

Jaw Shot Off, Can Eat Again Soon

(By International News Service.) CINCINNATI, Ohio, Sept. 23.—A "new face" is a constant reminder that Sergeant Russell S. Rankin, Cincinnati's first hero of the recent World War, experienced the horrors of the terrible conflict. It was fighting near Soissons in the great Aisne-Marne drive that a stream of machine gun bullets tore a hole in Rankin's right shoulder, nearly tearing the arm off. Some of the enemy's bullets cut his neck, narrowly missing the jugular vein, ripped out seventeen teeth and cut off his lower jaw and half of his tongue. Another stream of bullets went through his left hand. He received first aid only after walking back three and a half miles. Nearly dying from thirst and loss of blood, Rankin could not swallow food nor drink for five days. After being fed fluids through his nose, he miraculously recovered. The remains of his shattered jaw were sewed back in place, pieces of bone were removed from his leg and transplanted in his jaw, strips of skin and flesh were cut off his chest, turned up and, without being completely severed from his chest, were grown onto the lower part of his face, forming a new jaw. Rankin's "new face" has been more than a year in the making. Dr. William T. Coughlin, St. John's Hospital, St. Louis, did the work. Spending over two years in hospitals in France, New York and St. Louis, Rankin underwent twenty-two important operations, in addition to much dental work. Dr. Coughlin is yet to perform three major operations on Rankin, who expects to return to St. Louis after visiting his mother at Cynthia, Ky. "I have not chewed a bite of food for more than two years—living on fluids, but Dr. Coughlin is going to implant more bone in my jaw, adjust a set of false teeth, and then I will be able to bite into a beefsteak once more," said Rankin. "That will be grand!"

The largest room without columns is said to be in a solid concrete building of the mosque in Lucknow, India. It is 162 feet long, 54 feet wide and 53 feet high. The timber mould was left a year for the concrete to set and the building, 125 years old, is still unimpaired.

SINGING CONVENTION ON Saturday, Sept. 25th GREENE COUNTY YOUNG PEOPLES' SINGING CONVENTION Will Meet At UNION TEMPLE

As this is the last Convention this year, every choir in the County is requested to be present. C. M. JOHNSON, Pres. CHAS. McNEESE, V-Pres. S. A. GABY, Sec. Sept. 9, 16, 23.

Feed Every 3rd Hog FREE

Save feed and get your hogs ready for market in less time. Prove at our risk that you can save fully one third your feed, making it possible to feed every third hog free by feeding Milkoline At 2c a Gallon Milkoline has a base of pasteurized and sterilized, modified Buttermilk. It is guaranteed not to contain any sulphuric acid or anything of an injurious nature to hogs or poultry.

Aids Digestion: Thousands of the most successful hog raisers from New York to California during the past five years have proved that Milkoline helps and assists digestion, leading to insure perfect assimilation of food. It helps tone up the system so that hogs are less subject to disease, and practically insures gains of 2 1/2 pounds per head per day. University Tested: Professor W. B. Combs, while Asst. Prof. of Dairy Husbandry at Missouri University conducted a scientific test on Milkoline and found that Milkoline fed hogs put on more weight and showed 22.6% more profit than hogs not fed Milkoline. W. H. Graham, a successful feeder of Middletown, Mo., said 150 worth of Milkoline made him an extra profit of \$20. Lee Jackson of Wappingers Falls, N. Y., says Milkoline lived up to a bunch of sows in fine style and is great for brood sows. Can't Spoil: Milkoline is guaranteed not to rot, sour, mold, or become indigestible in any climate. It is guaranteed to make a very uniform, and is guaranteed to make your money or it doesn't cost you anything. Distributed by KAISER BROS. Knoxville, Tennessee

2c a Gallon Milkoline comes in condensed form, and you do the diluting on your own farm. When fed as directed Milkoline mixture (one part Milkoline to 50 parts water or milk) costs only 2c a gallon. Full feeding directions free. It is shipped in convenient kegs and barrels which we supply free. The prices are as follows: 5 gal. \$1.00; 10 gal. \$1.80; 15 gal. \$2.50; 22 gal. \$3.50; 55 gal. \$8.50. If you buy in barrel lots because you save 60c a gal. over the 5 gal. quantities. 30-Day Guaranteed Trial. You are safe in ordering any quantity of Milkoline today. Feed one half the shipment to your hogs and poultry in a thirty day test, then if you aren't entirely satisfied return the unused part to us at our expense and we'll immediately refund every cent you paid us. We are so confident that you will find Milkoline the best money maker on the farm that the S. W. Boulevard Bank of Kansas City substantiates this offer. You are the sole judge. Send money order, or check, to us or our nearest dealer and we will ship immediately. Our booklet, "How to Rattle Heavy Hogs to Market" will be sent free on request—your name on a card will do.

WOMAN CAN VOTE SO SMOKES CIGAR

(International News Service.) LEWISTON, Me., Sept. 23.—This is a suffrage story. A woman aged about 75, walked into a local drug store. She said to the clerk: "Give me a good cigar." Next she asked for a light. To a query from the amazed drug clerk the woman said: "Twenty years ago I vowed that if I had the chance to vote I would smoke a cigar. Now I am going to do it if it kills me." She walked out of the store puffing the cigar.

