Davis says that he desires that distillers should obey the law and save him the unpleasantness of the seizures which he has been compelled to make. He takes no pleasure in such enforcement of the law. It has been suggested that in the removal of the remains of deceased friends from the old to the new cemetery the same regard should be had for both localities, and the grounds led as neatly arranged in the one as in the other. This seems right and only needs attention called to it. The community is sincerely interested in both.

Information Wanted. R. P. Sloan of this section can obtain some useful information by applying to the editor of the STANDARD.

Leiper & Co., McMinnville, Tenn. ARE AGENTS FOR BURNT BONE FERTILIZER, the greatest thing out for the recovery of worn out land, and for increasing the strength of rich lands. No humbug, as we can show 100 certificates at our office bearing testimony to its wonderful fertilizing qualities. Among the number we append the certificate of Mr. Jack Gribble, one of the best and most reliable farmers in this county: Certificate of Mr. Gribble. This is to certify that I bought of Messrs Wm. F. Leiper & Co. 3 barrels of their Bone Fertilizer, and used only 2 barrels on about 8 acres of corn, planted about... I cultivated about... acres, leaving off the Fertilizer, and the result was that the ground fertilized made double the amount of corn of the piece not fertilized. I found also that the corn was about two weeks earlier than any of my neighbors; besides, one barrel of 200 lbs is equal to at least 60 wagon loads of the best stable manure spread upon the land, as the Burnt Bone Dust is a land food, and remains in the soil till exhausted by successive crops. I only used one tablespoonful to each hill of corn. I cheerfully recommend the Fertilizer as everything claimed for it for cotton, tobacco wheat and corn. JACKSON GRIBBLE. We most respectfully solicit the farmers of Warren, White, DeKalb and the surrounding counties to call on us and get pamphlets giving full directions how to use this wonderful Fertilizer. Wm. F. Popular Latin Text Books Noticed.

A grammar of the Latin language for the use of schools and colleges, with Exercises and Vocabulary; and a Latin Reader adapted to the above named Grammar, with Notes and a Vocabulary, both by William Bingham, A. M., author of Bingham's Caesar and Bingham's English Grammar, and Superintendent of the Bingham School, McMinnville, N. C. These books, as the above authorship clearly shows, were prepared by an experienced and successful teacher, whose scholarship and life-long labors in the school-room enabled him to know the wants of both teacher and student in the study of the Latin language. It would be strange, indeed, if an author with such peculiar qualifications, and surrounded by auspices so favorable as those under which he has spent his life, should fail of his aim, i. e., the preparation of Latin books to suit both the teacher and the student. But the unparalleled sale of these books declares unmistakably that he has not failed. The Grammar is pre-eminently "a practical first book in Latin, simple enough for beginners, and yet full enough for more advanced students." Dear brother teacher, is not this exactly what you want? Would not this be your aim if you were going to make a Latin grammar? We cannot present all the distinguishing merits of the book in this article, but would say, if you find your pupils are puzzled and discouraged in the study of Latin, and you yourself at a loss for a remedy, do as we did many years ago—try Bingham's Latin Grammar. You will find the subject treated in a natural, easy and simple manner. Maugiv's system of gender in the third declension has been adopted as the shortest and easiest learned, occupying only about two pages, while the gender is omitted in the vocabulary in order to compel students to learn it from this system. The Reader is adapted to the Grammar, and is peculiarly suited as a reading book, intermediate between the disjointed sentences of the exercises in grammar and the concise style of Caesar which is the first Latin classic book usually read. For the benefit of both teacher and learner in pronunciation, the quantities of the vowels not long or short by position, are carefully marked in the reader, as well as throughout the grammar. This guides the learner by sight in speaking the language from the beginning till he reaches Caesar, when he has acquired such a habit of correct pronunciation that he is likely not to depart therefrom. These works are now in use in the C. F. College, of this place, and in Irving College, and many other of the best schools of the country, and can be had by teachers for examination gratis on application to J. W. Paulett, Knoxville, Tenn., or Dr. J. B. Ritchey, McMinnville, Tenn. We presume it is out of respect to the office of Chief Magistrate of the United States that the managers of the Exposition have invited President Garfield to attend their exhibition in May next; and that they have invited Gen. Hancock because he is the most prominent civilian and soldier of the country. If other distinguished representative men are to be invited, we hope the managers will not be intimidated by a false fanatical spirit of loyalty from inviting ex-President Jefferson Davis, who is in fact and in history a true representative of his section.
