Boys' heavy Ribbed Union Suits, \$1.00, at Thompson's. 176-2t

Mr. Busch McWharther is able to be out again after a week's tussle with gripe and influenza.

Boys' heavy Ribbed Union Suits, \$1.00, at Thompson's. 176-2t

Some fine strawberries were being sold to our citizens yesterday by Mr. Ross Kingsley, the well known truck man. Mr. Kingsley tells us that he has been having good success with his ever-bearing strawberries and that he was donating every cent derived from the sale of the berries to the Red Cross chapter. How many others are doing as much?

Pure Pork Sausage at Hardin Grocery Co.

The three children of Mr. W. H. Doughty are reported ill of influenza this morning.

In clubs of five you can Get The Daily Sun by mail for \$2.

Friends of Mr. Geo. G. Lamons will be glad to learn that his condition is somewhat improved. Physicians are hopeful for his recovery.

Mr. S. D. Bixner spent Wednesday night with her sister, Mrs. I. A. Poe, on the Warensburg pike.

WANTED:—A good farmer with boys, good stock and farming tools to go on my farm in the Sweet-water Valley. Plenty of good land for growing corn, wheat and tobacco. If interested see S. D. Bitner, at the Bee Hive.

FOR SALE:—Poland China Pigs, Big type, the Burgess & Son stock, pedigrees to go with sale of pigs. Also three Angus heifers, yearlings past, good breed, have been bred to registered bull. If interested, see or write, MARK MYERS, Greenville, Tenn., Rt. No. 3. dly & Wkly to Jan. 19

A small Kansas boy was once called in to view his new born baby brother. He looked it over with dissatisfaction and finally asked: "Mamma, where did this thing come from?" "An angel brought it, Jimmie." "Wuz you awake when he came?" "Certainly, Jimmie." "Well, then, mamma, all that I have got to say is that you are dead easy. I'd like to see any old angel put off such a looking thing on me."

THE SMALL TOWN KICKER.

There are fancier towns than our little town, there are towns that are bigger than this, and the people who live in the tinier towns all the city excitement will miss. There are things you can see in the wealthier towns that you can't in the town that is small; and yet up and down, there is no other town like our little town after all. It may be that the street through the heart of our town isn't wide, isn't long, isn't straight, but the neighbors you know in our little town with a welcome will wait. In the glittering streets of the glittering town with its palace and navesment and thrall, in the midst of the throng you will frequently long for our own little town after all. If you live and work in our town, in spite of the fact that it's small, you'll find that the town—our own little town—is the best of a town after all.

How Farm Workers Will Be Classified In Draft

A plan has been agreed upon by the War Labor Policies Board, Provost Marshal General, Secretary of War, Secretary of Agriculture and Secretary of Labor to put into deferred classification such persons in the new draft as are necessary in agriculture, industry and other occupations. Three advisers are to be associated with each district draft board for the purpose of presenting facts relative to the supply of necessary workers within these three occupational groups. The agricultural advisers have been nominated by the secretary of agriculture. They should be in possession of accurate facts regarding the requirements of agriculture for the various classes of workers in their own districts. They should have facts also as to the requirements for such classes in other districts in order that workers not sufficiently necessary in one district to entitle them to deferred classification may be transferred to other districts in which they are needed.

The purpose of the information called for is to assist the district boards in keeping in agriculture the (a) "necessary skilled farm laborer in necessary agricultural enterprise" (deferred class 2); (b) "necessary assistant, associate or hired manager of necessary agricultural enterprise" (deferred class 3); (c) "necessary sole managing, controlling or directing head of necessary agricultural enterprise" (deferred class 4). Because the language characterizing these three groups (especially group A) has not a uniform interpretation, it will be difficult to give the information desired. And yet this language is the draft boards' standard or criterion determining whether tens of thousands of farm workers are to be in Class 1 or in deferred classes.

What the draft boards want are the facts as to necessary skilled workers. The unskilled workers are apparently not to be considered for deferred classification; they are regarded as more important for the army than for agriculture and industry.

"A skilled farm laborer" has been defined by one authority as "one who has the strength, intelligence and experience to perform acceptably the ordinary farm operations of the district, community or farm concerned, whether in fields, ranches, orchards or barns."

