White Mule Whiskey

All drinkers of white mule whiskey will die in 1926, according to the best authorities in the world. Some, ofcourse, will die earlier. But the healthy young man in bloom of life can not live longer than five years and drink it.

Union City,--Troy, Tenn.

Xmas and New Year.

Christmas is over and we are sure that every body feels better and happier. Because Xmas exalts the home and glorifies the family life. It helps to make strong the ties of kinship. Xmas away from home is not much Xmas at all. It needs mother, father and children—family groups to transfigure and glorify Xmas. If the spirit of Xmas were with us every day it would revolutionize our civilization. Selfishness would die the death of starvation, Avarice would be hanged as high as Hamon. Foolish pride would go down in crushing defeat. Class animosities would be drowned in a sea of brotherhood. Peace on earth would become a glorious reality.

To you I extend my heartiest greetings and well wishes for 1922.
