WANT INFORMATION ABOUT TENNESSEANS OF THE NOTED PAST

RECORDS OF MEN LONG DEAD REMAIN IN INCOMPLETED CONDITION.

FOR CONGRESSIONAL DIRECTORY

Middle Name, Date of Birth, Occupation, Among the Numerous Questions Asked by Senator Reed Smoot in Charge of the Work.

NASHVILLE, Tenn., Mar. 4.—Postmaster Wills office is in receipt of a bundle of documents from Senator Reed Smoot, which is occasioning some worry. Pursuant to resolution adopted by the United States senate March 3, 1911, authorizing the printing of a new edition of the biographical congressional directory, revised and corrected up to the sixty-second congress, the department has forwarded blanks which the postmaster of Nashville is to fill in with: "Middle name Living or dead? Present address Occupation? Date of birth?" etc. ad. infinitum. The only question omitted from the list seemingly is "color of eyes."

Postmaster Wills is absent and Assistant Postmaster J. T. Lattin and Miss Addie Vester, secretary to Maj. Wills are considering turning over the documents to the Tennessee Historical Society or Robert Quarles, keeper of state archives. The inquiries concern members of the fifth congress up to members of the forty-fifth congress, and many inquiries are made concerning the life of James K. Polk, president from 1845-1849. This envelope was forwarded to Mrs. M. M. Gardner, of Nashville, who is a great granddaughter of President Polk.

As near as could be determined the records of the government, which were submitted to Mrs. Gardner and Mrs. Howell are correct and the questions concerning William H. Polk, a brother of President James K. Polk, could not be answered. John J. Vertrees was called in by Mrs. Gardner and the examinations of the record was complete but scant knowledge of the brother was disclosed.

The other members of the senate and house inquired of and the nature of the information desired follows:

Ephraim H. Foster, senator from state 1838-9, congress, place of birth and middle name.

Jenkins Whiteside, senator 1809-11, date of birth and middle name.

John Trimble, representative fortieth congress; if deceased, and date of death; if living, occupation and place of residence.

Robert Weakley, representative in eleven congress, want to know middle name.

Jesse Wharton, representative tenth congress, date of birth.

William Prosser, representative forty first congress, middle name; if deceased, date of death, and if living, occupation, place of residence, etc.

Washington Barrow, representative thirtieth congress, middle name.

Andrew J. Caldwell, representative fortieth congress, date of birth.

George Washington Campbell, representative fifth congress, date and place of birth.

William Charles Quarles, representative fifth congress, date and place of birth.

John Henry Eaton, senator 1818-29, date of birth.

Andrew Ewing, representative thirty-first congress date of birth; if deceased date of death; if living, occupation and place of residence.

Edwin H. Ewing, representative twenty-ninth congress, date and place of birth; if deceased, date of death.

Gov. John C. Brown, full information.

Horace H. Harrison, member of congress 1862-1866; date of birth and middle name.

Felix Grundy, member of congress 1829-38; wish date of birth and record after leaving official life.

Many questions are asked concerning each of the above named men and any information on the matter should be sent to the postmaster's office.

BIG PROFIT IN IRISH POTATOES

HEAVY YIELDS MADE BY INGRAM BROTHERS ON THEIR FARMS AT CULLEOKA.

That Maury county is the land of opportunity was again demonstrated the past season by the record made by Joe and Charles Ingram in growing potatoes on their farm near Culleoka. Recently the Messrs. Ingram disposed of their second crop of potatoes of last fall and the returns were \$3,259. This was made on less than fifty acres of land. Messrs. Ingram estimate that the cost of producing and harvesting the crop was about \$1,000 which would show a net profit of \$2,200 on fifty acres or more than forty dollars an acre. This makes even \$100 an acre land seem mighty cheap. This land was all planted in wheat and will be sown back to clover this spring and will be none the worse for the heavy yields.

CENSUS BUREAU CLERKS DROPPED

CONGRESS REFUSES TO MAKE EXTRA APPROPRIATION FOR ADDITIONAL HELP.

WASHINGTON, Mar. 1.—The last of the temporary clerks employed by the census bureau to compile the 1910 returns will go out of the government service tonight. There are 281 temporary clerks still on the pay roll, 38 states and the District of Columbia being represented. Congress refused to make the appropriation asked for by Director Durand to keep the clerks at the bureau until the census work could be completed.

