A Good Position

Can be had by ambitious young men and ladies in the field of "Wireless" or Railway telegraphy. Since the 8-hour law became effective, and since the Wireless companies are establishing stations throughout the country there is a great shortage of telegraphers. Positions pay beginners from \$70 to \$90 per month, with good chance of advancement. The National Telegraph Institute operates six official institutes in America under supervision of R. R. and Wireless Officials and places all graduates into positions. It will pay you to write them for full details at Memphis, Tenn., or Columbia, S. C.

Let all Obion County teachers attend. Certainly the teachers of this county have enough county pride to try to excel Gibson County. I can assure you of a hearty and cordial welcome by the people of Mason Hall. The program will be printed in the papers next week. C. L. RIMING, County Supt.
