## STATE FAIR ITEMS.

President Wilson may visit the Tennessee State Fair. The Board of Fair Trustees for the State of Tennessee has invited President Woodrow Wilson to Nashville and to the Tennessee State Fair September 22, Tennessee Day. It is possible that the President may attend, should the great stress under which he now labors in guiding the government through this period of war and turbulence among the nations cease; as his attendance on this day would enable him to get in touch and become acquainted with more of Tennessee's people than any other occurrence.

Hon. H. K. Bryson, our Commissioner of Agriculture, was out at the fair grounds last week and inspected the \$25,000 building improvements now under way and the added facilities for the accommodation and comfort they will give exhibitors and visitors.

The wide-awake farmers and breeders all over the State are busy coaxing their pumpkins, watermelons, corn, fruit, etc., to put on extra weight, size, color, form and quality; their horses, ponies, jacks, mules, cattle, sheep, hogs and chickens to put on their holiday attire and be in readiness to receive the blue ribbon at the Tennessee State Fair.

Secretary Russwurm is up to his ears in mail, requests for premium lists, but he is a glutton for work and keeps calling for more. Now don't let's disappoint him. Mail your request right away and see if we can't swamp him.

In the afternoon and evening when you have seen the vast displays of Ten-

nessee's products and have wearied of the many educational features you will sit in the grandstand and be refreshed by the soothing strains of the great Scotch Highlanders 35-piece band and Madam Frederick Von Stechow and her Nashville Symphony Band; your interest in the genus equinus will be revived by the Lowande-Eugene Society Riding Act; you will marvel at the wonderful feats of the Eight Peruvian Acrobats; you will be thrilled by the death-defying aerial act of the Cevene Troupe; you will be amazed at the skill of the Tan Kwai Chinese Troupe, who will perform from the top of the grandstand to the infield; you will have to hold your sides when you see the comic antics of Fink's mules. In the afternoon you will see the best pacers and trotters of the blue grass country contest for the richest purses offered in the Southland. In the evening you will see the greatest horse show that has ever been staged in this country. The day's enjoyment will be brought to a close with the most gorgeous pyrotechnic display ever seen in the South.

### To the Public.

I wish to state to the public that I am still in the stock business and have mules to rent. My character and business integrity is too well established among hundreds of my business friends to need defense. My character and habits of right were formed long ago and irresponsible talk can't change them. Phone Clayton 19-1.

Yours for business,  
RICHARD B. MARSHALL.

You've tried the rest, now try the best—Jersey Cream Flour.

Disagreeable Calomel is Yielding to Pleasant Liv-Ver-Lax.

Physicians generally agree that the nauseating, unpleasant effects of calomel are due to the undesirably violent action it has on the system. For a long while various substitutes have been tried, but it was only recently that the really wonderful remedy, LIV-VER-LAX, was prepared successfully by L. K. Grigsby. LIV-VER-LAX has all the good and none of the bad effects of calomel. It is a necessity in every home, always being ready to cleanse the sluggish liver and bile clogged system, with no unpleasant after effects.

LIV-VER-LAX is guaranteed to give satisfaction, or your money will be immediately refunded. Insist on the original bearing the likeness of L. K. Grigsby. For sale in 50c and \$1 bottles at Oliver's Red Cross Drug Store.—Adv.

## P. & I. RAILROAD BRIDGE BUILDING

Longest Simple Truss Span in the World.

One of the most important pieces of railroad construction work now in progress in this section is the building of the Paducah & Illinois Railroad's big bridge across the Ohio River at Metropolis, Ill., work upon which has been progressing for some months, and which will take three years to complete. This structure will contain 19,000 tons of steel and will be 5,700 feet from end to end, with a main channel span of 720 feet, the longest simple truss span of any railroad bridge in the world. The piers will be founded 75 feet below the river bed, and from the bottom of the main channel pier to the top of the bridge span will be 317 feet—higher than a skyscraper.

This work will also require 90,000 yards of concrete in the construction of the piers and pedestals for the steel work of the approaches, and the bridge floor will be 53 feet above high water. It is said by bridge experts that the machinery for the erection of this bridge is the most complete of any plant assembled in the country. The caisson for two piers have already been sunk and work is progressing night and day.

The P. & I. Railroad is arranging to open its line from Paducah, Ky., to Metropolis, Ill., on Sept. 1. The Nashville, Chattanooga & St. Louis Railway and the Burlington railroad, which form the P. & I., have constructed inclines on the Illinois and Kentucky side of the river for the use of transfer boats during the construction of the bridge, and in addition the N. C. & St. L. has just completed a twelve-mile extension to the river for the connections of the P. & I. with the N. C. & Paducah.

This new road will open and develop a splendid business between the Northwest and the Southeast, and eventually it means that five trunk lines will use this bridge.

## Same Old Story.

Another disaster!  
They couldn't come faster.  
Or so to the reader it seems.  
Some more public fury.  
A coroner's jury  
And evidence taken in realms.  
Much probing and fighting.  
Some talk of indicting;  
Inspectors arrive by the score.  
And what is the finish?  
Their efforts diminish  
And things go along as before.

## A Troubled Town.

I'll sing you a ditty of Mexico City. It falls about four times a week. Marauders attack it and take it and sack it.  
Harassing its occupants meek.  
It is a great pity that Mexico City is thus of its treasures bereft.  
The town is still saving its sidewalks and paving.  
But really there's little else left.