The director says there will be slight delays in one or two census divisions as the result of the cutting out of the extra force, but he does not think they will be serious. strenuous efforts to have some of the dismissed clerks transferred to the regular employe list have been unsuccessful.

RICHESON WON'T LIVE TILL MAY

BOSTON, Mar. 1.—Clarence V. T. Richeson, former pastor and confessed slayer of Avis Linnell, will not live to meet death in the electric chair, three months hence, according to the statements of his keeper at the Charles street jail. Physically he is but a shadow of his former self and mentally he is a victim of melancholia. He seldom sleeps, eats little and without appetite, and only occasionally reads magazines or light fiction, which long ago took the place of religious works in which he seemed to find solace at first.

Richeson is constantly moving about his cell, from bed to chair and chair to bed. At the slightest noise in the corridor he crouches in a corner and tries to hide himself. Even Buffs, the good natured negro convict, who was placed in the adjoining cell no longer interests him. Richeson will talk only with Sheriff Quinn and from him he gets such news as he wishes from the outside world.

PREPARATIONS FOR COUNTY CONTESTS IN DECLAMATIONS

COUNTY TEACHERS APPOINT COMMITTEES FOR VARIOUS DEPARTMENTS.

GO TO NASHVILLE IN APRIL

Attendance on Middle Tennessee Educational Association Will Be Supplemented by Visit to Factories in the City—Commendable Move.

The teachers meeting Saturday was one of particular importance in that it covered a number of matters of interest to the schools throughout the county. Committees were appointed for the preparation of several spring events, papers were heard, and the teachers grew more friendly and more confidential in the discussion of the work in the different sections; an exchange of views, theories and experiences, that has heretofore not been so free. There was another move that will doubtless redound to the benefit of the teachers and pupils if carried out, and that was the proposed visit of the teachers to the Middle Tennessee Educational Association at Nashville on April 4-6. In this connection a most laudable suggestion was made, and that was that the Maury county teachers get together and visit a number of the manufacturing plants of the city while there and inform themselves as a matter of assistance to the manual training departments. The friendly intercourse and the mutual information will be worth a great deal.

Mrs. Mitchell took up Roman history. In a skillful and unique way she showed how Rome had spread law and order over the entire world, and how this influence had been felt in America.

Next on the program was a paper on the "Meaning of Habit in Education" by Prof. Ashton, which will be published in full later.

A number of committees were appointed. The committee on making arrangements for visiting certain factories in Nashville, Prof. W. C. Johnson, chairman; D. M. Galloway and Mrs. Mitchell.

Committee on badges—L. S. Duke, chairman; Mrs. Jesse Tomlinson, Miss Mary Estes and Miss Ina Douglass.

County declamatory contests are to be held in Columbia April 3, all districts in the county to be represented. The committees for this contest are:

On arrangements—L. S. Duke, T. E. Ashton, Miss Alleen Overton. On program—W. P. Morton, Miss Cora Lee Jacobs, Miss Minnie Polk. On Medals—J. P. Graham, J. C. Allen. On judges—E. H. West, Miss Fannie Sewell, Miss Orena Hight.

FIRST DEGREE IS THE VERDICT

RETURNED BY THE JURY AT DECATURVILLE IN BEN PETTIGREW KILLING.

DECATURVILLE, Tenn., Mar. 1.—In the case of George Shelton and John Bailey, charged with the murder of Ben Pettigrew, colored, and the latter's son and daughter, on Dec. 1, 1911, the jury returned a verdict this morning pronouncing the defendants guilty of murder in the first degree. A motion for a new trial will be entered, and argument heard on it today. It is confidently expected that the motion will be overruled and that the defendants will be sentenced to be hanged, in which event an appeal will be taken to the supreme court. Each of the defendants was tried on only one of the three indictments returned against him, that charging him with the murder of Pearl Pettigrew, the murder of whom was especially atrocious, the girl having been shot as she was running away from her assailants. The attorneys asked the jury to convict them of murder in the first degree with mitigating circumstances, so that it might be optional with the judge whether he sentenced them to be hanged or to life imprisonment, had the jury complied with the request and the defendants sentenced to life imprisonment, no appeal would have been taken in the case.

There has been a large crowd each day during the trial and the courtroom did not hold more than one-half the people who desired to hear the case.

Harsh physics react, weaken the bowels, will lead to chronic constipation. Dean's Regulets operate easily. 25c a box at all stores.

