I WATCH FOR THEE.

RESPECTFULLY INSCRIBED TO MARK W. L——.

I watch for thee! when parting day
Sheds on the earth a lig'ring ray;
With his last blushes o'er the rose
A richer tint of crimson throws;
And ev'ry flow'ret's leaves are curl'd
Like Beauty, shrinking from the world;
When silence reigns, o'er lawn and lea,
Then, dearest love, I watch for thee.

I watch for thee, when eve's first star
Shines dimly in the heavens afar;
And twilight's mists and shadows grey
Upon the lake's broad waters play;
When not a breeze, or sound is heard,
To startle evening's lonely bird;
But hushed is e'en the humming bee—
Then, dearest love, I watch for thee!

I watch for thee! when on the eyes
Of childhood slumber gently lies;
When sleep has stilled the noisy mirth
Of playful voices round our hearth,
And each young cherub's fancy glows
With dreams that only childhood knows,
Of pleasure past, or yet to be—
Then, dearest love, I watch for thee.

I watch for thee! hope of my heart!
Returning from the crowded mart
Of worldly toil, and worldly strife,
And all the busy scenes of life:
Then, if thy brow of brightness wear
A moment's space, the shade of care,
My smile amid the gloom shall be
The rainbow of the storm to thee.

MIDNIGHT DISPATCHES

FROM WASHINGTON.

WASHINGTON, May 6.—The War Department, in accordance with the advice of the Attorney General, ordered the commander at Fortress Monroe to obey the habeas corpus for the production of the body of Mr. Davis in the United States Circuit Court at Richmond, on Monday next.

A dispatch from Richmond says the grand jury of the United States District Court, empanneled this morning, has three colored men from Alexandria among the number.

In the Supreme Court, this evening, Attorney General Stanberry closed the argument on the Georgia and Mississippi injunction case. He spoke as to the general principles involved, and denied, as heretofore, that these cases had any place in court. They were not within the jurisdiction of a court of equity, such as the Constitution provides. There was in them no basis of property on which relief could be given. Georgia and Mississippi, according to the bill filed, undertook to speak for all the people of those States, when there was no evidence of this fact. Besides, of the ten Southern States over which reconstruction acts were to operate, only two were here. It was not known to the contrary that the remaining States were dissatisfied, for they had not presented a bill of grievances. The law gave a citizen the right to vindicate himself, and could do this as successfully as a State could for him. The counsel on the other side had invoked the court to save their liberties from destruction, and to preserve the integrity of the States on whose behalf they appeared, but, said the Attorney General, no inherent power for that purpose is in this court, for Congress might so act as to destroy the court by impeaching Judges on false accusation, or by denying salaries requisite to their support. It rested with the people, however, to secure the honesty and right doing of legislation, and on this basis one must look for preservation of rights of citizens and of guaranteed rights of States. No further proceedings took place on questions before the court. The court adjourned immediately on the conclusion of Stanberry's argument.

FROM NEW ORLEANS.

NEW ORLEANS, May 6.—The following names for the new levee board have been appointed by General Sheridan: Messrs. Effingham, Lawrence, Plaquemine Parish; J. H. Oglesby, Orleans; J. Burnside, Ascension; W. D. Smith, Jefferson; W. L. McMillan, Carroll.

A fire broke out, yesterday, in a manufactory of composition roofing, endangering the gas works. It was with difficulty subdued. Loss, $12,000.

Negroes attempted yesterday to get up a riot by taking possession of the Rampart street cars and appropriating them to their use—the whites refusing to ride on those appropriated by the blacks. Saturday night negroes threatened to force an entrance into the French Opera House. The equality whites appear determined to take advantage of the temporary reduction of the police force on account of General Sheridan's order to the effect that one half of the old police be discharged and substitud by ex-Union soldiers.

Heavy storm last night. Another crevasse on the west bank of the river, thirteen miles above the railroad.

The steamer Prince Albert, which left Corpus Christi for New Orleans with a cargo of cotton and hides, was wrecked on the beach at West Galveston yesterday. She will be a total loss. There was no insurance. Her crew and passengers were saved.

PROFESSIONAL.

Concentration Gives Strength.

