## STATE NEWS.

—The cotton seed oil mill at Greenville will cost about 50,000, and will give employment to about fifty laborers. It will consume about forty tons of seed daily. Work on the buildings is progressing rapidly.

—The comptroller Monday received the assessment rolls of Galveston county as footed up by the assessor. They show a total taxable valuation of \$25,661,400, against \$20,177,190 last year; increase, \$5,484,210.

—Warrants for the arrest of Editors Miguee Dina and Paulino Martinez of El Estigo, a Spanish weekly, for the use of their paper of opprobrious language toward Editor Lozano of La Luz, have been issued at San Antonio. It is an outcome of a standing feud between the men.

—The Waco branch of the San Antonio and Aransas Pass railway has been extended northward from Lexington to Rockdale, Texas, a distance of 171 miles, and was opened for business to Rockdale on Wednesday. The new stations established on this extension are Niles, 94.2 miles from Yoakum and Rockdale 102.5 miles from Yoakum.

—H. Francis Pascal, manager of the Southwestern Enterprise company at El Paso, left town suddenly Monday when it became known that he and his partner were wanted by the government for running a lottery. They were arrested by the local authorities early Monday morning on the charge of swindling, and on finding bail slipped town. Debts to a large amount are owing there.

—Sherman Earls was arrested and lodged in jail at Austin, charged with shooting Marion Jones, at a campmeeting in Travis county. About a week ago Jones cowhided Earls about a lewd woman, and Earls nursed his wrath until Saturday and went to the meeting prepared to get even. They met Sunday morning in an hearbor and hot words followed, and the midst of the congregation Earls opened fire, shooting him twice. The M. D. in attendance thinks Jones will recover.

—The Beaumont Enterprise says: The report of the government engineer on Sabine Pass is most encouraging. The water on the bar is deepening, and there is, or was six months ago, a channel 1000 feet wide, and 10 feet deep all over. But take the center of that channel, say 300 feet wide, and our authority is good in stating that the shallow point is from 14 to 16 feet, to follow the channel. But just as the engineer says, with one-third the money expended, minus the \$300,000 now on hand and at present contracted, the result has been "most satisfactory."

We have before us the record of soundings of April 19, 1891, commencing at gulf end of east jetty, taken about 125 feet apart, and the depth is 16 feet, and the lowest from that to the wreck of the Clifton is 14 feet, 1 inch and that is only one sounding, the remaining average being between 15 and 16 feet.

—The alliance "encampment" that opened at Sulphur Springs Monday promises to be the largest gathering of laboring people ever brought together in Texas. It was estimated that 6,000 visitors or more were present the first day. A correspondent there says: "This is strictly an 'encampment' of and for 'third partyism.' The democrats of this and the surrounding counties asked for a division of time, but no time was granted. Only a few of the speakers have arrived at present, but several prominent men in third party circles will be in on to-night's train."

—Senator Peffer of Kansas, C. A. Power of Terre Haute, Ind., ex-president of the Indiana farmers' alliance, and President Evan Jones. Tuesday Harry Tracy and T. J. Anderson, vice president of the F. S. alliance, are expected. On Wednesday R. W. Coleman, Stump Ashby, W. S. Morgan, Dr. C. W. Maenne, Ralph Beaumont of Washington, D. C., and L. L. Polk of North Carolina, president of the national alliance, are expected. Judge Methodist Jim Davis delivered the address of welcome, and also stated the objects of this grand rallying of laborers. He stated the objects to be, first, to discuss political, economic and social questions; second, the two old parties say that organized labor should not go into politics, but we propose to show you that it must go into politics in order to get relief so vigorously sought for. "Jim's" speech was loudly cheered by the multitude that listened with eager ears what their "soothsayer" had to impart to them. The response by Stump Ashby per program was delivered by Lee Rhodes of the "free state of Van Zandt."

A WASHINGTON special says: "Persons in numerous applications and recommendations for nine circuit judgeships have been arranged by the department of justice, but they will not be forwarded to Cape May as the president has intimated his purpose not to take them up until his return. It is rumored that three of the appointees will be democrats, but nothing definite is known. Should any democrats be selected Judge Culberson will doubtless be one of them, as he has been strongly recommended. Selections will not be finally determined upon until shortly before congress convenes.

The Memphis Appeal-Avalanche, commenting on the trouble with the Coal Creek miners, says: "As it used to be said of the pistol in Texas, a man might pass a lifetime without ever having need of the weapon, but when he did he 'wanted it mighty bad.' So with the state militia. When the state does need soldiers it needs them mightily, and would be completely at a loss without them. It should, therefore, change its policy towards them."

The Farmers' Alliance have been charged with engineering a scheme to form a corner in wheat, and raise the price of it. The charge was denied, but reports say that hundreds of thousands of circulars have been sent out designed to convince the farmers of the country that it is to their advantage to hold back their wheat in order to force up the price.

GREENVILLE Herald: "The fact that Mr. Cleveland's enemies in and out of Texas are raising such a hue and cry against him now is the best evidence that they fear his strength before the people. The politicians are against Mr. Cleveland, and the people are for him. That's what's the matter."

An excursion train at St. Maude, near Vincennes, France, collided with another train. Forty-nine killed and 200 wounded. Six died after being extricated from the wreck. The wreck was caused by the deliberate alteration of the signals so as to bring the two trains into collision.
