THE FIGHT CLOSED.

The Two Political Armies in Rhode Island Resting on Their Arms.
By Associated Press to The News.

PROVIDENCY, April 5.—The eve of the political battle which is to be fought tomorrow finds the work of preparation almost finished, and both parties still professing confidence as to result which each asserts to be a complete or partial victory for its side. The prospect is, however, very uncertain and all sorts of wagers are being made on result of the contest. Democrats finished their rallies last night though they will have some few meetings tonight but none of them will be of very large dimensions. Greatest efforts and biggest speakers having already been put forth.

The Republicans however have reserved some of their powerful ammunition for a parting shot tonight.

EVERYONE KILLED.

Nine Workmen in a Smokeless Powder Factory.

WERE ALL BLOWN TO ATOMS

By an Explosion of Gun Cotton—Not a Man Left to Tell How it Happened—Houses Shaken Blocks Away and Windows and Glass were Smashed to Pieces.

By Associated Press to The News

ST. PETERSBURG, April 5.—Nine men were killed last night by the explosion of five tons of gun cotton in a smokeless powder factory. After the explosion the building in which the gun cotton had been stored was nowhere to be seen. It had been blown into splinters. Nine workmen were in the building when the explosion took place and everyone of them were blown to pieces. Search was made for remnants of their bodies and some of their limbs were found 250 yards away from the building. Gun cotton was stored in a separate building and it may be attributed to that fact that the loss of life was not much greater. Adjoining factories were greatly damaged and five workmen in them were injured. Houses a mile and a quarter away from the scene were made to shake. Windows were shattered and crockery and glass ware thrown to the floor and smashed. The loss from these causes will be quite heavy. There is no possible way of ascertaining how the explosion occurred. Every man in the gun cotton building is dead. It is thought however that the cause is due to carelessness.
