MILLIONAIRE RADICAL SENTENCED TO PRISON

Lloyd and Others Guilty of Conspiracy Against U. S.

Chicago, Ill., Aug. 2.—William Gross Lloyd, millionaire Socialist, and 19 other members of the Communist Labor party, to-night were found guilty by a jury of conspiracy to overthrow the government of the United States.

The defendants were given various sentences, most of them getting from one to five years in the penitentiary, a few being given fines in addition and several were sentenced to one year in jail. Lloyd got the heaviest sentence, being given one to five years in the penitentiary and a fine of \$3,000 in addition.

Ludwig Lore, alleged co-author of the Communist Labor party platform and author of alleged radical publications, received one to five years, and Jack Carney, Duluth, Minn., editor of "Truth," and a member of the party's national executive committee, one to five years and \$1000 fine.

The sentences are for the State penitentiary and the Cook County jail.

The defendants were charged with conspiracy to advocate the overthrow of the government by force; conspiracy to belong to an organization advocating it, and conspiracy to attend meetings at which overthrowing the government by force was advocated.

MacLay Hoyne, State's attorney, in a statement issued after the verdict, called it a "signal victory for the entire United States."

"In this trial 'red' radicalism was driven into the open," said the statement. "One important issue decided by this jury is that the 'red' card of the I. W. W. is international and that the only card recognized as American is the card of the American working man in the American Federation of Labor."

Three women, indicted at the same time as Lloyd and others, now are awaiting a separate trial.

The defendants were indicted under a new Illinois law against criminal syndicalism. They are among three hundred suspected radicals taken in a raid in Chicago by State's Attorney Hoyne last January, which was made the night preceding the nation-wide raids instituted by Attorney-General A. Mitchell Palmer. Thirty-nine members of the Communist Labor party were indicted, but were not all tried for several days.

The trial began May 10, and nearly nine weeks were consumed in selecting a jury.

During the trial the State centered its attack on Lloyd, the most prominent of the defendants, and the son of a Boston philanthropist. He was charged with openly advocating a revolution of the masses against the government and was alleged to have said in speeches that "banks should be blown to get money to finance the revolution and armories should be rifled for ammunition."

Several newspaper men who reported the speeches made by Lloyd were among the witnesses against the millionaire and associates, and Mayor Ole Hanson, of Seattle also testified. Masses of documents issued by the Third Internationale at Moscow, the I. W. W. and similar organizations were introduced as evidence.

The defendants' chief defense was that "they were exercising their right of free speech" when making various alleged seditious statements, and that they had in no way violated their rights "as citizens of a free republic."

Work of Third National Bank.

Recognizing that a bank has a public duty to perform in times of stress, the Third National Bank of this city has met the present stringency as far as its officers felt they were justifiable in doing, by using the Federal Reserve Bank liberally for rediscount in assisting their customers to produce crops and prepare live stock for the markets.

Although their loans were at high water mark at the beginning of the season, and their clients being largely farmers whose deposits would necessarily decrease before a new crop was made, this bank made in original loans in May \$79,380.29, in June \$24,241.23, and July \$47,034.90, not one of these loans being a renewal of a former loan.

This information has been furnished us by an official of the bank, taken from its records and we think it due the bank and of sufficient interest to the public to make it known generally.

Predicts Cheaper Coal.

Miss Dixie Caldwell, the talented office manager for the Union City Ice, Union City Ice & Coal Co., informed a Commercial man of the contents of a letter received by her firm written by a big mining corporation, suggesting lower prices for soft coal during the next few days. The miners seemed to think the government would take a hand and set the prices back where they were during the war—or about half the figures asked now.

The little lady says they are getting Bon Air and the better grades of coal, when they are able to get it at all, at much cheaper prices than the cheaper grades from Kentucky and Illinois are selling for. Whether the government does or does not, the authorities know, the miners know, the middle grafters know and the people know that something should be done, and the doing is long since overdue. Thousands of the price boosters and strike grafters should be in jail. This might help some. It is worth a trial.

Public School Notice.

The rates of tuition for the Public School of Union City for the session beginning Sept. 6, 1920, and until further notice are as follows:

Grades 1 to 4, inclusive, \$27.00 per annum.

Grades 5 and 6, \$32.00 per annum.

Junior High, \$63.00 per annum.

On account of the unprecedented increase in salaries of the teachers and other expenses of the school the advance in tuition appears to us to be imperatively necessary.

No pupil whose tuition has not been paid for the past school year will be allowed to matriculate unless special arrangements are made with the Board of Education.

The Public School will open September 6, 1920, and we request all parents to see that the pupils start the first day so the teachers can organize the classes.
