—Mr. J. A. Brewer found two keys and a pencil sharpener, on a ring, Monday last. The owner is requested to come forward, claim property and pay charges.

—Mr. Toole is opening a splendid variety of Toys, Candies, &c., suitable for the Holidays. He has the largest stock of Holiday Goods ever offered in this market.

—The protracted meeting of the colored Methodists closed Wednesday night. It had been in progress three weeks, resulting in about 60 conversions and 30 accessions to the church.

Watch Her!

Esquire Jas. P. Raulston informs us that Esquire H. S. Bright, of Chilhowee, has a *little* girl, eight years old, who weighs 107 pounds!—For health, we think the mountain air of Blount county cannot be excelled.

Storm.

Wednesday night was exceedingly stormy. The wind blew terrific until about 4 o'clock Thursday morning. About midnight the sky was overspread with dark flying clouds, thunder and lightning being frequent, after which the wind changed around to the west, the air becoming considerably cooler. The weather during the week, up to Thursday morning, was extremely warm and Spring-like.

Church Blown Down.

From Mr. B. S. Dowell (who was in Knoxville this week) we learn that the storm Wednesday night blew down and almost completely destroyed a large brick M. E church in the suburbs of Knoxville—on the Jacksboro pike. Prayer meeting was held in the church the evening before, and it was fortunate that no lives were lost. Mr. Dowell informs us that the church was new, having been dedicated only a short time ago. He says the building was larger than the Presbyterian church at this place.

Messrs. Lewis & Jackson.

Country Merchants, the public generally, and our Blount county folks in particular, are invited to call and examine the large stock of Boots and Shoes, Hats, Caps, and Mens' Furnishing Goods, kept on hand by the above firm. They have now in store the largest and best stock of goods ever before offered to the public. Order only from this House, when laying in your Holiday Stock.

Don't forget the firm, Lewis & Jackson, No. 52 Gay St., Knoxville, Tenn.

POMEROY'S DEMOCRAT.—The subscription price of "Brick" Pomeroy's paper will be reduced next year. It is the boldest, wittiest and most original journal in the world. It is *intensely* Democratic, and takes the most anti-Republican view politically. Subscription price $2.00 per year, with special inducements to persons desiring to form clubs. Democrats take it because it is *usually* Democratic; Republicans takes it to see what Pomeroy has to say about them. Send to M. M. Pomery, Box 5217, New York City.

Cigars.

While in Knoxville this week we visited Messrs. Esperandieu & Co., Cigar Manufacturers, whom we were pleased to find enterprising and affable gentlemen. They manufacture the finest cigars we have seen in this end of the State, and are supplying the trade at the most liberal prices. Our business men who sell, and those who are fond of smoking, are advised to call only from this firm. Note this, dealers of Blount.

East Tennessee Tobacco House.

Our readers will please note that Messrs. Williams, Zimmerman & Wilson, Knoxville, Tenn., have in store the largest stock of Virginia Chewing Tobacco, Cigars and Smoking Tobacco; Fresh Timothy Seed, wheat, corn and oat Bags, Kentucky Blue Grass Seed, Cotton Yarns, &c., and are wholesale agents for Virginia Salt Works. They sell cheap for cash.

FOR THE HOLIDAYS.

New Stock of Goods.

Mr. G. A. Toole has added over two thousand dollars worth of new Drugs, medicines, perfumery, &c., to his stock, among which will be found over five hundred dollars worth of Holiday Goods—Toys, Fireworks, &c. The little folks can now commence laying away their dimes to spend at Mr. Toole's store during the Holidays. We warrant that when he opens his Holiday stock the little ones will "open their eyes," as he has made a splendid selection of articles just suited to the wants of the juveniles. Mr. Toole has the largest and most complete stock of articles in his line ever before offered to the people of Blount county; and we hope that his enterprise and energy will be appreciated by the public. Give Mr. Toole a call; Mr. John Currier will be glad to see you, and wait upon you with his usual politeness and good humor.

