Roberts Cotton Oil Company Suffers \$5,000 Loss at Troy.

Troy, Tenn., Nov. 15.—The large ginning plant of the Roberts Cotton Oil Company of this place was discovered on fire at an early hour yesterday and within an hour was a complete loss. By the efforts of volunteer firemen the large warehouse was saved. Some cotton in the bale on the railroad platform also caught fire and was considerably charred, but was finally extinguished. The cause of the fire is unknown, though it is not thought to be incendiary, as the owners had ginned out and quit for the season. The loss is about \$5,000, covered by insurance.
