Mr. Sam Treadwell, recently engaged in the newspaper business at Colorado City, has removed to Waco, and entered the employ of THE NEWS. His estimable wife is the daughter of W. H. What I Know About Hardware and Hard Times.

The cause of hard times is not short crops, floods nor drouths, low price of cotton nor scarcity of money. It is the habit of the people to live beyond their income, or in the language of political economy, consumption is ahead of production. If the man who earns \$50.00 per month and lives comfortably on same, is advanced to \$100.00 per month, will he save his increase? Very seldom. He will at once increase his cost of living. But if the \$100.00 man is reduced to \$50.00, he will go in debt as long as he has credit, before he will reduce his cost of living. Laborers who earn \$40.00 per month spend \$50.00 Those who earn \$100, spend \$150. Farmers spend their crops before there is a seed in the ground. Merchants whose income is \$1000 a year manage to live on \$1500. Cities whose income is \$100,000 spend \$200,000. Railroad Co's., who earn a million a year, spend two million. No one seems to look out for the "rainy day" which is sure to come sooner or later. These deficits (between earnings and expenses) which appear from the lowest to the highest strata of society, accumulate until credit is stretched to the highest tension. A panic is the result. This is the only remedy, for nothing short of absolute necessity will teach the average citizen to live within his income. For your hardware go to
