### Why Patronize Home Industries?

"HOME SWEET HOME" was made immortal by one of our poets. Today those words imply more than ever before. They not only stand for the affection shut within four walls, but for a wealth of neighborliness without. Are you acquainted with your home town as well as your home? Do you do your marketing 500 miles away, or do you take advantage of home grown products?

For a "palate teaser" we could recommend no better meal for a family than a home-grown one, beginning with a dish of our Pure Pork Sausage, and ending with pie, "like mother used to make," which is all the better, because it is made in the home kitchen. Then why buy your packing products from others, when you can get the best right here in Obion County from—
