STINGING. The Chicago Times thus stings Lord Chief Justice Chase: The refusal of Chief Justice Chase to appoint registers under the Bankruptcy act until the Supreme Court shall have decided the question of the power of Congress to transfer the appointing power from the executive to the judicial branch of the government, is the most remarkable case of conscientiousness that has lately come to light.

Hard on the Weather. The local of the Mississippi Index is not pleased with the late spell of weather. He thus breaks forth: "We've often thought Noah and his family must have had a sloppy time when first disembarking from their long-tried craft, and once more putting foot on what was called dry land, but which we imagine must have been made up of a considerable proportion of prairie gale. We fancy the old gentleman deliberately drawing on his McEllan boots after a protracted use of slippers in his cabin room, and with a resolute air, sinking the first step knee-deep into moist ground Old Mrs. Noah, with many a 'pish' and 'pahaw,' drawing up her outer skirt over her balmeral, and following dubiously the splashing course of her determined 'old man.' Mr. Shen Noah lifting his better-half down by the gangway plank; Mr. Japheth Noah picking his spouse up and bearing her gingerly through a black lagoon; and Mr. Ham Noah—whom we conceive to have been a sort of domestic tyrant, but a jolly fellow withal—roughly calling on Mrs. Ham to 'come along there now, will you, and ever and anon applying a bottle of the Dew of the Ararat by way of a warming-up after the long spell of weather. The whole animal kingdom coming out in files of two—the dignified elephants—the melancholy camels—the conceited monkeys—the legal-looking jackasses—the noisy fies—the sprawling tigers; some crowding on to the heels of the others and provoking a restraining growl in front; some snapping at each other's tails and being kicked at in return; the frisking ones kicking at the plank and taking their seat in the mud below; the lively ones throwing up their legs in excess of animal spirit and the joy of out-door exercise—the whole crowd splashing and howling and barking and growling in multitudinous roaring, and keeping up an animated din and din that must have made the head of the family feel the full weight of his domestic responsibilities."

ANOTHER REBEL. Boston is in uproar, Summer is pale, and Butler, frenzied into the idea that he is still in Baltimore issuing orders and warring on women, roars out for his underlings. There is consternation over the whole North and East. Men shake their heads, look up at the stars and stripes and sigh out, "Oh, my country!" What is the matter? Why all this dismay? From pale and quivering lips the whisper goes round: "Mrs. Jeff. Davis has a baby—a boy—a rebel!"

MILTON. The London Guardian says: It may be interesting to know that Milton was not only a poet, but a lexicographer. It appears that the compilers of the Cambridge Dictionary, published in 1693, made use of a manuscript collection in three large folios, made by "Mr. John Milton," out of all the best and purest Roman authors. Also, the fourth edition of Dr. Adam Littleton's Latin Dictionary, published in 1703, has an acknowledgement on the title-page of its indebtedness to the same manuscript of Milton.

ENGLISH TRADE. During 1866 the exports from Great Britain amounted to \$944,138,925 in gold, which is 14 per cent. more than the total of the preceding year, and 18 per cent. over the exports of 1864. Of this amount, cotton manufactures make up \$304,325,110 in gold, an increase of 30 per cent. over 1865. The hosiery exports have increased 7 per cent.; linens, 5 per cent.; woolens, 6 1/2 per cent., and iron 10 per cent. 1,229,580,300 pounds of cotton were imported during 1866, of which the United States furnished 464,337,000 pounds.

SHOE PEGGING. At the recent exhibition of the Polytechnic branch of the American Institute, in New York, a hand shoe-pegging machine was exhibited, which is said to have operated to the satisfaction of its members. The exhibitor claimed that by his machine he could peg one pair of boots per minute, the work consisting of cutting the pegs from long strips of birch wood, punching the holes and driving a double row of pegs.

SUFFRAGE IN NEW JERSEY. A few days ago a report was presented to the New Jersey Legislature in favor of striking the words "white" and "male" out of the State constitution, so as to extend the right of voting to both women and negroes. In the Assembly, where there is a decided Republican majority, a vote was taken on this report on Wednesday, and the proposed changes rejected.

The Richmond Enquirer is satisfied with General Schofield's assignment to that military district. It says: "If the civil authorities of our State must be subordinate and overruled, the unpleasant office could not have been confided to any one who would command in the outset more of the hope and confidence of our people than Gen. Schofield."

The people of Maine understand the proper way to keep infants out of places of amusement. A town in that State recently had a festival, and on its show bills the public were informed that the terms of admission were twenty-five cents; for children under fourteen years, fifteen cents; but under four years, \$1.

The Pope is printing at the Propaganda a fac simile of the famous manuscript of the Greek Bible of the Vatican, which is more ancient than that of Mount Sinai. The fac simile is to compete with the Bible of Tischendorf and the Holy Father is to send it to the Paris exhibition.

The Lynchburg News says that James Farmer, who lives in the Yellow Branch neighborhood, in Campbell county, Va., served during the last campaign of the Revolution. He is in his 106th year, but is in good health, and sometimes rides several miles to mill.

In Toronto, on Wednesday, a man named Gould was put under the influence of chloroform, for the purpose of having the external iliac artery taken up, and a large tumor removed from his thigh, but before the operation could be performed, he died.