Throngs Gaze at Sign Olive Thomas

(By International News Service.) NEW YORK, Sept. 22.—With the terrible death tragedy of Olive Thomas, American motion picture star still fresh in their minds, Broadway's gay throngs in the Longacre Square district gazed spellbound at a large electric sign high above the street which could be seen for many blocks. There, in white glittering letters in the centre of the sign was the name "Olive Thomas," flashing the same as usual, although the motion picture star was dead, a victim of accidental poisoning. Hundreds stopped along the street and watched the sign as though they expected its bright letters to fade away and go out like the life of the beautiful girl of the "movies." But the sign continued to flash long after the theatre and cabaret crowds had departed.

Maude Moore Not Found

KNOXVILLE, Tenn., Sept. 23.—Sheriff W. T. Cate has returned to Knoxville after going to Trenton in West Tennessee, in response to a telegram stating that a woman fitting the description of Maude Moore was held pending a visit by Sheriff Cate. Maude Moore is still at large, the sheriff said, for the woman held at Trenton was not the one wanted here. Maude Moore was convicted in a first trial and sentenced to twenty-one years in the state penitentiary but was to be given a second trial had she not escaped in August before the trial took place. She has not been heard from since though traces were thought to have been found in Detroit and other cities. The Trenton suspect, the sheriff said, closely resembled Maude Moore but was not the woman convicted of murdering Leroy D. Hath here several months ago.

KING OF SIAM SENDS YOUTHS HERE

(By International News Service.) SAN FRANCISCO, Sept. 23.—His excellency the King of Siam's educational commissioner, who will have charge of the education in this country of future Siamese citizens is Phya Medha, recent arrival here, who is now on his way to Washington, D. C. The Siamese Government is sending out a large number of the youths to be educated. The Government pays for the education, and Phya Medha, from his headquarters at Washington will supervise the work.

NATIONAL HEALTH CRUSADE STARTED

Free Public Clinics Being Established in Many Cities for the Osteopathic Treatment of the Poor.

A country-wide crusade for better health has just been started by the American Osteopathic Association. Free public clinics are being established in cities in all the states for the osteopathic treatment of the poor. Free lectures on the prevention of disease are being given in various community centers. "Better Babies" conferences are being held by the women osteopathic physicians for the benefit of mothers and infants. Osteopathic hospitals have been built in several cities recently and a number of others are projected for the immediate future.

The osteopathic colleges report a large increase in the number of matriculants, enlargement of faculties, and a still higher standard of entrance and curriculum requirements.

Great industrial plants, mills, factories, and large commercial houses are installing osteopathic departments for the purpose of keeping their workers fit, decreasing absences due to sickness and increasing the output by raising the physical efficiency. Several railroad companies have also added osteopathic specialists to their staff of physicians who restore injured employees to active service.

Accident insurance companies have discovered that injured men whom they care for under the Workmen's Compensation Act and employers' liability contracts are in many cases returned to wage earning very much sooner under osteopathic treatment than heretofore. This has resulted in a number of the greatest insurance companies installing osteopathic specialists in their offices in various cities to care for these cases.

Laws regulating the practice of osteopathy have now been passed in every state in the Union. This means that osteopathy is now standardized and regulated by law in a manner analogous to that by which the practice of medicine is controlled. Unqualified, incompetent and illegal practitioners of osteopathy are therefore now barred from practice by law and the public is just as well protected from injury by unqualified osteopaths as it is saved from harm by unregistered medical doctors. No osteopath can practice in any state in the Union now without being legally registered by the state.

Educational standards in osteopathic colleges have been raised to the level of medical standards and are enforced most rigidly. There are only seven osteopathic colleges in the world, and they are all members of the Associated Colleges of Osteopathy. This organization compels absolute uniformity of entrance requirements and a minimum curriculum of study—hours and subjects equal to that of medical schools. The length of the course of study in osteopathic colleges is four years and no person can enter without a high school education. These colleges are located in Chicago, Philadelphia, Boston, Kansas City, Des Moines, Kirksville, Mo., and Los Angeles.

Large general surgical and obstetrical hospitals are maintained in conjunction with osteopathic colleges, the largest being in Kirksville, Chicago, Des Moines, and Philadelphia. It is only a matter of time when hospitals will be added to the equipment of the other colleges.

Osteopathic colleges are chartered educational institutions, authorized by the states to confer degrees. They are not conducted for the purpose of profit, but entirely from the educational standpoint.

Osteopathy, then, is a school of practice, the basic principle of which is the mechanical adjustment of the body. This is so simple that it is difficult to see why there should be any misunderstanding regarding it. Osteopaths are mechanical physicians, or mechanicalians of the human body. As the spine is the central support of the structure of the body and as it contains the spinal cord which is the main cable of nerves—extending from the brain through the whole length of the trunk, the adjustment of the spine is necessarily the most important part of the work of the osteopath. Surgery being mechanical, is of course embraced within the scope of osteopathy although body adjustment by the hands of the osteopath saves the patient from a very large percentage of avoidable operations.

