## What I Know About Hardware and Our Artesian Wells.

There is no doubt that our artesian water comes from a higher level than the highest point in and around Waco for water positively refuses to run up hill of its own accord. As the slope of the country is from northwest to southeast, there are strong grounds to believe that the underground waters follows the same course, like the rivers. Rains falling on the sandy plains of the northwest find their way between fissures of rock into beds of sand and gravel. This natural filter removes every particle of organic matter. When tapped here, the water has only a few harmless minerals in solution which it has picked up in its long underground route. The value of these wells to Waco and Texas is inestimable. While we have in the city the best and cheapest water it may revolutionize farming. The farmer may tap an inexhaustible reservoir to drench his crops, instead of depending on the fickle Texas rains. I am still in the screen business and can furnish you all kinds and sizes of doors and window frames at bottom prices. I have a large stock of spring hinges, Torey springs, green and rust-proof wire cloth. In lawn mowers I can give you the best at the lowest price. Have you ever been troubled with leaky hose? Try my solid seamless rubber tube hose. It will not leak.

Yours for hardware,  
ED. STRAUSS,  
Fourth and Mary Streets.

## Edgefield.

This beautiful suburb of the city of Waco is now attracting more attention than any other part of the city. There are several reasons for this.

1. The lots in Edgefield are sold at a very reasonable price.
2. It is close to the schools, and only twenty minutes walk from the postoffice.
3. The lots are on high, sandy soil; no black mud.
4. The prices and terms are within the reach of most anyone.

There are now several new houses going up and many sales of lots are being made. The dummy road is to be transformed into an electric road soon, and this runs within one block of Edgefield. The city has just let the contract for a bridge on First street, which shortens up the distance to Edgefield materially.

Now as a sample of the bargains I will offer this week one lot with two-room house at ten dollars per month. Another corner lot with good two-room house and well of water only \$12 50 per month. Another lot with three-room house only \$15 per month. Also vacant lots at \$375 to \$500. Houses and lots in other portions of the city on easy terms and very low prices. Call and let me show you a bargain. JAMES I. MOORE.

## District Court.

The case of the State of Texas vs. O. W. Buok, charged with manslaughter, came up for trial this morning in the district court. Both the state and the defendant announced ready for trial and the work of empanelling a jury was at once begun. The full panel was secured by noon and the examination of witnesses commenced. The facts in this case were published at the time of the killing of Charlie Fowzer by the defendant, and the trial is creating but little interest. The trial will likely occupy only two or three days, as so far as known the testimony will not be very voluminous.

It is conceded by a popular vote of an overwhelming majority that McKennon Bros. & Co., keeps the best soda drinks and the finest cigars in the city.
