W. L. TUCKER, at "Lion Drug Store."

When you want nice fresh meat mutton beef, pork and puerlard go to MELLOR & DELANEY 125 South Third street.

Cheap Lots.

The only cheap lots offered in Waco for the last five years are those now on the market in the Kirkpatrick Addition, East Waco. These lots are being sold for one-half their real value, making a chance to secure a desirable home such as will never occur again.

Cheap Lots.

These lots lie high and dry. They overlook a large portion of the city and have perfect drainage. They lie in the healthiest part of the city, catching the pure breezes from the prairie untainted by passage over any part of the city.

Cheap Lots.

These lots have the finest soil, a rich sandy loam, admirable for gardens, and are underlaid with pure water in inexhaustible quantities at a depth of fifteen and sixteen feet, which can be used for irrigation.

Cheap Lots.

These lots are closer to the center of the city than any other addition, and at the same distance lots are selling for three and five times the price asked for these. There is millions in it for persons of small means. Call on Mrs. or P. G. Kirkpatrick, southwest corner Eighth and Clay street.

All parties desiring plats of the Kirkpatrick addition can obtain them upon application.

ON THE SUN'S FACE.

THIS IS THE YEAR TO SEE CHASMS

In the Luminary of Day—Our Little Earth Might Be Dropped Into an Umbra Without Making an Impression in the Penumbra.

New York, Feb. 15.—Astronomers are intensely interested just now in the sun spot recently developed on the eastern limit of the sun. By means of a piece of smoked glass everybody may observe this great elasm on the sun's face and it will well repay observation. A warning must be given, however, against the inexperienced use of an opera glass in this connection, as the concentration of the sun's powerful rays is sufficient to crack the glass or burn the eyes. Sun spots will probably be much talked of this year, as a spot period is now approaching, and during a maximum the sun's surface is hardly ever free from spots. Sometimes as many as forty or fifty will be visible at once, while at a minimum not one will be seen for weeks.

The spot period is about eleven years. The last maximum was in 1883-84, but it was a year behind time. It has been established that there is a decided connection between these violent disturbances on the sun and the so called magnetic storms on earth. Such manifestations, for example, as the gorgeous Aurora borealis. Some spots are vast cavities on the photosphere of the sun and it is yet uncertain whether they are caused by or are the cause of eruptions on that intensely heated luminary. They are usually found in two zones extending from 5 degrees to 40 degrees of latitude north and south of the sun's equator and develop rapidly, lasting comparatively but a short time, from a few days to a month or two. One spot was known to have lasted for over fifteen months, but that was an exception. They are usually quite irregular in shape and are composed of two parts, namely, the umbra or black center, which is dark because filled with cooler gases and vapors which consequently absorb light and the fringing gray penumbra, consisting of long feathery filaments reaching toward the middle of the umbra and usually very lovely in form. The diameter of an umbra varies from 500 to 1000 miles in a small spot to tremendous rents of 50,000 or 60,000 miles in a large one into which our little earth might be dropped many times without making an impression on the penumbra.

A Chemist Seeks Protection.

WASHINGTON, Feb. 15.—Hickman P. Rodgers of St. Louis, representing Battle & Co., and the manufacturing chemists of St. Louis, appeared before the committee on patents to advocate Mr. O'Neill's bill providing a penalty for counterfeiting trade-marks. Mr. Rodgers had a number of bottles labeled, which he exhibited to the committee. Some of the stuff in these bottles, it was alleged, was poisonous and dangerous to public health and public comfort. He asserted that quack doctors and quack medical compounders made it a practice to counterfeit the labels of reputable chemists and palm off poisonous concoctions on the public. In the course of his remarks he defined his position to the committee to be not so much in the interest of protection to the manufacturers of chemicals as to the public at large, who are humbugged by counterfeit presentations of legitimate medicines, wares and goods.

Evidence of a Baby Murder.

PALESTINE, Tex., Feb. 15.—Evidence of a most cruel murder was unearthed at the old Duke place, four miles west of the city. Dock Wright, colored, had recently moved on the place, and discovered in a small clump of bushes in the garden a large piece of sheet iron with a rock on it. He became suspicious, but did not disturb the position of the things until a Mr. Peoples came by, and together they explored the ground under the sheet iron, where they found buried a small child with its entire skull crushed in. The child had been buried about six weeks and was so decomposed it was impossible to tell whether it was male or female, black or white. A colored family had been living there previous to the discovery.

Masons of Mississippi.

VICKSBURG, Feb. 15.—Just before its final adjournment Friday the Masonic Grand Lodge of Mississippi adopted the following rule and made it a part of the Masonic law:

"It shall be an offense against Masonry for any Mason not now so engaged in, or any Mason now so engaged, to continue in the buying or selling of intoxicating liquors to be used as beverages after Jan. 1, next, and the penalty therefor shall be expulsion."

