Obituary.

Little Florence Morris, daughter of Mr. and Mrs. Albert Headden, grand-daughter of Mr. and Mrs. D. C. Headden and Mr. and Mrs. P. J. Cummings, and great-grand-daughter of Mrs. J. M. Park, was born Nov. 6, 1909. God took her home to glory April 23, 1915. I don't think, as some would argue, that a kind and loving Heavenly Father plunged this bright, sweet, amiable little girl into a kettle of boiling water in order to stamp out her life. But we know by the teaching of God's whole word that all things work together for good to those who love and serve the Lord. Although her life was short it was sweet and Christ-like, she was such a loving child and so universally loved by all who knew her that much more good may be accomplished by her short life than if she had lived longer. On Thursday afternoon, while playing near the kettle, she got closer than she thought and accidentally stepped back against it and fell backward into the kettle. God in his mercy relieved her suffering the next morning at 8:30 o'clock. All that could be done was to give something to relieve her. The little darling begged for grand-mama to come and love her, which, of course, she did as soon as possible. She begged for the doctor until he got to her, spoke of different ones of her papa and mama's family and asked Dear Jesus continually to help her. With her little hand that was not burned she drew her little brother to her and hugged and kissed him and said, "bless his little heart." Oh, may God bless his life that it may be a useful one and may his death, though he may live long, be as triumphant as was hers. She had been taught to love Jesus and told her mama often that she loved Jesus and knew that he loved her. She had knelt by mama's knees and said her little evening prayer ever since before she could talk plainly. At 2 o'clock in the morning she had gotten from under the influence of the opiate and was tossing and groaning with pain. She looked up to her mama and said, "Mama, I forgot to say my prayer." She made an effort to get out of bed to kneel by her mama as had been her custom, and did scuffle until she got on one little knee and said her prayer. She then kissed mama, papa and Aunt Mary and told them good night. Dear friend, please stop and repeat this little child-prayer—Now I lay me down to sleep—and try to think what it meant to us to hear those little lips repeat those words and see those little eyes close, knowing that they might never open again on earth; knowing at best that it was only a matter of a few hours until her little spirit would wend its way to the God who gave it. She never spoke again only to ask for water, milk or some coffee like mama fixes her's. Her papa's family and all her mama's family, except the elder brother, were with us long before the end came. To say that the life was almost crushed out of us all would not be saying too much, but oh how thankful we are that her dear mama in trying to teach her how to live and make a good and useful woman, taught her how to die and go home to God and glory.

Is Grave Incident.

New York, May 2.—"If it is so that a German submarine or, for that matter, any submarine has torpedoed the steamer *Gulf Light*, as is reported, the United States faces the most serious situation since the war began," declared Frederick R. Couderc, the noted authority on international law, to-day. "I am not prepared to predict the outcome of the affair. I must know the details. But it must be remembered that this government took a very decided stand upon the subject of the destruction of American life and property. If, as I now hear, the *Gulf Light* was torpedoed while flying the American flag and on her way to a neutral port, and that three lives were lost, I can only repeat that the most critical situation that this country has known exists. If the steamship struck a mine there still remains the chance of international complications of the gravest sort, especially if life was destroyed. But if it was a mine there remains the possible excuse of carelessness or that the mine was of the sort which did not violate the international code. The American government let all the belligerent nations know that we would hold any of them responsible who destroyed American property or life. I am not in position to predict this government's action, but it is not likely it will recede from its original position."

Deaths

Hickman, Ky., May 2.—J. F. Davis, well known man of West Hickman, died at his home yesterday after a few days' illness. He was 59 years old and is survived by one daughter and two sons, his wife having died a few months ago. Interment was held to-day at the City Cemetery. Hickman, Ky., May 2.—The little son of Mr. and Mrs. Clay Puckett died at their home in West Hickman yesterday after a few days' illness. Interment was had at the Brownsville Cemetery. The British War Office announces that twenty-six men of the British fleet were killed and fifty-three wounded in the landing operations against the Dardanelles between April 25 and April 30. An official dispatch from Athens says that the 4,000 French troops, who were landed on the Asiatic side, returned to their transports after the purpose for which they were intended—supporting the occupation of certain points by the British—had been accomplished.

Prevent Hog Cholera.

The B. A. Thomas Hog Powder has a record of 95 per cent. cures of hog cholera. If you feed your hogs as directed you need never fear hog cholera nor any other hog disease. And the directions are very simple, just about what you are doing, plus a few cents worth of B. A. Thomas' Hog Powder in the feed twice a week. Usually, though, cholera gets in before we know it. Then it requires close attention to each hog—each hog must be dosed—and if you dose them as directed you will save better than 90 per cent. If you don't, the B. A. Thomas medicine costs you nothing. We—no money back. For sale by Frank O. Wehman.—Adv.

AMERICAN SHIP SENT DOWN BY A TORPEDO.

On Her Way From Port Arthur to Rouen. London, May 2.—The American oil tank steamer *Gulf Light*, which sailed from Port Arthur, Texas, April 10 for Rouen, France, was torpedoed at noon Saturday off the Scilly Islands, according to a Central News dispatch to-day. The captain of the *Gulf Light*, according to the same advices, died of heart failure as a result of shock. Two seamen jumped overboard and were drowned. The other members of the crew were taken off by a patrol boat. The vessel was towed into Crow Sound and beached. The *Gulf Light* was a steel vessel of 3,202 tons net and was built at Camden, N. J., in 1914. She was owned by the Gulf Refining Company. The vessel was 883 feet long, 51 feet beam and 30 feet deep. She was equipped with wireless apparatus. The Telephone Operator Says:

If you wish to attract the operator's attention at any time during the connection, or if you wish to call another number, move the hook up and down SLOWLY three or four times.

Do not move the hook rapidly, as a rapid movement does not give any signal. When the operator says "Line Busy," hang up the receiver and wait a few minutes before calling the same number again.

By observing these precautions you will help your own service.

NOT ENOUGH CHILDREN

ever receive the proper balance of food to sufficiently nourish both body and brain during the growing period when nature's demands are greater than in mature life. This is shown in so many pale faces, lean bodies, frequent colds, and lack of ambition. For all such children we say with unmistakable earnestness: They need Scott's Emulsion, and need it now. It possesses in concentrated form the very food elements to enrich their blood. It changes weakness to strength; it makes them sturdy and strong. No alcohol. Scott & Downe, Bloomfield, N. J.
