Welcome Home Exercises Great Success Sunday

The Children's Day Exercises given by the little folks of the Southern Methodist Sunday school last night, was a very delightful affair. Everyone taking a part acquitted themselves in a very creditable manner. The music was especially good, and while it was in some cases difficult and above the average usually attempted by children, still they handled it in a manner that would have done credit to much older folks. Much credit is due Mrs. H. E. Holland and Miss Ella Harold for their splendid work in training the little folks and to the Greenville orchestra for their splendid rendition of the score.

The welcome home exercises for the returned soldier boys given by the Asbury Bible Class, in the main auditorium of the pretty new church Sunday morning, was a success in every particular, and the program was greatly enjoyed by the young men who had been in service, as well as many others who had gathered to take part in the morning exercises.

The first song on the program was, "Home, Sweet Home," and while this first number was being rendered, tears came to the eyes of many throughout the audience.

The welcome address was delivered by Hon. H. H. Gouchenour, and he portrayed in a beautiful way, the loyalty that had been displayed by the young men of Greene county during the past two years and made all present feel that they were entitled to the hearty welcome they were receiving. Mr. Gouchenour spoke for fully thirty minutes.

Next on the program came the able address by the Bible class teacher, Hon. S. A. Susong, his subject being, "The Church." Mr. Susong carried the audience back to the early days of the church, bringing its great work and achievements up to the present day.

The unveiling of the class service flag by six young girls, members of the Sabbath school, was the next interesting number on the program. This was possibly the most impressive of the splendid program.

Two closing numbers, "America" and "God Be With You 'Till We Meet Again," concluded one of the first of a series of receptions that will no doubt follow in rapid succession now, as most all Greene county young men are back home, and those still in the service will doubtless be discharged at an early date.

Summer Complaint Quickly Relieved.

"About two years ago when suffering from a severe attack of summer complaint, I took Chamberlain's Colic and Diarrhoea Remedy and it relieved me almost instantly," writes Mrs. Henry Jewett, Clark Mills, N. Y. This is an excellent remedy for colic and diarrhoea and should be kept at hand by every family.

and appreciation to the management of the Chair company, and to the committee whose untiring efforts made possible this enjoyable day; especially do they thank the committee on "cats" composed of Jas. H. Wright, W. T. Wilson, Albert Wilburn, Clarence Haynes and John Colyer, for they certainly did their "bit."

This was a day long to be remembered by the Loudon Chair Mfg. Co.

Summer Complaint of Children

There is not anything like so many deaths from this disease now as before Chamberlain's Colic and Diarrhoea Remedy came into such general use. When this remedy is given with castor oil as directed and proper care is taken as to diet, it is safe to say that fully ninety-nine out of every hundred cases recover. Mr. W. G. Campbell, of Butler, Tenn., says, "I have used Chamberlain's Colic and Diarrhoea Remedy for summer complaint in children. It is far ahead of anything I have ever used for this purpose."

Loss of Appetite.

As a general rule there is nothing serious about a loss of appetite, and if you skip a meal or only eat two meals a day for a few days you will soon have a relish for your meals when meal time comes. Bear in mind that at least five hours should always elapse between meals so as to give the food ample time to digest and the stomach a period of rest before a second meal is taken. Then if you eat no more than you crave and take a reasonable amount of outdoor exercise every day you will not need to worry about your appetite. When the loss of appetite is caused by constipation as is often the case, that should be corrected at once. A dose of Chamberlain's Tablets will do it.

Chair Company Gives Employees Days Outing

Like a sparkling spring of living water in the midst of an arid desert, or the valley of dry bones, was an episode that occurred in our city on the Glorious Fourth.

No effort had been made by the citizens of Greenville to celebrate the day—our good board of Mayor and Aldermen had not even made provision for the reading of the Declaration of Independence—so it was left to the Loudon Chair company, with its four score male employees to startle the town with a full-fledged patriotic celebration of the greatest of all holidays.

Led by the chairman of transportation, Geo. W. Wright, and a bugler who knew how to handle the instrument, and whose blasts announced the coming of the pageant, a procession of trucks and automobiles, decorated with our country's colors, Red, White and Blue, and filled to their capacity with a jovial, happy and loyal set of plain working people, passed through the principal streets of our town and on to Greystone mountain, a distance of 10 miles. Arriving at the old Greystone Inn, half way up the mountain, they took possession of that famous hostelry, (which through the courtesy of the Greystone company had been turned over for the pleasure and enjoyment of the company) and proceeded to put in the day in unalloyed happiness. After a group picture was made by the official photographer, Mr. Sam Waddle, the men were given instructions and turned loose in the midst of the primeval forests and fastnesses. At 12:30 the bugle sounded for dinner and the boys answered promptly, for all were by this time hungry as the bears which they had been chasing. And such a meal—chickens and ham galore, with all necessary accessories including fruits, cakes, ice cold drinks, and topped off with gallons of ice cream. After the meal and a necessary rest, the company engaged in sports of various kinds, including a very interesting game of base ball between the married men and the single men, the former winning the game by a score of 10 to 6. Another very interesting game was a relay race composed of two teams of sixteen men each, and this proved the most interesting pastime of the day. The shouts brought forth by this game sounded and resounded over the mountain tops and down through the valleys into the settlements. The bugle again sounded and the men reassembled, and were served with cones of delicious ice cream, bananas and cigars. Refreshed and feeling glorious, like the happy bunch of people left the mountain and stopped at an old mill at the foot of the mountain where there was a big, fine spring of pure water, and indulged in another great repast, of which there was still a bountiful supply. The roll was called and every man answered aye. The procession was then formed and the twilight journey back home was greatly enjoyed. They arrived in town at 10 o'clock, the bugler not forgetting to announce their return.

The men enjoyed this occasion to a man, and are loud in their praise
