What I Know About Hardware and State Politics.

Texas has been injured in many ways. Foreign capital has been kept out. Times have been made harder and the reputation of our people for honesty and fair dealing has been questioned abroad by various blunders of our law-makers. Right now we need a clearheaded business man for governor, one who thoroughly understands the follies of the past and is able to lead the legislature out of the old rut and into the channels of modern economic business methods, a good lawyer, who knows what it requires to make a law stand the test of the courts. First of all such rubbish as the occupation tax law, the anti-trust law and alien land law should be repealed, and next steps should be taken to encourage foreign capital into Texas investments and to open new enterprises and bring Texas back on the road to prosperity. It would be hard to find any more worthy and better qualified for governor than our townsman, George Clark. What adds more to the beauty and comfort of a home than a nice lawn? I still keep the celebrated Pennsylvania mower and have also added a new make which is considered still better but not dearer. After many experiments I have found the best make of garden hose. It cannot possibly leak, wears longer and vet is as cheap as other makes.

Yours for hardware, ED. STRAUSS.

There is still a limited amount of stock to be had in the City Savings Bank.
