SEABURY'S MISTAKE.

The Austin correspondent of the Houston Post has the following to say of Brownsville's representative in the state legislature: Representative Seabury of Brownsville has shaved off his mustache and now looks like a boy of 16, though he is almost eleven years older. He represents an area of some 10,000 square miles and a whole lot of people, though when he first came he was mistaken many times for a candidate for a committee clerkship or some other small office.

He made the mistake of introducing a bill to require persons who received letters to answer them within a reasonable time, and though he meant it to be taken in a jocular spirit it had a bad effect and has made many people refuse to consider anything he does as worth considering.

He is a young fellow of good sense, however, and will live down the bad effects of his first legislative joke before the session ends.

THE PAINS OF RHEUMATISM

According to the best authorities, originate in a morbid condition of the blood. Lactic acid, caused by the decomposition of the gelatinous and albuminous tissues, circulates with the blood and attacks the fibrous tissues, particularly in the joints, and thus causes the local manifestations of the disease. The back and shoulders are the parts usually affected by rheumatism, and the joints at the knees, ankles, hips and wrists are also sometimes attacked. Thousands of people have found in Hood's Sarsaparilla a positive and permanent cure for rheumatism. It has had remarkable success in curing the most severe cases. The secret of its success lies in the fact that it attacks at once the cause of the disease by neutralizing the lactic acid and purifying the blood, as well as strengthening every function of the body.
