

**You'll enjoy the sport of rolling 'em with P. A.!**

**F**IRST thing you do next—go get some makin's papers and some Prince Albert tobacco and puff away on a home made cigarette that will hit on all your smoke cylinders!

No use sitting-by and saying maybe you'll cash this hunch tomorrow. Do it while the going's good, for man-o-man, you can't figure out what you're passing by! Such flavor, such coolness, such more-ish-ness—well, the only way to get the words emphatic enough is to go to it and know yourself!

And, besides Prince Albert's delightful flavor, there's its freedom from bite and parch which is cut out by our exclusive patented process! Certainly—you smoke P. A. from sun up till you slip between the sheets without a comeback.

Prince Albert is the tobacco that revolutionized pipe smoking. If you never could smoke a pipe—forget it! You can—**AND YOU WILL**—if you use Prince Albert for packing! It's a smoke revelation in a jimmy pipe or a cigarette!

Prince Albert is sold in tippy red bags, tippy red tins, hand-some pound and half pound tin humidors and in the pound crystal glass humidor with sponge moistener top.

**PRINCE ALBERT**  
the national joy smoke

## The Facts of the Telephone Situation in Tennessee

By J. EPPS BROWN, President  
CUMBERLAND TELEPHONE & TELEGRAPH COMPANY  
(Incorporated)

To furnish the telephone service which will be needed in the State of Tennessee during 1921, additional facilities must be constructed.

To build these facilities will cost \$1,207,000.00.

The company has no money with which to construct these facilities.

All new construction must be paid for out of the capital account of the company; all of the company's present capital is invested in the plant and facilities now used by you.

This money can be had in only one way; it must be invested in the company's business.

This money can be had from only one source; from the investing public, people who have surplus money to invest.

Part of the investing public of this country live in Tennessee.

These facilities are needed to serve the people of Tennessee.

Will the investing public of Tennessee put their money in a business which is now earning less than two per cent upon the investment?

Every dollar the public of Tennessee will invest in the company will be used to construct plant facilities in the State of Tennessee for the use of the people of Tennessee.

If the investing public living in Tennessee will not invest their surplus money in the company's business, the company must get the money needed to serve you from the investing public in other states; from strangers.

Can you expect strangers to invest their money in a business located in Tennessee in which the people of Tennessee will not invest their money?

Can you ask or expect them to furnish more money for your use in Tennessee under present conditions?

The owners of this property cannot be required, or expected, to make additional investments in Tennessee at the present rate of return.

Neither the present owners nor prospective owners will put more money into the telephone business in Tennessee until the money already invested is receiving a fair return.

When the company is legally authorized to charge a rate which will yield a fair and just profit over and above the cost of furnishing you service in the State of Tennessee, it can secure the money needed to furnish service to the State of Tennessee.

The company must have this right before it can get the money.

The people of Tennessee must act first.

To have telephone service you must either invest your own money in the company's business, or permit the company to earn such a profit upon its present and future investment as will induce strangers to invest their money in the State of Tennessee to serve you.

## COMMENCEMENT EXERCISES

RIVES HIGH SCHOOL

### WILD ROSE-OPERETTA

CAST OF CHARACTERS.

Rose McCloud.....Jonnie Woody  
Mary Forsythe.....Sara Taylor
