Over these considerable discussion ensued and some personal allusions indulged, but all ended well. In lieu of the majority and minority reports on resolutions the action of the Hamilton county Democracy was adopted by a majority of the people present, to wit:

"Whereas, the so-called settlement of the State debt at 60, 3, 4, 5 and 6 by the recent act of the Legislature was clearly intended by its originators to bring discord and division in the Democratic party and not to adjust the indebtedness of the State, and is in direct conflict with the sentiments of a large majority of our people, and was passed by a legislature a portion of which had forfeited the confidence of the people by their conduct in the odious 100-3 bill, as shown by their own investigations; and

Whereas, the unity and perpetuation of our party with the principles on which it is founded is of superior importance to any local question and can only be attained and promoted by harmony in our ranks; therefore,

Resolved, that we favor an early repeal of the 60-3-4-5-6 Republic fraud, and are in favor of a settlement of the State debt on such terms as our party in convention may agree upon and adopt as a compromise basis on which we can stand.

Resolved, that the delegates appointed by this convention to the 20th of June gubernatorial Convention, are hereby instructed to vote and act in conformity with the foregoing resolutions."

Resolved that Hon. A. S. Marks is our first choice for Governor of Tennessee.

DELEGATES. 1st District—G. E. Banks, W. W. Martin, T. D. Gregory, L. Metcalf, Capt. A. C. Plunke and P. R. Curtis. 2d—J. P. Weddington, G. W. Abbott. 3d—A. R. David, Tom J. Williams. 4th—Dr. J. M. Anderson, W. A. Larkin. 5th—Tom Foster, Jr., Capt. J. H. Thompson. 6th—Lucy Gregory, Frank Stafford. 7th—Wm. Byrom, Rowe Sutton. 8th—Ben Knight, Richard Powell. 9th—Bud Long, J. T. Finner. 10th—Dr. H. P. Williams, J. W. Pattie. 11th—Nathan Shook, J. E. Skidmore. 12th—Jno. F. Anderson, Wm. Prince. 13th—J. H. West, B. West. 14th—C. J. Taylor, J. A. Resolved, that the Chairman and Secretary be added to the list of delegates, and that these proceedings be published in the Home Journal.

Gen. Gordon telegraphed to President Terrill, last Monday, that he would not be here next Thursday. An address suitable to the occasion will be delivered by some one—probably one of our citizens.

"WINE OF CARDUI" four times a day makes a happy household. At J. M. Hutchins' or G. G. Phillips.

Advertising will pay—the smallest things prove the assertion. We wanted some pop-corn. We tried at a dozen confectioneries and other places in Nashville to buy some and could not get any. One firm on Broad street said that there was scarcely any raised last year. We came home and put a few lines in the Journal, and within four days from the issue of the paper seven persons said they could supply us. And we bought all we wanted from a nice little boy in the country, whose father is an old subscriber to the Journal.