DR. F. B. WALTON TENDERS HIS services to the public in the treatment of the diseases of females. So obscure are many of these, so capricious in their manifestations, so perfectly do they simulate other diseases, that their true character is often overlooked or mistaken; prominent among these are, Neuralgia Dyspepsia, that condition of the system commonly called Nervous or Rheumatic, and General Debility, this last is too often but a symptom of some insidious disease which is sapping the foundations of life. To become expert in the detection of these and skillful in their treatment, requires more labor and research than the general practitioner can bestow. These facts induced him to devote himself to this branch of the profession exclusively. To those interested he would state that he has had the advantages of the best medical schools and extensive hospitals of America; also a practice of more than twenty years in this his native State and in the Tropics, where such diseases most abound. He is permitted also to refer to Drs. Pitman & Hopson, gentlemen who stand deservedly high in the profession. Office, No. 354 Main street. Residence, No. 291 Linden st., Memphis, Tenn. 78

DR. R. L. BUTT,

Office: No. 33 Madison Street,

Residence, No. 201 Monroe St. 79

DR. D. J. O'REILLY,

(Late of Louisville, Kentucky.)

HAVING DETERMINED TO LOCATE permanently in this city, tenders his professional services to the citizens of Memphis.

OFFICE—Over Jehle's store, west side of Main street, No. 279½, between Madison and Court streets.

Office hours—from 9 to 11 a.m. and from 3 to 5 p.m. 73

DR. C. SPIEGEL,

GRADUATE OF THE BEST MEDICAL schools of Europe and the United States, and member of the principal medical societies in the those countries, has practiced medicine in Memphis for the last thirteen years, and continues to offer his professional services to the public, in the treatment of all forms of disease upon the most improved European methods. My vast collections of rare medicines and surgical instruments, with a life-long experience in their administration and use, warrants me in claiming a superiority over the more ordinary method of treating diseases, such as Cancer and tumors of every description, which I cure by Constitutional treatment exclusively, no operation performed by the knife. Diseases of the Eye, Ear and Skin, Consumption and Bronchitis, Rheumatism, Neuralgia, Scrofula, Syphilis, Stricture, Gleet, Gravel, Piles, Dropsy, Fistula in ano; in short all Chronic Diseases, giving especial attention to Female Diseases of every description. I am always ready at all times to consult with first-class Physicians, either by letter or in person, upon all diseases pertaining to Medicine and Surgery. Medicine sent by express to all parts of the world, when desired.

OFFICE—No. 83, south side Monroe, between Main and Second streets, Memphis. Residence, No. 254 Union street. 67

BE NOT DECEIVED.

READER, IF YOU HAVE HAD THE SAD misfortune to contract the accursed disease, known as venerial, in any form, you can be cured (if care not is what stage it may present itself, whether primary, secondary or tertiary), without taking the solitary grain of medicine. After ten years of close investigation and practical experience, I am convinced that internal treatment, for the purpose of effecting a permanent cure of syphilitic diseases is useless, and, that in a large proportion of cases, it absolutely does more harm than good. While under my method of external medication, which is pleasant and agreeable to the patient, I defy competition with any other method known to the medical profession, for speedy and permanent cure—which I guarantee in all cases. In making this important fact known to the public, I wish to state that I am a regular practitioner of medicine; that I am a graduate of the Medical Department of the University of Louisville, Ky., and that my method of treating these diseases has cost years of deep study and close observation.

All diseases of the Ear and Eye treated upon the most improved methods.

Certificate of Rev. M. W. ARNOLD, of Ga. Conf.

HAVING USED THIS MEDICINE SUFficiently long to test its virtue, and to satisfy my own mind that it is an invaluable remedy for Dyspepsia—a disease from which the writer has suffered much for six years—and being persuaded that hundreds who now suffer from this annoying complaint would be signally benefited, as he has been by its use, we deem it a duty we owe to this unfortunate class, to recommend to them the use of this remedy, which has given not only himself but several members of his family the greatest relief.

McGaffey's Cotton Seed Planter.

HOME MANUFACTURE.

THE CHEAPEST AND BEST ONLY $25.

IT HAS BEEN PRACTICALLY TESTED, and is fully guaranteed to do the work as well in ALL respects as is usually done by hand.

It makes the furrow, drops and covers the seed at the rate of from eight to twelve acres per day, with but one horse or mule to draw it, and a hand to guide it and keep it supplied with seed.

The seed is taken from the hopper by rotating fingers, which separate the seed and distribute them EVENLY in the furrow.

It is so simple and complete in its construction that it cannot by any possibility size or become foul, or fail to deposit the seed regularly.

It is fully indorsed by experienced cotton growers, and recommended as a good and practical machine. The best yet invented. It is selling readily, wherever introduced, to prominent planters in Tennessee and Mississippi, as our orders will show.

It has important advantages over machines heretofore used, as will be evident upon inspection.

It has an open seed box, and the seed in the box and in the process of dropping is in plain view of the driver, so that he will not be liable to miss by letting it run out of seed.

It is easy to handle and guide on the ridge, whether straight or curved.

It will drop regular, and never miss or clog with clean or foul seed.
