### Admits Plot Against Ships.

New York, Oct. 25.—Robert Fay, a lieutenant of the Sixteenth Saxony Infantry, admitted to-day he came here last April through an arrangement with the German secret service to blow up or delay steamers sailing from this country with arms and ammunition for the allies.

Fay declared, however, that he had acted independently of the German embassy or other German agents here. He added that he had told Capt. von Papen, military attache, and Capt. Boy-Ed, naval attache of the German embassy, of his plans, but said both men told him not to interfere with steamers sailing from American ports or American ammunition plants.

Fay and his brother-in-law, Walter L. Sholz, arrested yesterday near Grantwood, N. J., were arraigned to-day at Weehawken, N. J., on charges of conspiracy, and were held without bail for examination. A third man, Paul Dache, was arrested early to-day at his home in Jersey City and held without bail.

A large quantity of explosives, including dynamite and various kinds of acid used in the making of explosives, was found in the rooms the two men occupied in Weehawken.

At a garage in Weehawken the police found a high powered automobile held in Fay's name, and at a boathouse on the Hudson River a swift motor boat which he was said to own. In the boat-house they also found four boxes, each containing 120 pounds of chlorate of potash, one of the ingredients used in the manufacture of sugar bombs, in which water percolating into the receptacle melts the sugar, releasing the springs and causing an explosion.

We never have a long spell of sickness in our family, since we commenced using Black-Draught."

### NO PAY FOR SLAVE DAYS.

Smooth Negro Lawyers Dupe Race With Story of Gigantic Lawsuit.

Atlanta, Oct. 24.—The iridescent bubble of many a Georgia plantation darkey's lifelong dream has been punctured and blown to atoms by a message which has just come from the United States Treasury Department at Washington, announcing that this government has not and never will have any money to pay to ex-slaves, or their descendants, for the labor they put in before the war in the cotton fields of their masters.

At intervals for the past twenty years "slick" negro lawyers, and occasionally an unscrupulous white legal adventurer, have "snooped" around the rural sections of Georgia and other Southern States, preying upon the credulity of the negroes and persuading them that there was going to be a big lawsuit as the result of which Uncle Sam would pay \$68,000,000 to ex-slaves and their families for the work they did as slaves before the war.

By paying the "slick" talkers a small sum, the negro who was approached could have his name added as a plaintiff to this gigantic lawsuit.

The thing became so widespread that finally Uncle Sam, to save other dupes, has issued a formal statement and warning that a suit of that kind, no matter how filed, could not possibly hold water.
