

Inform Yourself...

During this time of the year, while sales of many kinds are being offered all over the country under different plans and for many reasons, we will ask you to keep cool, don't get excited, but take a little time and do a little looking.

Give us a few minutes look and then decide where you should spend your cash. We believe that you will find our prices on the class of merchandise you will want as cheap as those of any house in America, and we know that no firm in West Tennessee can possibly show you as new, clean, desirable goods as we are showing, for we haven't one per cent. of old goods in our stocks.

And a ten-year-old boy knows that new, clean goods at a reasonable price is cheaper than old goods at cost, or even at half price.

Yours very truly,

Hardy Bros. & Haguewood Co.