Louis Napoleon, anxious for early news of the debates in the French Legislature, has had a telegraph wire constructed between the Corps Legislatif and his study at the Tuilleries, by means of which he receives constant reports of the progress of business and the debates.

An exchange reports that in Georgia there is a thorough organization of freedmen, and Governor Brown's party has joined forces with them. We hope it will prove a slander on the State, though Brown would unite with the king of the infernal regions to secure political power.

Sheep, in Germany, before being sheared, are carefully cleansed. They are soaked and rubbed in vats of very warm water, with potash. After cooling, water is sprinkled over them until the wool is white, and they are then kept in a clean and warm shelter until dry enough for shearing.

A number of negroes attempted to vote at the election in Omaha, Nebraska, on the 4th inst., but were driven from the polls by a mob. In one ward a solitary negro vote was received, but none were permitted to be cast in the other wards.

It is reported that the body of Louis Fox, the great billiard player, who has been missing for several weeks, was found a few days since in the rear of some empty barrels in the cellar of the courthouse at Rochester, New York.

An exchange says: "Congress is a swarm of mosquitoes buzzing about the President's ears. Burn brimstone among 'em. Mr. President. That'll scatter 'em."

GEN. LONGSTREET ON THE SITUATION. The following letter from Gen. Longstreet will cause a feeling of regret in the minds of many of his admirers. There is no doubt that he speaks the truth when he says that "there can be no discredit to a conquered people for accepting the conditions offered by their conquerors." For the life of us we can perceive nothing in the military bill to accept. It is not addressed to the discretion of the South. It is positive and mandatory. It sweeps away the State governments, and places the lives and property of the people at the discretion of a military commander. Schofield can hang Gen. Lee, and Sheridan can hang Gen. Longstreet to-morrow, without trial by jury, and there is no help for it. Where there is no power to reject a proposition, it is absurd to talk of accepting it. The people of the South have only one thing to do, and that is to submit. But to the letter of Gen. Longstreet: NEW ORLEANS, La., March 18, 1867. To the Editor of the New Orleans Times: DEAR SIR—In your paper of yesterday, you have expressed a desire to hear the views of several gentlemen upon the political condition of the country. I find your name mentioned upon your list, and proceed, without hesitation, to respond. As I have never applied myself to politics, I cannot claim to speak to the wise statesmen of the country, who are devoting their energies to the solution of the problem which agitates the public mind. I can only speak the plain, honest convictions of a soldier. It can hardly be necessary at this late day, to enter into a discussion of the matter that is usually brought up in arguing upon the proposed plan for reconstructing the Government. Indeed, I think that many of them are not pertinent to the question. The striking feature, and the one that our people should keep in view, is that we are a conquered people. Recognizing this fact fairly and squarely, there is but one course left for wise men to pursue. Accept the terms that are offered us by the conquerors! There can be no discredit to a conquered people for accepting the conditions offered by their conquerors. Nor is there any occasion for a feeling of humiliation. We have made an honest, and I hope that I may say, a creditable fight, but we have lost. Let us come forward then and accept the ends involved in the struggle. Our people earnestly desire that the constitutional government shall be re-established, and the only means to accomplish this is to comply with the requirements of the recent Congressional legislation. It is said by some that Congress will not receive us even after we have complied with their conditions. But I can find no sufficient reason for entertaining this proposition for a moment. I cannot admit that the representative men of a great nation could make such a pledge in bad faith. Admitting, however, that there is such a mental reservation, can that be any excuse for us in failing to discharge our duty? Let us accept the terms as we are in duty bound to do, and if there is a lack of good faith, let it be upon others. I am, very respectfully, your most obedient servant, JAS. LONGSTREET.

Hard on the Weather. The local of the Mississippi Index is not pleased with the late spell of weather. He thus breaks forth: "We've often thought Noah and his family must have had a sloppy time when first disembarking from their long-tried craft, and once more putting foot on what was called dry land, but which we imagine must have been made up of a considerable proportion of prairie gale. We fancy the old gentleman deliberately drawing on his McEllan boots after a protracted use of slippers in his cabin room, and with a resolute air, sinking the first step knee-deep into moist ground Old Mrs. Noah, with many a 'pish' and 'pahaw,' drawing up her outer skirt over her balmeral, and following dubiously the splashing course of her determined 'old man.' Mr. Shen Noah lifting his better-half down by the gangway plank; Mr. Japheth Noah picking his spouse up and bearing her gingerly through a black lagoon; and Mr. Ham Noah—whom we conceive to have been a sort of domestic tyrant, but a jolly fellow withal—roughly calling on Mrs. Ham to 'come along there now, will you, and ever and anon applying a bottle of the Dew of the Ararat by way of a warming-up after the long spell of weather. The whole animal kingdom coming out in files of two—the dignified elephants—the melancholy camels—the conceited monkeys—the legal-looking jackasses—the noisy fies—the sprawling tigers; some crowding on to the heels of the others and provoking a restraining growl in front; some snapping at each other's tails and being kicked at in return; the frisking ones kicking at the plank and taking their seat in the mud below; the lively ones throwing up their legs in excess of animal spirit and the joy of out-door exercise—the whole crowd splashing and howling and barking and growling in multitudinous roaring, and keeping up an animated din and din that must have made the head of the family feel the full weight of his domestic responsibilities."