A Reliable Firm.

Messrs. J. W. Betterton & Bro.

The above popular firm, Jay Street, Knoxville, Tenn., manufacture the purest and best Whiskies, and are noted for their prompt and liberal dealing with customers. They have a large distillery in operation, in Roane county, and are thus enabled to defy competition in the quality of their Whisky, and in the lowness of their prices. Their liquors are recommended as perfectly pure—pure enough for medicinal purposes. The firm is composed of experienced, clever and accommodating business men; and in our business relations with them, we have ever found them to be affable and honorable gentlemen. Country dealers and druggists will do well to order only from this firm, as they can give better bargains and furnish purer Whisky than any other firm in East Tennessee. When laying in your Holiday supply, don't fail to patronise this House. See advertisement on first page.

What Does it Mean?

During the month of November last we received a letter from the publishers of *The Aldine*, New York City, requesting that we publish Prospectus enclosed and receive *The Aldine* in exchange. We accordingly inserted the prospectus, and forwarded a copy of the paper containing the same, prepaid, to the *Aldine*, 58 Maiden Lane, New York City. Not getting any returns from the publishers, we again forwarded them papers containing the prospectus; also, in the same mail, we addressed a postal card to the publishers, stating these facts. Up to this time we have not received any word from the publishers, nor have we received *The Aldine*. What is the matter with publishers in the City of New York? We almost invariably experience this same trouble when accepting their propositions. In this last case, either the publishers have neglected to enter our paper on their books, or some clever(?) P. O. clerk has been tampering with our mail matter. As we cannot get even an answer to our letter, the publishers above mentioned are respectfully requested to investigate the matter and see that justice is done us.

THE OLDEST AND THE BEST.—These are the bold claims which the publishers of the *New York Observer* make for their paper. And yet the facts of history bear them out in their first, while an undeviating course in sending out a large, full, fresh, readable family newspaper, gives them at least a right to lay claim to the second. In the great multitude of papers that are published the *Observer* holds its own position, and an enviable position it is. No paper reaches us that we can recommend more heartily. It is published at $3 a year, and the premium picture and chromo humbugs are left for those who have nothing better to offer. S. I. Prime & Co., 37 Park Row, New York.

AT COST.—See card of Messrs. J. B. Cummins & Son, Louisville, Tenn., who have determined to close out their entire stock of Goods *at cost*, in order to wind up their business. Purchasers will do well to give these gentlemen a call.

—Andy McNeil, a colored man living near Memphis, literally cut his wife to pieces last Saturday night for leaving his church and joining another one. He was arrested and sent to jail.

—A desperate fight occurred between John Robinson's Circus men and a party of roughs, at Jacksonville, Texas, on the 23d ult., resulting in the killing of three Texans and the wounding of several others. Six circus men were wounded.

—From the Kingston Valley *News* of Tuesday, we learn that a large meeting of the citizens of Roane county was held in Kingston on the 26th ult., to organize a stock company for the establishment of a Foundry and Machine Works at that place. Prominent among the projectors were the names of Col. W. J. Betterton, Messrs. H. Martin, J. C. Love and J. F. McEwen.

EDUCATIONAL DEPARTMENT.

S. Z. SHARP, Editor.

The Peabody Fund.

In an article with the above heading, in last week's REPUBLICAN, our friend J. Gray Smith intimates that many of our patrons would not send their sons and daughters to "Maryville College" on account of the colored students admitted there. What motive prompts the patrons of New Providence Institute to prefer it to Maryville College we never made a subject of inquiry, believing that every one has a right to send his sons and daughters where he prefers without being questioned.

