Ready Today== New Tire Values!

"We have now perfected, for all sizes, the efficient manufacturing process which enabled Seiberling Rubber Company six months ago to announce a revolutionizing and superior Seiberling Clincher Cord Tire, 30x3 1/2, for \$12.50.

"A price reduction, therefore, of approximately 12 1/2 per cent will be made on all straight-side Seiberling Cords, and on Portage Tires, Seiberling-built—to be effective June 1st, 1922. These prices establish a rock-bottom basis—the lowest possible for fine tires.

"You may say to the car owning public, in connection with your announcement, that in my opinion, Seiberling-built Tires embody today highest quality and low cost to a degree which has not been equalled in my 23 years of rubber manufacturing."

F. A. SEIBERLING

What This Message Means To You

Read again that last paragraph of Mr. Seiberling's message to us. Remember it is made over his own signature by a man whose name has stood for achievement in the making of highest quality tires for more than 20 years—the builder of more cord tires than any other man—the inventor of the straight-side tire—the man responsible for today's type of cord—and the man who made possible the Seiberling 30x3 1/2 Clincher Cord Tire to sell at \$12.50—the most talked-about accomplishment in the tire industry during the past six months.

No such tire values have ever been offered as you can now get in Seiberling Cord and Portage Tires, Seiberling-built. These tires embody more advanced features of construction than any other tires on the market.

We want you to prove the statements to yourself quickly so instead of waiting until June 1, we are making these new tire prices effective to our customers today.

Come in, or phone us. Start today to cut your tire costs by riding on Seiberling-made Tires.
