E. G. Pardue, who has been traveling for the Canva's Decoy Co. for the past three years, has opened a modern ice cream plant in connection with the Crystal Ice Co. The plant will produce for the wholesale trade only a fine quality of cream. Mr. Pardue was with the Oliver-Cobb Drug Co. for two years making cream and managing the fountain service. He was also in St. Louis with one of the largest ice cream concerns in the city as manager. He is therefore prepared to furnish the trade with the finest ice cream products and invites the public to inspect his plant. This plant will be another addition to the manufacturing industry of Union City, and we trust meet the greatest measure of success.