As to the "base idea and mean parsimony" with which he charges the wealthier class of citizens, in Maryville, it is not our province to answer; but as to the manner in which the Peabody fund was obtained and to what purpose it has been applied, we shall cheerfully inform our friends (we thought all in Maryville knew it before.):

After obtaining the requisite number of pupils, and teachers, and amount of assured funds, we applied to Dr. Sears for the Peabody fund.—Shortly after, one of his agents visited this school and made a report to Dr. Sears. To our inquiry as to our prospect of getting said fund, he opened his letter addressed to Dr. Sears and read the following sentence: "*This is just the kind of school you want.*" A circular was then received from Dr. Sears with full instructions, stating that where no public school system existed a committee had to be appointed, whose duty it was to fill out and sign certain blanks he furnished. Dr. Elliott, W. A. McTeer and J. C. M. Bogle were appointed to act as said committee. Those able to pay made up the required fund; those unable to pay anything enjoyed the blessings they could not possibly have obtained in any other way. One hundred and seventy five pupils were enrolled. Thirty seven pupils received their education without costing them a cent—the Principal furnishing most of them with books, paying for them himself to the amount of between $25 and $30.

The cost of tuition to those thirty-seven pupils at $1.50 per month would have amounted in ten months to $555.00

Fuel,	60.00
Books,	25.00
Total,	$540.00

In return we received $300 from Dr. Sears, and the gratification to know that *all* the boys and girls in Maryville, unable to pay for their education, could get it without costing them a cent: and we take occasion here to say we feel proud of the advancement made both morally and intellectually of nearly all those pupils.

In regard to the school this session, I am happy to say, instead of the majority being pay scholars as intimated, 178 get the benefit of the free money at the Institute. The schools are under the supervision of the proper School authorities. Every condition has been thus far strictly complied with, and the School Directors have been officially notified that *eight hundred dollars have been granted to the Public Schools of Maryville.*

Correction.

A member of the County Court takes exception to our article week before last, for not quoting the law more fully. We are always glad to accommodate when we can consistently; so here is the law—italics are ours:

"SEC. 39. *Be it further enacted*, That when the money derived from the school fund and taxes imposed by the State on the counties, shall not be sufficient to keep up a public school for five months in the year, in the school districts in the county, the County Court *shall levy an additional tax sufficient for this purpose or shall submit the proposition to a vote of the people*, and may levy a tax to prolong the schools beyond the five months."

So much the worse for the County Court. It now shows that the law of Tennessee and the people of Blount county have both been treated with contempt, by that body.

(Read the advertisement below.)

New Goods, and Cheap Goods.

We are now receiving at Cox's old corner in Louisville, a splendid stock of Merchandize, consisting of every variety of Goods usually kept in retail stores; all of which we offer to the public as low down for cash or country produce, as goods of the same quality can be bought at retail in this State. We adopt the pay-down system—for the reason, first, that we believe it to be the interest of both buyer and seller; secondly, because our former partner well knows, from experience and observation, for many years, that the credit system causes more difficulties between neighbors, more enmity, envy and litigation than perhaps all else. We therefore, desire as far as possible to avoid all complexities, and try to live in peace and good will for all.

Our object be as far as in our power, to supply the public with cheap goods, as a Cash Market for the surplus Produce of the country. We are now paying cash for wheat, corn, oats, peas, butter, eggs, onions, feathers, poultry, etc., and expect to continue to pay cash for such articles, and pay as much as the same articles sell for at Knoxville or other points on the Railroads, less the cost of transportation to the Road.

We respectfully invite the public to call and examine our Stock and prices, and bring us their produce and receive the highest in Cash or Cheap Goods, as they may prefer.

H. T. COX & SON.

Louisville, Tenn., Nov. 1st, 1873.

N. B.—Parties who have only small amounts of produce for sale, need not hesitate to bring it to us. Have no fears that we will try to force goods on you in payment. Unless you prefer goods to cash, you shall have the money at a fair price for even one dozen eggs, one pound butter or feathers, or one or more bushels of grain. Parties who have but a small amount of produce for sale are as much entitled to cash as those who have larger amounts, and when they bring it to us they shall have their choice, cash or goods. Our prices depends on the quality and condition of the article offered. It always pays to put your grain, &c., in the best possible condition before taking it to any market.
