Notice to Water Consumers

The DISCOUNT SYSTEM has been adopted for the government of the City Water Department, effective October 1st, 1912.

In substance, all flat rates are raised 50c per consumer and meter rates are raised 11 per cent., providing that any flat rate bill paid within 15 days from the first day of January, April, July and October, for the quarter beginning on such day, shall receive a cash discount of 50c, and that any meterage bill paid within 15 days from the first day of each month, for the water used during the previous month, shall receive a cash discount of 10 per cent. of the meterage portion of the bill.

In other words, if you pay within 15 days from date bill becomes due, your discount brings the bill back down to the amount you have paid heretofore.

The object of the measure is to put a premium upon prompt payment of bills and to relieve the city of the expense and the consumer of the annoyance of cutting off service at premises of delinquent customers on the fifteenth. (Under this arrangement no cutting off will be done until the consumer has had 25 days in which to pay his bill.)

SAM SELLS JR. HAS DANGEROUS FALL

Sam Sell, Jr., the eight-year-old son of Congressman Sells is the proud owner of a bicycle and an expert and reckless rider. About noon Saturday he was in a party of boys who were coasting down the hill in front of the residence of Cy H. Lyle. Little Sam was riding like the wind when he lost control of his wheel and was thrown violently to the ground. He was painfully injured and his little friends gathered hurriedly to assist him. Jackson Lyle hurried to the scene on his wheel and putting the injured lad in front of him, soon had him home. The child's eyelid was cut through and he was otherwise bruised about the face but was soon put in order by a physician.
