Wheat was quoted at 90 cents in the local market yesterday. The wheat in the county grades a little above the average, but the crop is very small. The price is slightly better this year, but there is a considerable falling off in the returns on account of the small acreage.

J. W. Ferguson, who lives near Clayton, was in the city Wednesday and informs us that he saved his wheat crop, all except about 75 bushels which the hogs damaged. Some of our reporters made it appear that his crop was a total loss, but that was a mistake. Mr. Ferguson made nearly a full crop.

Having sold practically all of our Merry Widow pins we will offer some special values in cut-glass bowls: \$5.00 Bowls for \$3.98 while they last.—Bransford & Andrews.

The readers of this paper will be pleased to learn that there is at last one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case it fails to cure. Send for list of testimonials.
