The Pear Tree Blight.

Among the papers read before the American Society of Microscopy at Detroit, in August last, was one on "The Blight of the Pear and Apple Trees" by T. J. Burrill, Professor of Botany and Horticulture at the Illinois State University.

It is probable that Prof. Burrill has discovered what occurs in the progress of the disease, but the definite cause, like the cause of the yellow fever, is not known.

A lady asks: "Where and when was Cert. Frank Pearce, of Cincinnati, born?" He was born at all.

We desire to call the attention of our readers to the grand offer of the Metropolitan Piano Company, whose advertisement appears elsewhere.

The Metropolitan Piano Co. are the first to do a general business with the purchaser direct, saving him more than one-half the price charged by other practices.

We would recommend any of our readers who have any idea of purchasing a piano organ, to send for this Illustrated and Descriptive Catalogue, which will be mailed free to all.
