

## Quality in Lumber

counts for much more than its initial cost. That is proven by the fact that when you buy lumber here, you won't have to buy more for a long time to come. Sound and thoroughly seasoned as it is, once it is put up it is there to stay without the need of repair or replacement.

## UNION CITY LUMBER CO.

T. R. REYNOLDS, Proprietor Phone 295

If you want the best and cheapest, use Bon Air coal Union City Ice & Coal Company.

### Attention, Confederate Veterans.

Warren McDonald Camp, U. C. V., No. 936, and Company E of First Regiment Reserves, C. V., National Guards Tennessee, will meet at their Armory on the first day of October, 1913, at 7 a. m. and will receive their arms and then be moved to the park and be ready to take the train for Nashville, Tenn., to attend the State Convention and Reunion of the Confederate Veterans. Your transportation agent and Quarter Master, Dr. F. M. McRee, has made every arrangement for your transportation and entertainment while in Nashville. Our special car will be on the track ready for us at 8 a. m. It is thought best that the Veterans carry one day's rations with them as we will arrive at Nashville too late for dinner.

R. W. POWELL, Adjt.

### GET A "BUG KNIFE."

The manufacturers of Ross "Dead Quick" spray will mail free one four-bladed pocket knife to any one furnishing the name of an insect that it will not kill. It kills insects and their eggs instantly. Kills mosquitoes too. Nothing like it. Sold in Union City by Oliver's Red Cross Drug Store.

### Real Estate For Sale.

As administrator of the estate of my brother, Robert J. Barnett, I am now offering for sale one double brick store house on Washington avenue, also one five-room cottage on Exchange street. Easy terms.

See White & Quinn or write V. G. Barnett, Dermott, Ark. 26-H

Ask your grocer for DAHNKE'S WRAPPED BREAD. He will charge you no more for it. All the goodness kept in—all the dirt kept out.

### County Roads.

To road commissioners, contractors, magistrates and land owners.

The Supreme Court has decided that the road law means exactly what it says in every section; that being true, someone had better get busy. Grade the roads 1 1/2 inches to the foot from ditch to center of road, keep ditches cleaned out so as to properly drain the road, and keep bridges repaired.

Several contractors were indicted last year and their cases were continued to hear from the Supreme Court, and at this term they all submitted and paid. I have been going over the county and find the bridges are in bad shape, the ditches grown up in weeds, bridges underneath full of weeds, brush, etc., which prevents the flow of water and washes away the bridges.

Below I give you what money is on hand to finish your contracts less the commutation which may be paid by the hands. None has been paid in as yet and Commissioners ought to get busy right now and collect and turn in at once. Land owners, if you clean out fence corners don't throw in ditches on road because that is obstructing the public highway and subject to indictment. So let all track the law and not be forced to the courts.

District	Amount

15	268.89
16	318.92
Total	\$9,682.77

GEO. R. KENNEY,  
County Judge.

### Hookworm.

A representative of the State Board of Health is now making a survey of Obion County to determine the amount of hookworm infection in the county. Some cases have been reported from the county and no doubt there is a considerable infection in the county.

This work is being done by the State Board of Health but is financed by Jno. D. Rockefeller, so it will not cost the people of the county one cent to have the examination made, and later when the dispensaries are established those who have the infection can get treatment free of charge.

Every county in the State has hookworm infection. Some are more heavily infected than others. There has not been enough work done in Obion County to determine how much infection is here. You can assist a great deal in finding out how much hookworm there is in the county by having your children examined. There is more infection in children than in grown people, because children go barefoot, and this is the way the worms are gotten. Anything that favors soil pollution favors the spread of the infection. The worms live in the bowel and lay their eggs there. These eggs never hatch in the bowel but hatch in the soil. Then when a barefoot boy or girl walks in the dirt contaminated with young worms these worms crawl through the skin, get into the blood and circulate with the blood to the lungs, then crawl through the wall of the little air cell and get into the air in the lungs, then they are coughed up and swallowed.

The worms are about half an inch long when grown. They suck blood from the lining of the bowel and inject a poison into the blood. This causes paleness, loss of energy, stunts the growth, retards the mental development and makes the person more susceptible to all other diseases.

Very truly,  
W. P. ROBINSON, M. D.,  
Director in Charge.  
Obion, Tenn., Sept. 9, 1913.

### Farms for Sale.

Two special farm bargains are offered for sale. One 160 acres, one mile east of Terrell. Lays level, two houses, two barns, good land for \$43 an acre. A \$2,500 bargain.

One 236 acres, well improved, lays level, three houses. As good a crop on it as there is in West Tennessee. Price, \$44. Both must sell. Write U. O. Parrish, R. F. D. No. 1, Union City, Tenn. 26-2t.

### Estray Notice.

Taken up and posted one mare mule, three years old, 13 hands high, color iron gray, nip out of left ear, white scar on each shoulder. Posted by J. R. Graham in District No. 14, one mile south of Glass.

25-3t DORRELL HARRIS, Ranger.  
R. F. D. No. 5, Union City, Tenn.  
Telephone Union City Ice & Coal Co. when you want coal right now.