Nothing which is scientifically true regarding the human body as taught by the older schools of practice is denied in the teachings of osteopathy. Osteopathy is not a system of negation, of attack or criticism of other schools of practice. It is not destructive. It is constructive. There are plenty of sects and cults based primarily upon denial or denunciation of others. Osteopathy is not of these. There is no instrument of precision used in diagnosis in the old schools, which is not utilized by the osteopaths. Osteopathy is necessarily based upon anatomy, physiology, chemistry and the other fundamental sciences underlying all teaching of the art of healing. These sciences all existed within the medical fold before osteopathy was born.

While it is true that nothing which has been proven to be scientifically correct is denied in the tenets of osteopathy it is also true that the mechanical adjustment of the body is such a natural procedure and brings about such remarkable results, that the osteopath has no need for the administration of drugs internally for the treatment of disease.

Putter's Materia Medica says that there is no statement more scientifically proven than the one that the human body contains within itself every substance necessary for the treatment of disease. With such an admission by the osteopath on drugs, the osteopath has no need to look elsewhere for his remedies. The next proposition is how to make these substances available. Science teaches that the body is the most perfect machine known. Hence osteopathy concludes that a perfect machine with all the substances necessary present, needs only perfect adjustment in order to maintain perfect functioning, which is health.

Dodson Sounds Calomel's Doom

The "Liver Tone" Man Warns Folks Against the Sickening, Salivating Drug.

Ugh! Calomel makes you sick. It's horrible! Take a dose of the dangerous drug tonight and tomorrow you lose a day.

Calomel is mercury! When it comes into contact with sour bile, it rushes into it, breaking it up. Then when you feel that awful nausea and cramping. If you are sluggish, liver is torpid and bowels constipated or you have headache, dizziness, coated tongue, if breath is bad or stomach sour, just try a spoonful of harmless Dodson's Liver Tone tonight.

Here's my guarantee—Go to any drug store and get a bottle of Dodson's Liver Tone for a few cents. Take a spoonful and if it doesn't straighten you right up and make you feel fine and vigorous, go back to the store and get your money. Dodson's Liver Tone is destroying the sale of calomel because it can not salivate or make you usick.

CONDUCTOR WITH CHERRY GREETING

(By International News Service.) CINCINNATI, Ohio, Sept. 23.—Here's a tip from a preacher on how street car companies may obtain ten times their pre-war prices. Rev. Dr. Willis M. F. Anderson, resident Bishop of the Methodist Episcopal Church, has made the tip public.

He says that on one or the other of two street cars on which he rides almost invariably to his home here are two types of conductors.

One responds to the bishop's "good morning" with a grunt, giving the impression that the world is full of gloom.

Real joy, however, comes from a ride on the other conductor's car.

Bishop Anderson said that, in answer to his greeting, back comes a "good morning" from the conductor that is infectious in its good cheer. This conductor, too, tells his passengers something interesting and asks them how they are getting along.

"It's worth four times the regular fare to ride on that man's car," declared Bishop Anderson.

Confiscated Still for High School

(By International News Service.) STEUBENVILLE, Ohio, Sept. 22.—A still is to be placed in the high school building here.

What is more—the police know about it. But no arrests are contemplated.

R. L. Ervin, superintendent of schools, requested W. D. Downer, a Justice of the Peace, to donate to the school one of the stills which are being confiscated in Jefferson County almost at the rate of one each day.

Superintendent Ervin explained that the high school chemistry laboratory is badly in need of a still.

It is the practice to junk the captured stills. Justice Downer, however, promised to comply with Superintendent Ervin's request.

113 RATTLESNAKES KILLED BY TRAPPER

(By International News Service.) PORTLAND, Ore., Sept. 23.—Rattles from 113 rattlesnakes killed by one man this Summer form the lettering on a belt which is the latest acquisition of the United States Biological Survey office here. "Congratulations of R. C. Fulkerson, 1920," is the wording formed by the rattles. Fulkerson is a coyote hunter near Ormond, Washington, near Wenatchee. He killed the rattles while attending to his trapping.

SAY "DIAMOND DYES"

Don't streak or ruin your material on a poor dye. Insist on "Diamond Dyes." Easy directions in every package.

GIRLS! LEMONS BLEACH; WHITEN

Make Lemon Lotion to Double Beauty of Your Skin

Squeeze the juice of two lemons into a bottle containing three ounces of Orchard White which can be had at any drug store, shake well and you have a quart of pint of harmless and delightful lemon bleach for a few cents.

Massage this sweetly fragrant lotion into the face, neck, arms and hands each day, then shortly note the beauty of your skin.

Famous stage beauties use lemon juice to bleach and bring that soft, clear, rosy-white complexion. Lemons have always been used as freckle, sunburn and tan remover. Make this up and try it.

POLICE FORCE RESIGNED

(By International News Service.) ALLIANCE, Sept. 23.—The Alliance police force, which resigned several weeks ago after having been refused a raise in pay, has been replaced by new men, according to Chief of Police J. A. Elliott. Ten men have been employed. Others are said to be on the waiting list.
