Improving Gem Service.

W. C. Morris, proprietor of the Gem Theatre, has installed an entire new outfit for the exhibition of moving pictures. He has a new film machine and the booth in which it has been installed has been lined throughout with sheet iron, protecting the house from the danger of fire. The new machine is operated with a motor with many new improvements over the old one, especially in the saving of current, but the greatest improvement in the house is the curtain, a new departure in the moving picture business. This is the "Sunlight" Metallic Cloth Curtain, made by the company of that name. It is of aluminum color, increasing the strength, the tone and life of the pictures in a marvelous way. Mr. Morris never tires in adding improvements to the Gem, but of all these this curtain is the best he has made. The film service he is using is also being gradually improved. The film manufacturers are making improvements, and as fast as this takes place Mr. Morris takes pains to secure the advantages for the Gem. The result is that he has one of the best motion picture theatres in the country. The Gem has made a specialty of clean productions, and the house and its management have been accorded much credit for this. The policy has also been very profitable as well as popular, and therefore the splendid reputation of the Gem Theatre.

Deafness Cannot Be Cured

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and, when it is entirely closed, deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition the hearing will be destroyed forever; since cases out of ten this deafness is caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars free.
