

TO PROVIDE FOR DELEGATION TO NASHVILLE MEET

COUNTY DEMOCRATIC COMMITTEE WILL BE CALLED TOGETHER SOON, SAYS CHAIRMAN.

COUNTY CONVENTION MAY 22

Under Resolution of State Committee Primary, if Any, Will Have to Be Held on May 19 to Select Delegates to it.

Judge Edward D. Looney, chairman of the county democratic committee, stated Wednesday that he would call the committee together at an early date to make provision for the election of delegates to the state democratic convention to be held at Nashville on June 8. Under the resolutions of the state committee the county convention for this purpose must be held on May 22, which is on Saturday.

The county committees are given the right to provide the method for selecting delegates to the county conventions, but if a primary is held for that purpose it must be held on the Wednesday before the convention. This will be a departure in Maury county for never before has a county primary been held on any day other than Saturday. As mass conventions have gone out of style in Maury county it is pretty certain that a primary

will be ordered for May 19, the date fixed by the state committee, to name delegates to the convention on Saturday, May 22. The county convention will then select the delegates to the state convention. Maury county will have twenty-two delegates in the state convention.

When the county committee meets it is also probable that it will decide whether or not there will be a primary held in Maury county for county officers this year.

C. M. A. WILL HAVE GOOD BASKETBALL TEAM

WILL MAKE EFFORT TO RETAIN PREP CHAMPIONSHIP OF THE STATE THIS SEASON.

The Columbia Military Academy will make an effort this season to retain the prep baseball championship of the state. The training season will begin at the Academy within the next few days, with the abundance of splendid material at hand, it is expected that a team of championship calibre will be turned out.

The Military Academy has made a splendid record in the past, in both baseball and football, winning the baseball title of the state last season, and losing the football title only by a hair's breadth to Castle Heights. The season in basketball was not so successful, but indications point to a splendid baseball team this season, and it will only be a short time until the athletic field will resound with the old familiar war cries of the game.

WILL RENEW WARFARE ON OLD SCRUB SIRES

CAMPAIGN INTERRUPTED BY SICKNESS WILL BE CONTINUED AT AN EARLY DATE.

War on the scrub sires will be renewed at an early date, declared Prof. McLean, county agent, today. The campaign promised great success but was interrupted by Prof. McLean's sickness. Wherever the committee went it secured the promise that from one to three scrub sires would be eliminated.

Committees have been appointed in each community to follow up the campaign and see that these promises are carried out in good faith. For the present Mr. McLean is so engrossed in other duties that he cannot resume the campaign but he expects to call the central committee together soon and renew the warfare on the scrubs.

PECULIAR SNAKE AROUND BANANAS

WAS PUT ON EXHIBITION AFTER BEING CAPTURED ALIVE.

SMITHVILLE, Tenn., March 16.—Much excitement was caused here by the finding of a very peculiar looking snake on a bunch of bananas in a grocery store.

The stalk had been hanging in the store for several days. All the bananas except the last three rows had been taken off when the snake was discovered, closely wrapped about the stalk. It was captured alive by looping a string around its neck, and was placed in a box. After covering the box with glass, the snake was viewed by a large number of people. The shape of its head shows it to be of the venomous variety, but no one who has yet seen it knows its particular species.

BOYS CLUBS MAKE FARM ATTRACTIVE

PRODUCTION IS INCREASED BY SCIENTIFIC METHODS, AND "YOUNG FARMER SATISFIED."

The work of organizing boys' corn and pig clubs and girls poultry and canning clubs in Maury county has actually begun.

County Agent E. A. McLean and Mrs. Kate Crady, home demonstration agent, hope to visit every school in the county before the end of the present month, and to organize clubs of not less than six members in each community. Where these clubs have already been organized, splendid work is being done, the boys are making ready their land for corn planting in the most approved and scientific manner, and will keep accurate records of the expenditures, and receipts from the land they are working.

One way to make the "back to the farm movement" a success, is to keep the boy from leaving the farm. Then follow this logical conclusion. To keep the boy on the farm, it must be made so attractive that he will not want to leave it. It is human nature for the boy to seek his fortune elsewhere if he is forced to farm in the way his father did. "Old Beck" and the cotton plow line do not appeal to the imagination of the boy. He wants power, he wants to use the most scientific methods. He wants to see that he is actually producing results—to be a business man, and to farm in a business-like way. This is what the agricultural agent seeks to accomplish. He hopes to have the father do everything possible to encourage the boy in his early farming efforts, rent him land at a reasonable figure, and give him the benefit of his experience.

PLANNING BOOST FOR HOOVER BY FORMING CLUB

LOCAL DEMOCRATS ARE ENTHUSIASTICALLY FOR FORMER FOOD ADMINISTRATOR.

BELIEVE HE WOULD BE WINNER

Will Make the Sentiment in His Behalf Effective in Convention by An Organization Which Will Be Perfected at Early Date.

