He Suffered Mental Anguish.

GUTHRIE, Ok., Feb. 2.—The preliminary of a sensational proceeding was filed in the district court at this place. Geo. B. McFarland makes affidavit that F. A. McKennon, a highly connected citizen of Guthrie and a wealthy property-holder in Oklahoma and Arkansas, has wrongfully contrived to deprive the affiant of the comfort, society, love and assistance of his wife, and to alienate and destroy her affection for the said affiant, and has "wickedly and maliciously debauched and carnally known Hattie E. McFarland, the wife of the said affiant." From this cause the plaintiff states that he has suffered great mental anguish and prays for damages in the sum of \$50,000.

McKennon is the owner and proprietor of the opera house and legislative building in this city. His wife died about a month ago. McFarland is a tenant of McKennon's and resides at Oklahoma City. The general opinion seems to be that the suit is a blackmailing scheme, brought for the purpose of extorting money.

Work of Dynamites.

KEARNEY, Neb., Feb. 2.—A dynamite bomb was discovered on the Union Pacific track near Kearney. The bomb had been placed in a switch in such a position it would explode when struck by the train. Two boys found the bomb just before the eastbound passenger train was due and removed the deadly missile, which was turned over to the police.

What I Know About Hardware and Hard Times.

The cause of hard times is not short crops, floods nor drouths, low price of cotton nor scarcity of money. It is the habit of the people to live beyond their income, or in the language of political economy, consumption is ahead of production. If the man who earns \$50.00 per month and lives comfortably on same, is advanced to \$100.00 per month, will he save his increase? Very seldom. He will at once increase his cost of living. But if the \$100.00 man is reduced to \$50.00, he will go in debt as long as he has credit, before he will reduce his cost of living. Laborers who earn \$40.00 per month spend \$50.00. Those who earn \$100, spend \$150. Farmers spend their crops before there is a seed in the ground. Merchants whose income is \$1000 a year manage to live on \$1500. Cities whose income is \$100,000 spend \$200,000. Railroad Co's., who earn a million a year, spend two million. No one seems to look out for the "rainy day" which is sure to come sooner or later. These deficits (between earnings and expenses) which appear from the lowest to the highest strata of society, accumulate until credit is stretched to the highest tension. A panic is the result. This is the only remedy, for nothing short of absolute necessity will teach the average citizen to live within his income. For your hardware go to
