

CHILDREN ARE OFTEN LIVER LAZY

GIVE THEM LIV-VER-LAX INSTEAD OF HICKORY OIL.

Spare the rod and put the child in good physical condition. He or she will then perform the natural duties in a natural way. Too many children are given credit for laziness when their parents should be blamed for inattention to the child's physical condition.

Over eating or malarial conditions which induce laziness in the child can be quickly overcome by eliminating the poisons from the system—from the liver and the bowels.

Calomel used to be the only way Medical science has produced a better remedy in GRIGSBY'S LIV-VER-LAX, a purely vegetable compound that does better work than calomel without any after effects or unpleasant conditions.

Sold under absolute guarantee of money back by H. M. Oliver at 50c and \$1.00 a bottle.

For protection against imitations, each bottle bears the likeness of L.K. Grigsby. Be sure you get the original. advt

Some people say they love the month of March—cold blustery March makes them enjoy April more. We are prejudiced against March. We heard a fellow ask his best girl if she didn't think March the "blowingest" month of the year. She asked him if he found his hat. He said, "Yes, what are you looking for." She said, "Grammar leaves."