Mr. A. T. Roan of Oxford was elected grand master and James T. Harrison of Columbus, deputy grand master.

Did Not Show Up.

WASHINGTON, Feb. 15.—The committee on agriculture waited half an hour for President La Bourne of the New Orleans cotton exchange to put in appearance and then adjourned the anti-option hearing until Monday.

A CHICAGO MYSTERY.

Death in a Hallway of Mrs. Isabelle Farquhar of New York.

CHICAGO, Feb. 15.—The young woman who was found in a dimly lighted hallway at 40 Franklin street Monday evening in a dying condition and who died in the ambulance while being removed to the hospital, has been identified as Mrs. Isabelle Farquhar, who came to Chicago recently from New York.

The identification of the body only deepens the mystery which surrounds the woman's death. About 2 o'clock Monday afternoon Mrs. Farquhar was seen several miles from the spot where she was found dying six hours later. She was then endeavoring to find rooms in which she might conceal herself for a few weeks from a man she claimed as her husband, with whom she had had trouble and of whom she was in great terror. She succeeded in finding rooms to suit her at 375 Center. She paid for them in advance and then left the house, saying that she would be back before evening.

Found in a Pickling Vat.

CHICAGO, Feb. 15.—After an unceasing search for over a month Mrs. Michael Murray found the body of her husband in the pickling vat at the Rush medical college. Jan. 7 Murray was struck by a Grand Trunk engine at a street crossing and taken to Mercy hospital, where he died an hour later. It was not until Jan. 25 that his wife could learn the cause of his disappearance. That day she identified his clothing at the hospital. Then began the search for the body, which the records showed was buried at Dunning. The grave could not be found, however, and it became evident that somebody had disposed of the remains. As a last resort, search of the medical colleges was begun, which finally proved successful. Mrs. Murray has placed the matter in the hands of her lawyers, who say they will seek to prove that the railroad company was instrumental in an attempt to keep Murray's death a mystery.

Legacy Through Murder.

LEAVENWORTH, Kas., Feb. 15.—On the night of Oct. 8, 1890, David E. Davis, now serving a life sentence in the Kansas penitentiary, murdered his wife in this city for the purpose of inheriting her property. A suit has been brought in the district court against the administrator of the murdered woman's estate, which presses the question as yet undecided by the supreme court, whether a man can inherit from his wife, when, by his own hand, he murders her. Davis' attorneys are made parties to the suit, because Davis gave them a mortgage to secure their fees after the murder, and before his conviction. The case comes to trial in April.

Movement to Defeat David B. Hill.

CHICAGO, Feb. 15.—A combination has been engineered in the past ten days to throw the votes of five northwestern states solidly to Cleveland at the Democratic convention so as to offset the effect of Hill's New York convention in February. The states mentioned as being in the combination are Minnesota, Wisconsin, Iowa and the Dakotas. The Minnesota committee will meet Tuesday and name the date of its convention March 22, and the others will follow, all being held before April 15. Boies will receive a complimentary vote from Iowa, but the remaining states named will cast first and last for Cleveland.

A Heroine Meets Death.

WHEELING, W. Va., Feb. 15.—A terrible accident occurred at Cameron near this city, in which two beautiful young girls, daughters of Wm. C. Criswell, a wealthy citizen, lost their lives—one of them while heroically attempting to save the other. Essie and Georiana Criswell, aged respectively 14 and 16, were walking along the Baltimore and Ohio railroad tracks and while attempting to cross in front of a westbound train Essie fell, when the engine was almost upon her. Georiana, seeing her sister's danger, rushed to her rescue. She, too, stumbled and was struck by the locomotive and killed. Essie was cut in two by the wheels.

Tobaccoists Indicted.

MEMPHIS, Feb. 15.—Nearly one hundred tobaccoists and grocers have been indicted by the grand jury for selling cigarettes to boys under 18. The penalty is a fine of not more than \$50 with imprisonment in the workhouse not to exceed a year. The jury is still at work and the small boy and his cigarettes are fewer on the streets.

Army Officer Dead.

St. Paul, Feb. 15.—Lieutenant-Colonel Herbert Cullum Curtis, deputy judge advocate general of the United States army and judge advocate on General Merritt's staff department, Dakota, died here of la grippe. Colonel Curtis served through the war as captain of the First Massachusetts cavalry.

Buildings Burned.

ELIZABETHTOWN, Pa., Feb. 15.—Chronicle block and a number of dwellings were destroyed by fire. The inmates escaped in their night clothing and suffered severely from the extreme cold. Loss, \$25,000.

Waco Evening News Waco Texas.

What Do You Want?

Do you want Agents? Do you want Pupils? Do you want a Partner? Do you want a Situation? Do you want to buy Anything? Do you want a Husband or Wife? Do you want Board or Lodgers?
