Think what this great saving means. It will furnish two or three rooms in your house in elegant style. It will repair and repair your house and barn, or build an addition to either. It will buy the best piano made, or send your son or daughter to college for a year. You know the ordinary stove cannot be made proof against air-leaks, because the joints are plastered with stove putty. As soon as the putty dries up, and falls out, the air is sucked in through the cracks, and the gases which should be burned, and a large part of the heat escape up the chimney. Poor radiating surface and leaky joints mean many dollars' waste in high priced coal. Imperfect combustion means a loss of the best heating half of soft coal, the Gas Half. Cole's Original Hot Blast Stove saves all wasted with other stoves. A hat full of the cheapest coal, costing one cent, holds five over night. We will set one up, backed by our and the manufacturer's guarantee at prices from \$10 and up.

## Cole's Original Hot Blast Stove

ASK FOR FREE

Our free booklet on scientific combustion will tell you how to heat your home twice as cost

...see a saving of one-third in fuel over any lower draft stove of the same size, soft coal, lignite or slack.

...guarantee Cole's Hot Blast to use less hard coal for heating a given space than any base burner made with same size fire pot.

...guarantee that the rooms can be heated from one to two hours each morning with soft or hard coal put in the stove the evening before.

...the stove will hold fire with soft coal from Saturday evening until without attention.

...day and night, with soft coal, hard coal or lignite. ...to remain absolutely air-tight as long as used.

...the feed doors to be smoke and dust proof.
