An old bachelor says that marriage is a synonym for trouble.

THE LIBERTY LOAN.

For the third time our country is coming to us asking for a loan to prosecute the war and the money must be forthcoming. We are in this war and it will have to be fought out. The government offers to borrow our money, paying a reasonable interest and paying back the principal at some time in the future. It will be a good and safe investment. But the government must have the money. If it can't get it in this way it will have to get it by taxation and never pay it back. Germany, a country not so rich as ours, has raised 50 billion dollars from loans besides great sums from taxation. Are not Americans as patriotic as the Unspeakable Huns?

THE PENTECOSTAL MEETING

These services at the Tabernacle on last Sunday were attended by the presence of the holy spirit. A very strong gospel sermon was preached at 3 p. m., after which a testimony was held, witnessing to the blessed privilege of being saved and sanctified; willing to bear the reproach with Jesus that we may obtain a better resurrection. "Ye are my witnesses, saith the Lord."

LENDING THEIR BEST CUSTOMERS

The proceeds of the Liberty Loan, including the greater part of that loaned to our Allies, are being spent for American products—the products of our factories, our farms, our mines, and other industries. In lending to the United States the people of the United States are lending to their best and largest customer and obtaining the safest investment in the world. Buy Liberty Bonds.

Lots of good people would go wrong if they did not fear punishment.

OUR LOCAL OBSERVER

Whatever may be our personal views in regard to moving our time forward one hour, let us ever keep in mind that this is war times, and the good soldier, whether in the trenches or at home, is the one who without questioning, obeys the orders of his officers. If it has been your custom to arise at 6 a. m., continue to do so, for whatever you may consider you have lost in so doing you can readily see you gain at night. Let us all pull together, pull hard and endeavor in every way possible to speedily bring this horrible war to a close.

As it has not been mentioned before, we would suggest that our citizens get the "clean up" spirit at once. A stroll around the city, and especially into some of the back alleys and some of the back lots of the city, conditions are miserable. The city should be cleaned up thoroughly before the hot summer days arrive. Much sickness can be avoided by having the city thoroughly renovated NOW.

As we have stated before, and which is an old but surely a true saying, "first impressions are most lasting," and certainly the first impression a stranger gets of Greenville after alighting from our trains is anything else but good. The general appearance of the surroundings at the depot are deplorable. Parties who own vacant lots and property near

LOLA REMINE NOMINATED

Friends of Sheriff Lola Remine, of Washington county, will be glad to learn that he received the nomination again in last Saturday's primary election. The contest was spirited throughout. His large vote in Johnson City demonstrates the high esteem in which he is held in that city. Lola has proved a caution to evil doers and the better element of people are behind him in the enforcement of the law.

DEATH OF MRS. R. P. JOHNSON.

Mrs. R. P. Johnson died at her home five miles west of Greenville Monday afternoon, after a lingering illness. She is survived by her husband and two small children. Funeral services will take place at Hardin's Chapel Wednesday morning, interment taking place in the cemetery at the same place.

Dr. J. F. Lane expects to leave during the coming week for the base hospital, where he has entered the service of the medical department of the government. While our citizens regret to see Dr. Lane leave he is receiving the hearty congratulations of his friends for having tendered his services to our government at this most important period of the war. He will go with the most earnest desire of our citizens for his safe return.

WHAT WILL YOU DO?

The soldier must pay in suffering and death for liberty for you.

What will you pay? The soldier gives up all on earth except honor to purchase liberty for you and your country.

What will you give up? Your loved ones and your country and all on earth that is worth living for are at stake.

What are you willing to do to save them?

The murderer and the outrager are striking down your neighbor's family and are starting for your loved ones. The soldier rushes in and offers his life to save them.

What are you willing to do to save them?

On April 6th the nation will ask for an expression of your patriotism. On that day it will want to know what you are willing to do to stand behind the soldier as he goes "over the top." It will ask you on that, the first anniversary of our entrance into war, how many Liberty Bonds, the best security on earth, you will buy. Do not wait for a long drawn-out campaign, but be ready on the opening day to stand in line, if necessary, to enter your subscription.

Go to a woman, thou man, consider her ways as a bargain hunter and save your money.

Somehow it doesn't sound just right when a spinster asks for a match.

THE DEADBEATS.

What do the poor-pay fellows do with their money? They do not usually live any better than the other fellows, they accumulate no property, and nine times out of ten the man who owes you, owes everyone else in the community that would trust him. It is always dangerous to take a risk on a slow pay man for the habits of a lifetime will get the best of any good intention that he may, for the moment, have regarding you.

Nature is generous, but she never forgets to avenge her wrongs.

If you receive a sample copy of The Sun today it is an invitation for you to subscribe. Would like to send it into every home in Greenville every afternoon. It will cost you only 40c a month.