PIE THE WATCHWORD OF G. O. P. SAYS A MEMBER OF PARTY

TWO MEN CONSTITUTE WHOLE THING IN THE COUNTY OF MAURY.

WILL CONTEND FOR RECOGNITION

Oliver Is Sending Out Letters, and Though Seventy-Two Counties Have Spoken for Taft, Roosevelt Followers Out for Delegates.

Notwithstanding that seventy-two out of seventy-five counties in the state that have acted have expressed themselves for President Taft there is a strong undercurrent for Teddy, the terrible, and the placidness of the republican situation is only another demonstration of the fact that "things are not what they seem." W. J. Oliver will lead the anti-administration forces and is sending out letters to his constituents. He came out in a long interview in the Sunday papers, and the attention of a prominent local republican was called thereto. This seemed to give him an opportunity to express himself, and he did so in what might be considered vigorous language. He said he belonged to the down and out crowd, and that he had all to gain and nothing to lose. Among other things he said:

"Will history repeat itself? Will the office holders force the nomination of Taft on the masses, who want Roosevelt and elect a democratic president. When I say history I mean in 1892 when the office holders forced the nomination of Harrison on the masses against their protest and the people elected Cleveland. Who is the republican party of the South? office holders, office seekers and their hangers on. What do they know about the doctrines or policy of their own party? They spell their loyalty to the party with one word "Pie."

How many can tell you the difference between "stand-pat" and "progressive" republican? They have no thought, no policy of their own. Like the workings of a watch they remain passive until wound up by their bosses; then they raise a howl and start the ball to rolling to hold their jobs. Are they honest and sincere and do they work as fair people? From actual observation I have found them to resort to tricks, schemes, falsehoods, just anything to carry out the wishes and orders of the bosses. How many counties in this state write their own platforms and resolutions? How many are written by the bosses at Nashville and Chattanooga and sent to the other counties? I don't believe that there are ten counties in the state in which these office holders predominate that are capable of writing a decent or intelligent set of resolutions outside, "Resolved, That we the office holders, reform the bosses, we will endorse anybody who will give us jobs." They boast about eliminating the negro.

This has only changed the complexion of the delegates but lowered the standard of the party, for as they are only a few now they can carry out their dirty plans of deceit, fraud, lying or anything else that's unfair to control, and when they can't control they bolt and go to their bosses who always recognize them, right or wrong. I have a letter from the civil service commission asking about activity of the federal office holders here, and I answered that as the republican party in this state was the federal office holders and to not allow them to participate in the conventions would mean that we could not have any meetings.

"How many republicans have been appointed to office under Hooper in this county? The republican county executive committee has made several requests in the way of appointments for this county, and none have been listened to by the Governor. The next time our county convention is held if the secretary will call the names of two of our prominent republicans and tell the convention that as these two gentlemen represent the republican party of Maury county the meeting is ready for business, and learn their intentions and quickly adjourn it will be better for them all. Just a word, the republicans of Maury county should exercise their rights stop thinking only for pie and try and build up the party."

"We are going to Nashville and if we fail to get the recognition we deserve, then there will be something else happen You just wait." And with a significant twinkle in his eye that meant more than had been expressed he repeated, "Wait."

So it will easily be seen that the love and affection so much boasted of by the G. O. P. leaders in the state is only on the surface, and is hardly like beauty, skin deep.

When you get your money

What will you do with it?

You get ahead on what you save, not on what you earn. When you've worked hard for your money is it not folly to squander it?

BANK your money and this will give you more pleasure than fooling it away. Besides when the "rainy day" comes you'll have shelter.

We will help you save, as we pay interest, and the MONEY that you've worked for WILL WORK FOR YOU in our bank.

Let OUR Bank be YOUR Bank

PHOENIX NATIONAL BANK

DOINGS IN DIXIE DURING THE PAST THIRTY-TWO YEARS

POPULATION INCREASED BY OVER FOURTEEN MILLION PEOPLE.

AND PROPERTY IS DOUBLED

Southern Property Is Now Worth More Than Two Billions Above the Valuation of the Whole Country in 1860.

BALTIMORE, March 4.—In its thirtieth anniversary issue the Manufacturers Record says:

In the past thirty-two years, with its population increasing in number by 13,474,935, the south has—

Added \$5,068,000,000 to its capital invested in manufacturing.

