### ROBERT L. BRIDGES,

### Camden, Tenn.

The Republicans of Carroll and Henderson counties held primaries last week and nominated full county tickets.

An inmate of the Tazewell jail, Nancy Davis, imbibed too freely of carbonic acid and came near going up by internal combustion.

Fifty thousand dollars is said to be the price W. C. Jones & Co., of Waverly, received for 1,100 head of corn-fed cattle last week. Perry & Lester, of Nashville, were the purchasers.

An enthusiastic meeting of the supporters of Judge John R. Bond was held at Humboldt last Friday. It is learned that every county in the Ninth and Tenth Congressional districts and four counties in the Eighth District were present, and thorough organization for aggressive campaign work was effected.

Yesterday was St. Patrick's Day, an event observed by the sons of Erin's Isle, and, as Judge East remarks, "it has a great deal to do with the snakes that were driven from the island." Possibly they all landed on this continent, as it is no unusual thing for certain species of the American manhood at times to see snakes.

Mormon missionaries are making themselves very obnoxious in many counties in Middle Tennessee by imposing on the hospitality of the people. They go to a house without being invited, even when they have been given to understand that their room is more to be desired than their company. Unless this business is checked, "something is going to happen," says the Nashville Banner.

The latest Washington dispatches gives the opinion now prevailing in administration circles, and the idea prevails that all depends on Spain as to whether it shall be peace or war. Spain must accept changed conditions in Cuba, and grant to the island freedom or a degree of freedom. Spain plainly intimates that she is not seeking trouble with this government. The United States court of inquiry left Havana for Key West Tuesday night, but it is not known when their report will be made. Meanwhile preparations for possible war are progressing.

News comes from Henry County that a spirited campaign will soon be inaugurated for the Democratic nomination for county representative in the general assembly. Hon. C. T. Crawford, who so ably represented this flatorial district four years ago, is a candidate, and his many friends in Benton County are watching the contest, and will await the result with more than ordinary interest. He possesses every qualification necessary to fill the high position to which he aspires; born, reared and educated in that county, he knows every need of the people of old Henry, and his experience also fits him, in every sense, for legislative work.

Farming is further advanced in this county than it has been for several years. A large acreage of oats has been sown, and now farmers are turning their attention to planting corn. Mr. Thomas Broughton, of Garfield, planted 20 acres in corn last week, and a large acreage will be planted in the county this week. Wheat is growing rapidly, and the prospects for a large crop are generally regarded as propitious.

When you want Lime, go to C. V. Hawley.

The movement to organize a military company here has suddenly collapsed. Of course the prospect of war between the United States and Spain has nothing to do with it. The boys can not really spare the time for drill work just at this season, but perhaps later on, when they have more time at their disposal, they may organize a strong company. Ye editor would not object to a pension, but we certainly object to war on general principles.

The joke is on two young men near Bristow, whose names are not given. They had never seen Pilot Knob, in the tenth district, and it occurred to them while going to Eva recently that they would enjoy a view from the top of that famous peak, and proceeded to do so without fear or guide. At Eva they related to friends their trip and observations. They were questioned by those familiar with the knob and its surroundings, and then gently informed that they had passed the time away on a hill 2½ miles from Pilot Knob and ½ a mile from Eva. The boys have not taken us into their confidence, but no doubt they will seek the aid of a good guide in the future when on an exploring expedition.
