 "Aw," said the boy, "I don't see why you won't let me eat as much on Sunday as on the other days of the week."

Travels of a Hobo Cat.

A hobo cat, which likes to ride on the trucks beneath a parlor car, and which has covered in that way more than a thousand miles in the last four days, is being petted here by Parkersburg, W. Va., railroad men, with a view to inducing it to give up its tours. Within the past four days it has traveled on the trucks from Cincinnati to Pittsburg and return on the Ohio Valley express, and has come as far as Parkersburg on its second trip. It is believed to be the same cat which recently journeyed in a similar way through Pennsylvania.—*Washington Post.*

Deafness Cannot Be Cured

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed Deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever. Nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.

This Dog Died Heartbroken.

"Toots," the beautiful black collie dog, whose young master, Albert Serle Johan, ended his life three weeks ago, at Evansville, Ind., because he thought his sweetheart had jilted him, is dead of a broken heart. After the young man's body had been buried the dog was kept closely at home, and when allowed to leave would dejectedly make the rounds of the haunts of his master when alive. Charles Johan, the dead boy's father, tried to carry out his son's last request to "be good to Toots," but the collie became more listless each day, until one day last week he went out in the back yard, where he used to romp with his master, and turning his sharp muzzle skyward, he gave vent to a wail, dismal half-bark and half-cry, and dropped over dead in the grass.—*Indianapolis Sentinel.*

He thinks he lives, but he's a dead one. No person is really alive whose liver is dead. During the winter most people spend nearly all their time in warm, stuffy houses or offices or workshops. Many don't get as much exercise as they ought, and everybody knows that people gain weight in winter. As a rule it is not sound weight, but means a lot of flabby fat and useless, rotting matter staying in the body when it ought to have been driven out. But the liver was overburdened, deadened—stopped work. There you are, with a dead liver, and spring is the time for resurrection. Wake up the dead! Get all the filth out of your system, and get ready for the summer's trials with clean, clear blood, body, brain free from bile. Force is dangerous and destructive unless used in a gentle persuasive way, and the right plan is to give new strength to the muscular walls of the bowels, and stir up the liver to new life and work with **CASCARETS**, the great spring cleaner, disinfectant and bowel tonic.