Cut 352,721,000,000 feet of lumber.

Harvested 30,503,926,000 bushels of leading grains of which 24,485,309,000 were corn, 3,070,258,000 oats and 2,948,359,000 wheat, in addition to all the rice grown in the country now averaging from 18,000,000 to 20,000,000 a year.

Marketed 258,588,439 bales of cotton increasing the annual production from 5,761,252 bales to 12,129,055 bales in the season ended August 31, 1911, and to more than 15,000,000 in the present season.

Added 93,200,000 to the capital invested in cotton seed oil mills.

Mined 1,523,000,000 tons of coal.

Dug 121,300,000 tons of iron ore.

Sold 37,700,000 tons of its pebble and rock phosphate.

Produced 715,000,000 barrels of petroleum.

Increased its capital in the textile industry by \$274,000,000, representing 13,649,832 more spindles and 214,432 looms than it had in 1880, which are using 1,031,256,456 more pounds of raw cotton now than then.

Swelled the resources of its national banks by \$1731,100,168, their capital by \$182,964,920 and their individual deposits by \$884,303,987, with individual deposits in other financial institutions increasing the same time by \$1,066,605,498, a total increase in such deposits in all the banks of \$1,950,909,445.

Constructed 64,037 miles of railroad in addition to double tracking several thousand miles.

Spent \$1,000,000,000 upon its common schools.

Sent through its ports to foreign lands merchandise valued at \$12,859,739,040 and received through them from abroad merchandise valued at \$2,014,671,812.

Its exports have constituted nearly 25 per cent of the total exports of merchandise from the country, and of that total \$9,131,639,299, or nearly 25 per cent, represents the value of raw cotton alone. The value of those cotton exports was \$1,949,261,606 greater than the value of the world's output of gold in the thirty-two years, and the value of the thirty-two cotton crops, with their seed, which was \$15,514,000,000, was \$5,001,350,158 greater than the world's production of gold and silver in the same period.

Though there has been compara-

tively little change in the proportionate exports of cotton, the difference being only that between 68 per cent of the total American crop in 1880 and 64.1 per cent in 1911, there has been a radical shift in the relative positions of the southern mills and those in the rest of the country. In the period under review mills in the rest of the country consumed 61,916,338 bales of the commercial crops and southern mills 37,532,673 bales. But whereas in 1880 the 179,000 bales consumed by southern mills were but a little more than 10 per cent of the American consumption of cotton, in 1911 southern mills used 54.2 per cent of the American consumption, meanwhile having used in three other years more cotton than the mills of the rest of the country.

It is not surprising that such achievements have been recorded in an addition of \$18,323,000,000 to the estimated true value of southern property, that increase actually being in amount \$2,163,000,000 greater than the wealth of the whole country in 1860 and nearly twice the value of southern property in 1880.

EGG RECEIPTS ARE SIMPLY IMMENSE

BARN YARD FOWLS OF MAURY COUNTY ARE WORKING OVER TIME NOW.

That the hens have commenced to work in real earnest again in Maury county is demonstrated daily by the enormous egg receipts. Every country store in the county is receiving eggs by the hundreds of dozens and the huckster wagons are doing a lane office business. The receipts are reported heavier than they have been for a year. The Culleoka Produce Co. at Culleoka, shipped the first full car of eggs on Friday that has been shipped from that section in a year. The car contained 6,000 dozen bought from the farmers at an average of 20 cents per dozen, making about \$1,200 that has been distributed in the community for eggs alone within the period of a week. Fortunately the produce company had the eggs sold in New York before the slump in prices came.

TATE AND DEAN IN GILES COUNTY

HAVE ESTABLISHED EXPERIMENTAL FARMS FOR DEMONSTRATION WORK IN 1912.

PULASKI, Tenn., Mar. 1.—Prof. Tate and Dean, accompanied by Prof. H. B. Gwaltney, went to Campbellsville Tuesday to establish an agricultural experiment farm on the land of Bob Campbell, the work to be directed by Hamp Campbell. This is the fourth farm in Giles county, where experimental work will be carried on during 1912. There is one on the R. C. Ingram farm at Playbag, one at DeRay, on G. T. Buford's farm, and one on the farm of John Burns near town.

"Suffered day and night the torment of itching piles. Nothing helped me until I used Doan's Ointment. The result was lasting.—Hon. John R. Garrett, Mayor, Girard, Ala."
