

## Up The Chimney is Where Half Your Fuel Money Goes

You Can Save \$100 to \$300 in  
The Next Three to Five Years

Think what this great saving means. It will furnish two or three rooms in your house in elegant style.

It will repair and repair your house and barn, or build an addition to either. It will buy the best piano made, or send your son or daughter to college for a year.

You know the ordinary stove cannot be made proof against air-leaks, because the joints are plastered with stove putty. As soon as the putty dries up, and falls out, the air is sucked in through the cracks—and the gases which should be burned, and a large part of the heat escape up the chimney.

Poor radiating surface and leaky joints mean many dollars' waste in high priced coal.

Imperfect combustion means a loss of the best heating half of soft coal, the Gas Half.

Cole's Original Hot Blast Stove saves all wasted with other stoves. A hot full of the cheapest coal, costing one cent, holds fire over night.

We will set one up, backed by our and the manufacturer's guarantee at prices from \$10 and up.

### Cole's Original Hot Blast Stove

#### GUARANTEE:

1—We guarantee a saving of one-third in fuel over any lower draft stove of the same size with soft coal or slack.

2—We guarantee Cole's Hot Blast to use less hard coal than any base burner made with the same size fire-pot.

3—We guarantee that the rooms can be heated from one to two hours each morning, with the soft coal.

4—We guarantee that the stove will hold fire with soft coal from Saturday evening until Sunday morning without attention.

5—We guarantee a uniform heat day and night, with soft coal, hard coal or lignite.

6—We guarantee every stove to remain absolutely air-tight as long as used.

7—We guarantee the feed doors to be smoke and dust proof.

8—We guarantee that the stove will hold fire with soft coal from Saturday evening until Sunday morning without attention.

9—We guarantee a uniform heat day and night, with soft coal, hard coal or lignite.

10—We guarantee every stove to remain absolutely air-tight as long as used.

11—We guarantee the feed doors to be smoke and dust proof.

12—We guarantee that the stove will hold fire with soft coal from Saturday evening until Sunday morning without attention.

13—We guarantee a uniform heat day and night, with soft coal, hard coal or lignite.

14—We guarantee every stove to remain absolutely air-tight as long as used.

15—We guarantee the feed doors to be smoke and dust proof.

16—We guarantee that the stove will hold fire with soft coal from Saturday evening until Sunday morning without attention.