Presumably the amount of skilled labor that may be regarded as "necessary" is to be determined by the requirements of the present agricultural war program—something more than a normal production of most farm products. Pertinent questions in this connection therefore are such as: Are there sufficient skilled workers to produce the livestock, cereals, fruits, etc., required by this program? Do these workers toil harder and longer hours? Do some children, especially under 14 years of age, work regularly eight hours or more? Are the burdens of farm women increased? In other words, do the farm people, responding to many patriotic appeals, make, as compared to other occupational groups, a very heavy draft upon their reserve strength and upon their children?

Once a skilled farm worker who might probably be more useful in agriculture than in the army is placed in Class 1, either because he is at the time of registration in some other occupation or because he is not regarded as necessary to agriculture in his own district, he will probably find it very difficult to have his classification changed.

Two Children Are Burned To Death At Erwin

JOHNSON CITY, Oct. 18.—William, Jr., the nine-year-old son of W. W. Ryburn and Ryburn Erwin, a four-year-old playmate, were burned to death Thursday afternoon in a fire at Erwin that destroyed a barn near the residence of Mr. Ryburn. Little details of the tragedy were available at 2 o'clock. It appeared, however, from the report that the two, with another small child, were not known to have been in the burning building until it was almost destroyed. The fire when discovered, about 1:30, had gained headway before the arrival of the fire company. The fire fighters were apprised of the children being in the flame-enveloped structure by the little one who made his escape.

FOR SALE—Ten farm wagons and three spring wagons. Bargains if you need them. See me at once. R. L. BEAN.

Some Timely "Flu" Advice

Dear Friend:—

Have you had the "FLU"?

Do you want it?

That's just what we are writing this letter about. Doctors tell us the best way to prevent this disease from getting hold on you is to keep yourself in good condition. They say "good condition" means keeping your liver active and in good working condition, your bowels regular and your stomach so that it will digest readily the food you take. In other words, a healthy person is less liable to take "flu" than one all run down.

We have obtained a supply of the well known KALO which is highly recommended for the purpose mentioned above, and we would urge you to try a bottle in your family. KALO is good for the children as well as for grandmother, and satisfaction is guaranteed, which is all any one could ask.

When you come to the store we can tell you more about KALO and let you try a bottle.

The Brownie Calendar will soon be out. Leave your name with us for one—they will be scarce this year.

Special Rates In Clubs of Five Only

We will accept yearly subscriptions to The Daily Sun in clubs of five at \$2 a year. This special rate will not last very long. People who stop to think just what it means to receive a paper every day in the week are reasonable enough to appreciate what it costs to publish a paper every day in the week, therefore the \$3 a year rate on The Daily Sun is less than one-half what other daily papers are now demanding. The Daily Sun may not be quite as large as some other daily papers, but we give you the gist of the day's news boiled down and in a brief way. Our war news service is almost 24 hours ahead of other papers reaching Greenville.

TO EGG PACKERS AND SHIPPERS

You are now compelled to attach a card to every case of eggs you pack or ship, showing that same has been candled. You must have printed cards for this purpose. We have these cards and can send them to you upon receipt of the price—50c per hundred. If you want larger quantities, we can make you a better price.

Save Peach Seeds And Walnut Shells

Material produced from peach stones, cocoon shells, also from apricots, prunes, cherries, plums and walnut shells is of vital importance in the production of gas masks. Every pound of this material that can be obtained is necessary in order to provide for the protection against gas of our boys overseas.

The materials are needed by the Chemicals Warfare service. Some provision will be made looking to the concentration of all these shells and stones. There should be a large quantity of walnut hulls or shells saved throughout this section, judging from the large amount of walnut kernels that are shipped from Greenville alone. Tell your neighbors about it and have them tell some one else.

CALL OF ELECTION

By virtue of the authority in us vested as Commissioners of Elections for Greene county, Tennessee, we hereby call an election to be held in each and every of the precincts and voting places in Greene county, Tennessee, on Tuesday, November 5, 1918, from 9 o'clock a. m. to 4 o'clock p. m., for the election of Governor, United States Senator, Congressman, Railroad Commissioner, State Senator, a Joint Representative of Greene, Washington and Unicoi counties, a Representative of Greene county, and a Justice of the Peace for the 21st civil district of Greene county, to succeed J. D. Brown, resigned.

This October 8, 1918.

J. S. WHITE,
J. A. ARMITAGE,
JAS. F. SWINGLE,
