GENERAL NEWS.

Pennsylvania Democrats in convention at Harrisburg recently nominated John G. Harman, of Columbia county, for State Treasurer, and tabled a resolution indorsing W. J. Bryan for President.

Hamilton county, Ohio, is awarded back taxes to the amount of \$82,000 against the Union Central Life Insurance Company by a decision of the Superior Court. The back taxes are on the company's bank deposits.

Harry Vaughan and Edward Raymond, convicts sentenced to the penitentiary from St. Louis, and George Ryan, a convict sentenced from Kansas City, were hanged in the County Jail at Jefferson City, Mo., for killing Prison Guard John Clay during a concerted attempt to escape from the penitentiary.

E. H. Harriman, the millionaire railroad magnate, was arrested by Government officials on the Thames river, near New London, for persistently getting on the course in his launch when the Yale-Harvard boat race was being run. Mr. Harriman was later released, but his boat was tied up. Yale's crew won the race after a magnificent struggle by a boat's length, amid intense enthusiasm.

Martin B. Rice, of Davidson county, has been appointed Warden at the main prison. The term of the incumbent, Capt. Luke McMeneway, will expire on next Saturday, the same day that Commissioner Hartford is to be succeeded by Henry B. Morrow, and on that date Mr. Rice will be inducted into office. He will also at the same time receive the title of "Captain," that title being a part of the perquisites of the office. Mr. Morrow will receive the title of "Colonel," since the higher rank always goes with the office of commissioner. In fact, everybody at the penitentiary wears a military rank, and this fact, no doubt, accounts for the numerous applicants for places there.

According to officials of the Treasury Department, the manufacturer of trunks with false bottoms, for the purpose of smuggling valuables into this country, has developed into a thriving industry abroad.

Replying to requests made by attorneys for the Standard Oil Company, Judge Landis, in the United States Court at Chicago recently refused to recall the subpoena issued for John D. Rockefeller, and declared that the Oil King must appear in court and give his testimony.

Rev. Dr. D. T. Eaton, editor of the Western Recorder, pastor of the Walnut Street Baptist Church in Louisville, and the Baptist chief champion, is dead. Dr. Eaton was 62 years of age.

To Teachers, Directors, Patrons, Etc.

The County Institute for Obion County will convene at Rives, Tenn., Monday, July 8, at 1 o'clock, and close Friday, July 19. Every prospective teacher who expects to teach in this county, and have not, on July 8, either an Honor Roll Certificate or a State Primary Certificate, secured this year from some one of the State Institutes, must attend the County Institute at Rives for the whole term, and at the close pass an examination on the required subjects, either Primary or Secondary. Those teachers holding a State Primary Certificate, but who attended no State Institute this year, will have their certificates renewed without examination. However, such teachers must attend the County Institute and listen to all the lectures made during the Institute. I trust that all the teachers will thoroughly understand the above rules and regulations. No exceptions will be made.

County Superintendent.

Everybody Clean Up Their Premises.

I have been requested to name a day for the people of the town to unite and clean up not only their own premises, but the streets and alleys as well.

Mr. J. P. Adams, chairman of the Sanitary Committee of the city, is particularly anxious that this shall be done, and will not only co-operate with the street force in this movement on the day named, but will use the city wagon in hauling away all trash and refuse that may be collected by the people on that day.

In pursuance of the above plan, I name **TUESDAY, JULY 9**, as the day when all may work together and not only clean up their own premises, but cut the weeds down in front of their property along the sidewalks as well.

America Boiled Down.

America has from time to time been accused of being unduly pompous—that she claims all in sight, the largest, smallest, longest, shortest, richest, most beautiful, as the case may be, of everything, and that she—the United States, that is—has even appropriated to her individual use a designation to which Canada and Mexico had equal title—"America."

But then, after all, doesn't she back up most of her claims—deliver the goods? Of course, it might be argued that a lace handkerchief might be worth more than a blanket; but a citizen feels that he at least has breathing space when he reflects that Uncle Sam's dooryard embraces 3,026,789 miles square—a slight increase, by the way, over the 827,844 square miles of 1800. In that same year of 1800 the population was 5,308,488, a number which would scarcely be missed from the 84,154,009 of the present day. We don't feel crowded in most sections now with 27.1 inhabitants to the square mile; so that it must have seemed a bit lonely with 6.41 at the beginning of the nineteenth century.

And when it comes to the almighty dollar, there is where America certainly shines: She is worth \$107,104,211,071 in real or personal property, or \$1,310.11 per capita. If you haven't got yours, try to save it up out of the \$2,736,646,628 in circulation, which is \$32.32 for every member of the family. If you are particular you may choose it out of the \$668,655,075 of gold; the \$188,630,872 of silver; the \$516,561,849 of gold certificates; the \$471,520,054 of silver certificates; the \$335,940,220 of United States notes; the \$548,001,238 of national banknotes, or in small change from the \$7,387,320 drifting about.

It is true that there is an interest-bearing debt of \$895,159,140, the annual interest on which is \$23,248,064; but no one worries much about that, when it amounts only to 28 cents a year to the citizen and the peanut crop promises to be good. Besides, certain provident members of the community have deposited \$4,055,873,637 in national banks, and 8,027,192 have put \$3,299,544,601 in the savings banks.

Then there are the farmers. There are 10,438,219 of them, with 5,789,657 farms worth \$20,514,001,838, the products of which are worth \$3,764,177,706, and who feed not only themselves and the rest of the 84,000,000 Americans, but send 117,718,657 bushels of wheat, to say nothing of 13,919,048 barrels of flour to foreigners. The foreigners pay \$62,061,856 for

we are always seeking something new, and the Government admits to 31,965 a year that they have done so and issues them patents.

It is much to be regretted that we have 6,246,857 illiterate citizens, ten years of age and upward, but there is a ray of hope in the fact that we are spending annually some \$291,916,660 on our public schools, which are being attended by 16,468,300 pupils, who receive instruction from 460,269 teachers. And then there are 453 colleges and universities.

Of course it may be true, as they say, that we brag a bit; but America must look good to the foreigners after all—more so every year, as in 1820 only 8,385 immigrants thought it worth while to give us a trial, while last year 1,100,753 entered our ports.

No, after all, we don't brag—merely state facts.—St. Louis Republic Sunday Magazine.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials.