Hoover's boom in this section is beginning to take concrete form. Already the organization of a Hoover club has commenced and the boosters are being greatly encouraged by the reception which has been accorded the movement. Business men, bankers, lawyers, farmers and newspaper folks are all for Hoover.

Among the number of the loyal supporters of the former food administrator are such well known citizens as Major Horace Frierson, late commander of a battalion in the A. E. F.; Chas. P. Hatcher, one of the leading lawyers; Capt. Richard Smith, late of the A. E. F.; President C. A. Parker, of the Maury National Bank; Judge John W. Fry, Harry Frierson, J. B. Hardison; Col. Jonas T. Amis, former marshal for Middle Tennessee; William F. Anderson, president of the Board of Trade; Edward P. Turner, president of the Retail Merchants Credits Association; James A. Sloan, one of the big wholesale grocers of this section; Charles A. Wright, prominent farmer of the sixth district; Jos. L. Hutton, former superintendent of banks of Tennessee; Ernest E. McE-more, of the City Mill & Grain Company; Jas. J. Pogue, county register; J. I. Finney and R. H. Wyatt, of The Herald. There are scores and scores of others who are for Hoover and their names will be enrolled by the Hoover boosters.

The remarkable fact about Hoover is that although he is not a candidate for President and will not permit the use of his name, the sentiment in both parties is strong for his nomination. Everywhere the democrats are rallying to his standard, and in the primary in the republican party in Minnesota, although not a candidate, Hoover ran a good third, leading such a well known republican and prominent candidate as Gov. Lowden, of the neighboring state of Illinois. Hoover supporters here believe that with the former food administrator as the nominee the democrats would sweep the nation.

MINISTERS TO MEET IN PHOSPHATE CITY

NUMBER OF ABLE MEN OF CHRISTIAN CHURCH WILL SPEAK TWICE EACH DAY.

Beginning next Sunday morning, March 21, will be held at the building of the Church of Christ on Locust street, a meeting of unusual interest to the people of Mt. Pleasant. It is expected to have present during next week as many as twenty of the leading preachers. There will be two sessions each day; one at 2 p. m., the other at 7:30 p. m., until Friday night. Everyone is cordially invited and a cordial welcome awaits all. While the meeting is primarily for preachers, the association, enthusiasm and encouragement will be good for all who attend. A good sermon will be delivered each evening by some able speaker. Such men as H. Leo Boles, F. W. Smith, Sam P. Pitman, Paul Slayden, G. C. Brewer and many others will appear on the program. There will also be splendid singing at each service. Those coming from a distance will be provided homes.

MEAT PACKERS ARE HIT BY PRICE SLUMP

PROFITS FROM HIGH PRICED HOGS VANISH WITH DECLINE OF FINISHED PRODUCT.

From present indications meat packers are going to be hard hit it all. Sides and shoulders are quoted in Nashville at even less and the demand is light. Even hams which have been recently the food of only the "idle rich" have gone down to a point where they are in reach of common mortals. It does not take much knowledge of arithmetic to figure out a paucity of profits on hogs bought at from fifteen and a half to twenty cents on foot with the meat and lard therefrom sold at from twenty to twenty-eight cents a pound.

IRISH POTATOES DO BEST IN LIGHT SOIL

RESPOND TO HEAVY APPLICATION OF COMMERCIAL FERTILIZERS.

The Irish potato thrives best in loose deep soil full of decayed vegetation. The open sandy soil of Tennessee improved by growing clover and other legume crops produces splendid potato crops. Manure is needed on thin land and lime on sour land. No not apply fresh manure, lime or wood ashes directly to a potato crop. They aid the growth of scab. They should be applied to a preceding clover crop, but never at planting time. Well rotted manure may be applied in the spring, applying it broadcast at the rate of eight or ten tons to the acre, and plowing it or discing it into the soil.

Potatoes respond to heavier applications of commercial fertilizers than most other farm crops. The best method of application is to open rows that are ready for planting with a broad shovel plow and scatter the fertilizer in the furrow and over two or three inches of the middle on either side. Again run the plow in the furrow to mix the fertilizer with the soil.

LOVE IS INSANITY IN VIEW OF N. Y. JUDGE

BELLEVUE IS THE FINISH FOR A FISH DEALER'S ROMANCE.

NEW YORK, March 17.—The budding romance of Charles Elfert, reputed wealthy fish dealer, was frost-bitten in Magistrate Sweetser's court blonde and comely, recited the persistence with which she had been wooed through the medium of unromantic dumb waiters. Every morning with unbroken regularity, she told the court, her unwelcome suitor took advantage of the lulls in visits of ice-men and milkmen to shower her with love missives of no mean length. Elfert blushingly admitted he was "madly in love" with the young woman from the first moment he saw her in the street. He was startled when the magistrate gave orders to summon an ambulance to take him to Bellevue hospital observation ward. Elfert protested vehemently, that he was not insane, but was only in love. "Love is insanity," the court ruled.
