What I Know About Hardware and Republics.

Of all the great republics of Europe none have survived but Little Switzerland, which is always in danger of being "swallowed" by one of her powerful neighbors, and France which is still in the experimental stage. Mexico, Central and South Africa have yet to show to the world that they are capable of self-government. They are as unstable and turbulent politically as they are subject to volcanic eruptions and earthquakes subterraneously. None of them would be able to repell an attack by a first-class European power. The United States is the only successful republic of modern times who is capable to repell any attack from neighbors or abroad, but her danger is inherent. It is universal suffrage. In the very nature of things, the ignorant and vicious cannot rule over the intelligent and virtuous. Every attempt of an ignorant majority to rule over an intelligent minority will result in anarchy and revoultion. The greatest problem for statesmen to solve is how to purify the ballot, how to elliminate force, fraud and bribery; for if the offspring of force and fraud are to rule this country, the days of this republic are numbered. Do you intend to camp out this summer? I can furnish you tents of all these sizes: 5x7, 7x7, 7x9, 8x10, 10x12, 10x14, 12x14, 12x16, 14x16, 14x18, and 16x18 in 9 oz, 10 oz and 12 oz duck. If you do not want a new tent I will sell you a second-hand one at a reduced price, or rent you one by the day or week.

Yours for hardware
