SCHOOLS OF THE COUNTY.

The directors of the Minnick school last week elected Miss Mary Tidrow assistant teacher for their school, who entered her work immediately.

Miss Mary Wilkerson closed a successful school at Garrigan's near Woodland Mills last week and left this week for Dickerson to pursue her studies in the normal.

Miss Emma Chapel, after teaching an excellent school at Holman's, in District 16, has ceased her work. Miss Chapel is one of the best educated secondary teachers of the county.

Educationally our colored teachers are showing evidences of new and renewed life, and have organized a Colored Teacher's Association for this county, to meet at Obion on March 2.

Many are asking if a State Institute will be established in Obion County for this summer. This is a pertinent inquiry and should receive the immediate attention of those interested. Other counties are organizing for such work.

Evidently many of our small school districts should be combined under the new terms begin next summer. Every child in the county should have equal advantages, but this cannot be done in our present system. To illustrate, there are two primary school districts, each adjoining the other. In one district there are 36 pupils, in the other 98. The per capita is \$4.50. That means about four months school in one district, and a ten months school in the other. Comment is unnecessary.

Can't rest at night with a bad back, A lame one, a weak or aching one. Doan's Kidney Pills are for bad backs. They cure every form of kidney ills. From common backache to diabetes. They are endorsed by Union City people.

Mrs. Nancy F. Burdham, widow, residing on First street, says: "A constant dull aching pain in my back and hips caused by my kidneys, annoyed me for years. If I stooped or overexerted myself in any way I felt sharp twinges in the small of my back. At night I was afraid to turn in bed for fear of stitches catching me. If I did turn pain set in and I was restless and nervous, and would lie awake for hours and rise in the morning more tired than when I went to bed. I saw Doan's Kidney Pills advertised and got a box at Moss Drug Store. I found after using them that the pain was lessened and the kidney secretions which had been very annoying and distressing were greatly relieved. In fact, I felt great improvement every way. My son also used Doan's Kidney Pills with splendid results."

A Wonderful Cow.

S. N. Matthews, a very well known citizen of the country adjacent to the I. C. R. R. at Gibbs, has a very valuable cow. The animal is of the Jersey species, the finest butter producers in the world. A young calf was born to this Jersey on Christmas eve, 1905, and up to December, 1906, Mrs. Matthews sold 272 pounds of butter at 25 cents a pound, aggregating \$68, and milk to the amount of \$17, besides what milk and butter the family used. This included butter and milk which was taken to market only once a week. The calf also sharing the cow's milk is now valued at \$25 and will be giving milk this summer. The cow received ordinary treatment only, being fed bran once a day and pastured a portion of the time.
